

Want and Exchange Column

Advertisements for this column will be received at the rate of 35 cents for 25 words, each additional word one cent. Payments strictly in advance, as the amounts are too small to permit of book-keeping. Write copy of ad. on a separate sheet from any other matter, and on one side of the paper only. Say plainly how many times ad. is to be inserted. Matter must reach us not later than the 23rd of each month.

FOR SALE—140 lbs Beeswax, 30 cents lb, f.o.b. car here; cash with order. A. LAIS, Glen Sandfield, Ont.

WANTED—Comb or Extracted Honey. State probable quantity, quality, how put up, etc. FOSTER & HOLTERMANN, Limited, Brantford, Ont.

lays, larva five

and pupa thirteen, and leaves the cell a
able but perfect insect in twenty-one

This larva is fed on food composed of
honey, pollen and water, partly digested
chyle by the nurse bees, for five
or until it assumes the horizontal
position in the cell, when it receives an
allowance and is sealed over with
rather porous covering, composed of
honey and pollen to allow of ventilation.
When hatched she takes up the work of
hive for about eight days, feeding

in fine afternoons great numbers of
young bees will be seen flying or
