

SPRAY FIVE ROWS

RELIANCE Five-Row, Two-Horse Potato Sprayer

Sprays five rows at a time. Forty to fifty acres per day. The only one of its kind on the market. Pays for itself in economy of mixture and time saved.

PUMP is large in size and capacity. Made of grey iron cast in one piece. Cylinders are brass tubing.

PUMP DRIVE is by eccentric on axle. Steady and uniform.

AIR CHAMBER is large, and fitted with pressure valve regulated by thumb screw.

NOZZLES, new whirling type. Made of brass and non-rustable and non-corroding.

STRAINING SYSTEM eliminates all chance of clogging.

SPRAY BEAMS are adjustable for wide or narrow rows or straight or crooked rows.

Also for high or low vines. Spray beams are in front and in view of operator at all times. They fold back for passing through gates, etc.

HOSE is high pressure, seven-ply wire bound.

GAUGE GLASS indicates amount of water carried.

SIMPLICITY—On the Reliance all complicated parts are eliminated.

DURABLE, simple and correct in principle and design. Best quality material and workmanship.

Ask your JOHN DEERE dealer to show you the RELIANCE.

THE JOHN

DEERE MFG. COMPANY, LIMITED

WELLAND :: ONTARIO

The United Farmers' Co-operative Co. Limited

will carry on a
CO-OPERATIVE DRIVE
during the
WEEK OF JUNE 14th to 19th

The object of the DRIVE is to raise the subscribed capital stock of the company from

**One Quarter of a Million
to a Million Dollars**

Business of the company during the last year has increased eight fold. This necessitates a large sum of money to finance the transactions, and thus a considerable increase in the capital stock. More capital will improve the service of the company to producer and consumer alike.

Every year the company has paid a seven per cent. dividend on its paid up capital out of profits earned. Prospects are good for it continuing to do this. The stock to be offered furnishes an attractive investment.

KEEP IN MIND

JUNE 14th to 19th

Headquarters: 130 King St. E, Toronto

It made a Success out of a Failure

Three years of crop failure—droughts which caused the loss of hundreds of trees—rains that rotted the roots of the young trees—and then Charles Sheppard discovered the advantages of planting with stumping powder. Today his 30-acre apple orchard is a money-maker.

C.X.L. Stumping Powder

will make your orchard a profit producer, if you do as Mr. Sheppard did—blow out the dead trees with C.X.L. and dig your holes for new trees by the same means. In the first five years their growth is nearly double those of spade-planted trees.

"Explosives for the Farm" tells what C. X. L. Stumping will do in your orchard. Write Dept. P for free copy today.

Tired of the drudgery of hand-milking, he

Intended Selling His Thirty Cows

Good for the Herd

Now he has increased his herd to 50 cows. He is contented, so is his hired help. He lets them off Sunday, and with his boy does the milking easily.

That is an oft-repeated ex-

perience. His hired help always complained of the monotony of hand-milking, so he thought of selling his thirty cows.

But, instead, he bought a

BURRELL B-L-K MILKER

perience. One average man with two 2-cow Burrell Milk-ers can milk from 24 to 30 cows an hour; do the work of three hand-milkers, and do it well.
