THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages Offered to Insurers.

Very low Rates of Premiums on Young Lives.

The security of a large realised and invested Capital.

Large Bonuses on Policies effected on the high Scale.

Prompt settlement of Losses.

The full value given for Policies when discontinued.

On Insurances for the Whole of Life; one-half of the Premiums may be declared, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insured.

Loans upon Policies for the Whole of Life, after payment of large Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.

Pensions for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.

Insurances, if required immediately, may be effected any day between the hours of 10 and 4.

The Pamphlets published by this Company fully explaining the merits of Life Insurance; and copies thereof may be had, gratis, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

H. Le Routh, Esq. | Wm. Lunn, Esq.

Physician—G. E. Bantley, Esq., M.D.
Surgeon—H. T. Peltier, Esq., M.D.

Frederick R. Starr, Esq.,
General Agent for the B. N. A. Colonies.

THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—

The peculiar Benefits secured to the Assured by the principle of the LOAN Department.

One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on interest, to be deducted from the Policy on the death of the Assured.

Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary embarrassment, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

The Bonuses divided triennially, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years, at which period a Bonus is payable for the Four Years—Annually afterwards.

THIRTY DAYS allowed after each Payment of Premium becomes due, without Forfeiture of Policy.

The General Agency for the British North American Colonies being established in Montreal, RISKS will be accepted by the General Agent and Temporary Policies at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies conducted, thereby affording to the Assured every facility.

LOANS will be Granted, and LOSSES PAID, at the General Agency, without referring to London.

Pamphlets, Blanks, and all requisite information, may be had on application at the MONTREAL REAL OFFICE, or to the AGENTS throughout the Province, through whom proposals for Assurance will be transmitted.

MINERAL WATERS OF POINT DU JOUR, PARISH OF L'ASSOMPTION.

THESE truly valuable WATERS are distinguished for the large quantity of Iron and Saline they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest excess in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

R. Evq de Kingston,	A. Nelson, M. D.,
Jos. M. Belanger, P.P.,	J. B. Meilleur, M. D.,
F. C. A. Mussie, M.D.,	A. E. Regnier, M.D.,
Amable Simard, M.D.,	A. Rollin, M.D.,
L. G. Cazeneuve, M.D.,	C. Sabourin, M. D.,
E. H. Trudel, M.D.,	F. X. Rimond, M.D.,
W. Nelson, M. D.,	F. H. Latour, M.D.,
R. L. Macdonnell, M.D.,	F. Ed'Orsonnens, M.D.,
G. B. Blaud, M.D.,	Dr. Borion.

Persons who have not received the little volume containing these certificates at length, can obtain it at the Depots, where the Waters are Sold; by reading it, they will feel convinced that they have effected wonderful cures in various cases, and that they have been found superior to all others.

Riviere Des Prairies, March 1, 1850.

Sir,—Since you are desirous to ascertain the effect which the Waters of the Point du Jour Springs have produced on myself, I must inform you, that I have used them medicinally at their Source, and have found them highly salubrious. I was at the time so affected by the consequences of a severe disease of the Digestive Organs, that my Physician judged it right to suspend for a time all medicinal remedies, even for the repression of Dyspepsia and an absolute Retention of the Bowels, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of those of the Point du Jour, as being the nearest. I was at the time so weak, that it was with difficulty I kept my feet. However, at the expiration of three weeks, I was restored by the using the Waters. These Waters are of a gaseous nature, containing a large quantity of saline part cles, and agreeable in the taste—taken in a large dose they are strongly laxative, but their purgative properties are unattended with gripings,—those even who have been using them have not been weakened or enervated in their constitutions by it consequence; upon the contrary, by using them they find their appetite increased, and their digestion rendered more regular. After a dose of 3 or 4 Gallons, I found that they had the effect of increasing the urinary secretions at first, and that these decreased in the same proportion that the alvine secretions increased. The action of the nervous and sanguinary systems were thereby diminished and instead of finding myself moderately augmented, I found, instead of finding myself moderately augmented, I had been during some days before them, I perceived myself involuntarily disposed to pleasure and gaiety. Many who, in the same circumstances, made use of the Waters by the recommendation of Dr. Caseneuve, experienced the same effects. To conclude, I am of opinion, in conformity with the Analysis made by T. S. Hunt, Esq., that Physicians might employ it successfully in the same cases for which the Plantagenet Waters are so judiciously recommended.

Yours, respectfully,

AMABLE SIMARD, M. D.

St. Joseph's Convent, May 14, 1850.

Sir,—I observe with pleasure that the Mineral Waters, at their source at Point du Jour, Parish of the Assumption, (L'Assomption,) are acquiring the celebrity they deserve. For myself, who am, perhaps, one of the first that alluded to them in the newspapers, in the year 1836, I can testify, that since then I have had occasion to try various Mineral Waters, nevertheless I have never doubted that the preference must be given to those of Point du Jour—having myself had much experience.

The Proprietors have their Depot established at No. 6, Jacques Cartier Place, next door to the Hotel of Serafino Girardi, Esq. The distance for conveying the Waters to the Depot is so trifling, that we are enabled to have a constant supply fresh, and are consequently in possession of a better market than any other person. Prices, 7½d. per gallon, and 2s. the dozen, (in bottles.) Sick persons, unable to pay for it, can have some gratis, by producing a certificate from their Physician, since we are unwilling that any should be deprived of these healing and wonderful Waters, prepared by Providence for his creatures, which are apparently designed for the alleviation and cure of many protracted and dangerous diseases.

OVERWHELMING TESTIMONIES.

OVER HALF A MILLION OF TESTIMONIES have been received by the proprietors of HOLLOWAY'S ALL-HEALING OINTMENT, From Physicians the most skilful and celebrated, from Counsellors learned in the Law, from Judges of celebrity on the Bench, from Ministers of the Gospel, whose undeviating integrity have made them shining lights in the path of Truth, from enlightened Professors, from acute Merchants, and from those of every station, name and degree, give among mankind of every station, without one dissenting voice, proclaim this Ointment to be INFALLIBLE in the cure of Tumors, Ulcers, Sores, Burns, Tetter, Piles, Scrofula, Erysipelas, Chilblains, Scald Head, Sore Eyes, Quinsy, Croup, Rheumatism, Broken Breast, Ague in the Face, Gout, &c. It completely restores the INSENSIBLE PERSPIRATION, and by this means opens those obstructions which cause internal diseases, and moist matter of the whole mass of blood is rendered pure, and the health restored.

It has power to cause all external Sores, Scrofulous Humors, Chilblains, and Poisonous Wounds, to discharge their putrid matter, and then heal them, and will certainly be found to be efficient and certain.

BOGLE'S HYPERION FLUID, FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being but only of many similar ones.

Boston, Feb. 14, 1847.

Mr. Wm. Bogle.—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place—soft and glossy—and, children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE, A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and this the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, &c., and a few, EVERY morning before shaving, will be found sufficient to render the face soft and beautiful, and since then I have had occasion to try various Mineral Waters, nevertheless I have never doubted that the preference must be given to those of Point du Jour—having myself had much experience.

BALDNESS CURED.

The following is from Sumner P. Barrett, Saratoga Street, East Boston:

East Boston, Feb. 8, 1847.

Mr. William Bogle.—Dear Sir: For several years past, my child has been troubled with Scaldhead on the Crown of the head, about six or seven inches in circumference. After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the growth of the hair would have been speedier. I am, Sir, yours respectfully, SUMNER P. BARRETT.

BOGLE'S HEBEAIONA, FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Pimples, Tetter, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally precious in protecting the skin from the hot suns of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found at the toilet of fashion.

All the above articles have stood the test of the severest investigation, and are WARRANTED superior to anything yet invented.

£100 REWARD.

WHEREAS some malicious person or persons have circulated a REPORT that SEVERAL HUNDRED CHESTS OF DAMAGED TEAS, and in bad condition, and from the Sea, were purchased by us, and from which circumstance we infer that parties who will bring to conviction the author, or authors, of such malicious and unfounded report, will confer a favor on us, and we hereby offer a REWARD of £100 to any person who will bring to conviction the author, or authors, of such malicious and unfounded report, and will be entitled to secrecy if required by parties.

N. B. It is well known that we have been the importers of the Celebrated Tea and Coffee now in Canada, from the Canton Company's Establishment for the Extraction of Tea and Coffee in other the Empire of Eastern Provinces, and, by my own personal visit, I have been placed in the proud position which it now holds, notwithstanding the most strenuous opposition from parties who were interested in keeping the Public in the dark, as to the existence of such an establishment. It is also well known that I have never interfered with others; that I have never exposed the known fact of the utter impossibility of the Chinese to produce a proper condition, and, consequently, a palatable, healthy article for consumption, either Tea or Coffee, when packed in common, ordinary, and, indeed, injurious, tin cases, as long as they continue to do so; and I have only to say, that should the calumniator, whoever he may be, persist in the publication of the names of the purchasers of the Damaged Teas, above referred to, which is now in my possession, as I again repeat, no man shall sport with my hard-earned reputation with impunity.

PLANTAGENET WATER.

Among the objects of attraction at the late Industrial Fair, the celebrated Plantagenet Water held a conspicuous position, and its claims to public favor were fully sustained with the most favorable results. The demand at the Depot for this health-imparting draught was so urgent that it was with great difficulty strangers and visitors to the city could be supplied. The scientific of these Mineral Springs has been so thoroughly and satisfactorily established that testimony of the most valuable character seems daily accumulating. The highly recognizable curdifficulties given in our paper of to-day will, if possible, increase their reputation, and add to their value throughout the Province. The testimony of the medical gentlemen is certainly highly favorable to the character and quality of these Springs.—Dem. Record and Gaz., placing the up above all other Mineral waters on this Continent.—

"I believe I was one of the first Practitioners of this city who recommended the use of the Plantagenet Spring Water, and since that time I have prescribed it to a very large number of my patients with invariable advantage. "Two members of my family, of feeble and delicate constitutions, have derived marked benefit from the use of the Water. One had nearly lost all power in the right arm, the result of a severe and protracted attack of Rheumatism; the other was extensively debilitated from derangement of the digestive and alimentary organs.

"The administration of the Water is attended with the happiest result in constipation, arising from sedentary habits, and in aged persons.

"In heartburn, morning sickness, and the other complaints to which women are subject under certain circumstances, it acts most agreeably and effectually, but in these derangements, as well as where there is over action

THIS GALVANIC EMBROCATION is an unparalleled remedy for the Cure of Rheumatism, Acute or Chronic, Gout, Lumbago, Head-ache, Sore Throat, Deafness, Bruises, and Cuts, in its worst forms, Palsy, Fits, Scrofula or King's Evil, Spinal and Side Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, Salt Rheum, Ring Worms, White Swellings, Diseases of the Skin, Erysipelas, Goitre or Thick Neck. It is likewise highly recommended in the most confirmed cases of Scrofula and Scrofulous Affections of the Neck, Affections of the Spine, Mercurial Affections, &c. &c.

It is now generally admitted, by the learned and scientific, that the mysterious power called *Galvanism* or *Magnetism* is in fact the principle of Vitality or Life, and that disease in many of its most painful forms is entirely owing to the absence of this Galvanic or Magnetic power in its healthy proportions. If, then, we can readily supply the wonderful power, when it is thus deficient, by any successfully tested, disease; and this has been fully and perfectly attained by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid which has cost the inventor of this remedy years of study and labor.

To the Public, as an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in any remedy offered to the public, we would say, that we have used it, and have personally proved its efficacy, either on sale, under the name of Galvanism, makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, or corresponding previous experience of their beneficial use. The Proprietor of the Galvanic Embrocation has much pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend the Embrocation in their practice, and from them he has received the highest testimonials of approval and commendation.
