The Strongest Fencing

**IS
Anchor
Fencing**

Every wire — of hard galvanized steel — is a strand of strength.

Every clamp (the famous, non-slipping, 1-inch, Japanned or galvanized steel Anchor clamp) irresistibly re-inforces each crossing wire.

Every ratchet, securing the ends, yields automatically to strain — rendering the fence invulnerable to storm, frost and pressure.

Horse-high — dog-tight — bull-proof. Not woven with fence machines which can only use light wires. Anchor Fences are constructed with Nos. 7, 8 or 9 uprights.

Our agent will construct it, or supply all materials, if you wish to employ your own labour. Send for catalogue. Many plain and ornamental designs. Also farm and garden gates. Agents wanted.

Last Mountain Valley Lands

We own thousands of acres of **Choice Selected Land** in this district, which is in the heart of the

GREAT WHEAT PLAINS

OF

SASKATCHEWAN

Ample **TIMBER** for All Purposes

Prof. Thos. Shaw, after personal inspection, writes: "This rich and beautiful farming section lying in the vicinity of Last Mountain Lake, embraces one of the finest areas in the Northwest. The land is undulating in this region, mostly open prairie. The soil is rich black vegetable loam, from one to two feet deep, and is underlaid with a clay subsoil. Frost, to injure the wheat, is virtually unknown. Being thus favored so highly by nature, it is not surprising that the production of wheat in this region is phenomenally high; in several instances forty to forty-five bushels per acre have been reaped. Oats, Barley, Flax and all small grains yield relatively as good as those of wheat. Potatoes grow most luxuriantly. Two or three years ago there were not more than thirty-five settlers in the entire area; now there are over a thousand, and others rapidly coming in."

Send 25c. for our beautiful new photographic souvenir, entitled "The Lake and Lands of Last Mountain Valley," which is not only a work of art, but a book of authentic information. We will also send Atlas of Canada, Maps, etc.
