## To an Absent Husband.

Hasten, thou cherished one, back to thy home Wearily pass the long days till thou come; Long have we wished for thy coming in vain Ne'er will we suffer thine absence again-Hasten then, cherished one, back to thy home, Joyful we'll welcome thee when thou shalt come.

Here love awaits thee, and here thou shalt find Heartless and cold has the world proved to thee; None wilt thou find who will love thee as we: Hasten then, weary one, hasten to come, And share in the joys that await thee at home.

Together again we will read his blest Word;

On love's faithful bosom thou'lt pillow thy head. Hasten, thou cherished one, hasten to come,

Thy long vacant seat at our board thou wilt ted the volcano, and it remained quiescent And, whate'er be our fare we will thankful this, eruptions succeeded one another at

Of the numberless blessings our Lord doth dred and eight years; during which the provide,
And still in his bountiful goodness confide. Hie thee, then, back back to thy once happy

Desolate seems it until thou art come

Cold is the world, and its frowns we must bear, But lightly they'll pass if together we share. Toil and privation may be ours to endure. But religion and love every evil can cure. Wander no longer, then, hasten thee home; Joy has no place in our hearts till thou come. Colchester, July 6.

## Miscellaneous.

## Vesuvius.

The next, in 1660, completely cleared out the vast cavity, and rendered its interior inaccessible from the steepness of its walls The glory of Vesuvius is terrible. Even An American gentleman, whose acquaintin his comparatively tranquil mood, "the ance I have made in Rome, informs me hiding of his power" impresses the beholder with astonishment and awe. What a sight it must be when in eruption! There is nothing on earth I desire to see more than such a phenomenon. There lies Herculaneum, buried beneath six successive then could see nothing but a dark cavern floods of lava, to the depth of eighty or a hundred feet. There lies Pompeii, just craters, divided by a narrow ridge, and both emerging from its volcanic grave-preservfilled with lava to within two or three huned by the very agent of its destruction. dred feet of the top. The fiery mass is in-This mighty ruin, so sudden and entire, cessantly heaving and boiling with a heavy more than any thing else, aids us to a proxsound below; and two black cones, with imate idea of the tremendous forces at work in the interior of the mountain, and loud explosions, are constantly ejecting fire Are now opening their Summer STOCK of and red-hot stones, and gradually piling up in the fiery depths below. the materials for another ruinous deluge.

The younger Pliny tells us that the column of smoke which heralded the first One of these craters is quite inaccessible, grand eruption, in the year 79 of the Christian era, was similar in form to a pine tree. This will hardly be understood by one who upon the black crust of the boiling mass, has never seen the stone-pine of Italy, of which cozed up from many a crevice, and which I believe we have no specimen in flowed in sluggish streams over the surface. America. The tree shoots up to a great | Some writers and tourists in Italy have height without a limb, and then branches spoken of Vesuvius in language of great disout into a broad flat top, something like an respect; and so, I am sorry to say, did one umbrella. Such was the appearance of this of our own company, when we were standtremendous cloud, ascending to an immense ing upon the brink of the crater. Horace altitude, and then spreading over the heavens. Afteward it settled down over land "an accursed monstrosity"—"a vision of and sea, producing darkness deeper than the second death"-" a fetid cancer upon the blackest night; and ever and anon the breast of earth"-" a raw and open ulbroad vivid flashes of lightning broke cer threatening its destruction"-" a black through the gloom, with reports which made heaven and earth quake. The steam which itself to exhaustion"—" the parched shore in torrents of of the ever-absorbing and ever-empty sea of hot water, bringing with it light ashes which filled the air, and sweeping down the loose cinders from the side of the mountain, burying Herculaneum in a deluge of mud, burying Herculaneum in a deluge of mud, says that it is "Nature committing suicide" which penetrated all its houses, and after- -that lava is " of such a lurid tint as might ward hardened into stone. Meantime the represent infernal fire," advancing with glowing ashes piled themselves over the "the united strength and cunning of a loftiest palaces and temples of Pompeii, great serpent," or of "a tiger that steals upproducing a destruction not less effectual on his prey"-that the rocks at the source flame shot up from the mountain, and fire sulphur whose colors might suit the home and noxious vapor burst forth from the of fiends, forming to the eye a dissonance plain. The elder Pliny, who was creeping like that which the ear would experience if along the coast in a galley to rescue his pierced by the harsh cries of witches confriend at Stable from the danger, saw huge juring down the moon from heaven," furmasses, rent from the summit, roll down nishing "all the materials of the poets' porinto the sea; while a tempest of fire and traitures of hell," suggesting "a power of ashes, flint and pumice-stone, beat inces- evil that labors to thwart the designs of santly into the ship. The smoke extended Providence," and starting the inquiry over a vast area, the scoria fell in very " whether goodness presides over the pheremote localities, and the greater part of the nomena of the universe, or some hidden principle forces nature like her sons into mountain was torn away.

The eruption which happened in the year ferocity!" of our Lord 472, described by Procopius, is said to have "covered Europe with ful," as "disgustingly splendid," as to one ashes, which fell even at Constantinople of these authors was the aspect of Vesuvius. and Tripoli." In the eruption of 1631 the It is a libel upon the character of the volcolumn of vapor extended more than a hun- cano, and an unworthy reflection upon the dred miles, and many persons were killed benevolence of the Creator. To me, the by its incessant discharges of electric fire, variegated and blended hues of the crater while seven distinct torrents of lava flowed were exceedingly beautiful, while its form from the crater, destroying Ressina, Granatello, part of Portici, two thirds of Torre The scene thrilled me with ineffable pleadel Greco, and eighteen thousand people sure, and gave new and delightful thoughts perished in the catastrophe. In 1695 the of the power of God and the glory of his mountain poured out a fiery stream, which works. One of our party, after descending flowed between four and five miles, in many said he felt as if he had been in the infernal places three hundred feet deep; and when regions; for my part, I felt as if I had been examined six years afterwards, the interior somewhat nearer heaven. The smoke and of this mass was found to be in a glowing fire made me think of Moses upon "the heat. In 1707 it sent forth a shower of Mount of God," while the glorious prospect ashes, which produced total darkness in that lay spread out beneath and around re-Naples, and was accompanied with the minded me of his Pisgan-view of the Prommost appalling thunder and lightning. In ised Land. One of the writers referred 1730 it hurled red hot stones to the height to above says he cares not " to see such a of fitteen hundred feet above the orifice thing again in this world," and prays that whence they issued. In 1737 the ashes and he may never see anything like it in the pumice fell four feet deep at Ottaiano, sev- next." For my part, I would like to see it eral miles distant; and trees were broken once a week as long as I live; and daily and houses crushed beneath the weight. In while we remained at Naples, the first thing 1760 fifteen small craters threw out im. I did after leaving my chamber in the mornmense quantities of ashes, and two of them ing, and the last before retiring at night, discharged torrents of fire. In 1767 the was to take a look at Vesuvius - Mrs. Cross decks of vessels sixty miles distant were in Nashville Christian Advocate. covered with the falling ashes, and a stream of lava seventy feet deep flowed six miles down the mountain, which was hot enough to set a stick on fire thrust into it a year afterward. In 1779 there was an explosion which the state of th which shook the whole country, and a stuthan heretofore, If you wish anything like three times the height of Vesuvius itself, and vast stones were hurled two thousand feet toward heaven, many of which burst like rockets in the air, and some of the fragments which fell weighed over a hundred pounds, and the roof of every house in Ottaiano was demolished by the fiery hail, and the black cloud of smoke and ashes travelled a header of the survival and travelled a header of the survival and travelled a header of the fifth act of life, you should five occupants, and is in every instance Warranted. Age at Sum Am't paid ded to the now payable to office. The "STAR" Office insures at as low a rate as any of the Offices—and Weslevan Ministers have the advantage

his great and popular preparation is decidedly one the nicest and best articles in the world for the HAIR!

It imparts a richness and brillancy, cleans, ornaments it imparts a retiness and brillancy, cleans, ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and all can rely upon it.

ABRAM A. TRAUX, Fsq. Rotterdam, N. Y., writes: "Am 75 years of age—and was bald 25 years—have used two bottles of your Rosemary, and my hair is two inches long." REV. SYLVANUS COBB, Boston, Mass. "We had rather pay for it than have other preparations for no-thing, &c. MRS. D. TAWT, Cambridge Mass.—"Have used your Rosemary with great success in keeping my hair black, as Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.— Eight MR. DANIEL B. CONNOR, Boston, Mass.—\* Eight months ago I was baid—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.
OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Oblo :—"I t gives a rapid growth, and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass.—"It is the beat thing for children's hair—the ladies are delighted with it," &c.
REV. C. W. DENNISON, Buffalo, N. Y. —"I lind it excellent for the hair."

excellent for the hair."

MRS. L. SWEENY, Boston, Mass:—" It restored my hair to bald head, and from grey to black color," &c. HON. C. HUNT, Lowell, Mass:—" To remove dandruff, and keep the hair moist and glossy we have inever druff, and keep the hair moist and glossy we have never found anything, so good:

M. HOFFMAN, Esq., (Editor German Weekly,) Boston, Mass., and his wife Eva says.—"It causes hair to grow vigorous-gives beauty and splendor—is better than European articles," &c.

G. H. STOCKING, Esq., (Trinity College,) Hartford, Cosn.;—" By using it my hair turned from a sasidy to brown color: it was naturally dry, but is now moist."

A. F. WOOD, Chemist, New Haven, Conn.;—" I saw a fair head of very dark hair on a man that six weeks ago was baid. He had used nothing but your Rosemary," &c.

More extracts could be added if room admitted. If you are not satisfied Tay ir.
