

Why live this way—misery!

# Plain Misery

Used to be part of farm life for 7 months in the year. Wise farmers now know better.

People who have put in Gurney-Oxford Hot Water Heating wouldn't go back to the old way of trying to heat by stoves for hundreds of dollars. They don't get old and rheumatic before their time—they don't lose the boys and girls to the city. They save money in doctors' bills. They save a big, fat roll of bills every year on fuel because Gurney-Oxford Hot Water Heating is the most economical kind of heat you can buy. It takes so little carpentry and trouble of any kind to put in hot water heating, and the cost is so moderate, that farmers are astonished when they get our explanatory book, and they wonder why they didn't put in Gurney-Oxford Hot Water Heating long ago. Any argument in this for you?

The Gurney-Oxford Boiler, pipes, valves, fittings, etc., for a house like this, with 800 feet of radiation, cost \$310 F.O.B. Toronto. At this price any reputable fitter can supply the materials, the labor and freight being moderate extras.

The City Home has had it for Years.

## Gurney-Oxford Hot Water Heating

Means a Warm Cosy Home at 6 a.m.

About the cost? Many a farmer puts far more into a horse or a Ford and thinks nothing of it. Yet Gurney-Oxford Hot Water Heating is something that means absolute comfort to the whole family every day of every winter for life. The Boiler, generally put in the cellar, heats the water, which circulates through pipes and radiators all over the house, giving off a balmy, natural warmth which does not dry out the air. No water system is required—a few buckets of water once a year is all you need. The Gurney-Oxford "Economizer," on the Boiler, an exclusive Gurney betterment, enables anyone to regulate the heat to suit the weather outdoors.

Best thing to do is get our free booklet, "City Comfort for Country Homes," fully illustrated, explaining this splendid heating system. Get a copy to-day, a postal will do. Address:

**Gurney Foundry Co., Ltd.**  
Dept. 22, 476-534 West King Street  
TORONTO, ONT.

Also at Montreal, Hamilton, Winnipeg, Calgary, Vancouver

This is the way—comfort!

Send for this Book

EVERY woman who is thinking of buying a Washing Machine should send for this Book. Even if she does not intend to get a machine right away she will enjoy reading about "What John would do if he had to do the Washing," and why he would use a—

No tinkering worry or bother with the Alpha. It plugs right

along like a steady and well broken horse

Anybody can run an Alpha Gas Engine. Your wife can run it, your boy can run it, the hired man can run it.

There is nothing mysterious or complicated about an Alpha. That's why it's an ideal engine for farm use.

Not only does the Alpha work well, but it wears well, because it is made from the very best material

and its workmanship and design are high grade in every particular.

Just give it a supply of gasoline or kerosene, oil it up and give it a pull and it saws your wood, cuts your fodder, grinds your corn, pumps your water, runs your cream separator or your washing machine, or does anything else that you want it to do. It's certainly a great labor saver on the farm.

Eleven sizes, 2 to 28 horse-power. Each furnished in stationary, semi-portable, or portable style, and with either hopper or tank-cooled cylinder.

**DE LAVAL DAIRY SUPPLY CO., Ltd.**

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA. Sole distributors in Canada of the famous De Laval Cream Separators and Alpha Gas Engines. Manufacturers of Ideal Green Feed Silos. Catalogues of any of our lines mailed upon request.

## AGRICULTURAL LIME

The farmers of England have limed their meadows and pasture lands in the fall for hundreds of years. Why? You lime yours and the question will be answered; also lime your plowed clay land this fall. You will find it more tillable and earlier to get on to. That means earlier seeding, and be sure to seed clover where you put lime. Write us for prices, if we have no agent in your locality.
