Oshawa, Ont.

lk, 43.08 Holtby, 1109, 4y, lbs_ fat, 8, 31549, Hbs. fat, m. 1878, 3y, 1b: fat, os. 1157, 3y, 1b: fat, Bloom-It is with great reluctance that I am obliged to announce this sale. When I decided to enter

the Holstein business I did so with the idea of buildso with the idea of building up a high testing herd.
A survey of the records made at this farm proves that I have succeeded in so doing. The herd is headed by Kilna SEGIS derial type and the combines the survey of the survey o that he has prepotency is shown by the records of his daughters and sons' daughters, all of whom of daughters, all of whom of milking age have been tested, averaging at 2½ years, 400 lbs. milk and 20 lbs. butter. Here are the records of the noted Walker family:

Six generations of prac-tically 30 lb. cows. Com-bine this with the blood of Pontiac Korndyke and Pontiac Korndyke and King Segis and you have the breeding of most of this herd. Pontiac Sir Korndyke Wayne, the jun-Korndyke Wayne, the jun-jor sire, is an exception-ally fine animal, a son of King Pontiac Artis Can-ada. In establishing this herd, I secured three daughters of Pontiac Korndyke, who has three daughters with records over 100 lbs. Two of these have been developed on this farm. on this farm.

Included in the sale are four 30 lb. cows, one of them a daughter of Pon-tiac Korndyke, with a 29.76 lb. daughter at sec-ond calf. Another is Pie-tertje Pauline Hengerveld,
