Petrograd, Jan. 3.—Via London.—
By holding the Teutonic forces on the line of Vladimir-Volynski, on the Galician frontier, while fortifying and Galician frontier, while fortifying and pressing forward at some points, the Russians have checked the German at-Kolki and improve their position

tempt to advance from the direction along the Kovel railway eastward to wards Sarny. North of Gzartorysk the Russians drove the Germans back and occupied the town of Khriasi. The very fact that the Russians are advancing along the Kovel-Rovno railway is held by military men to be of great importance, since it indicates concentration with a view of taking

Kovel, an important point of communication between the German and Austrian front. In order to relieve the pressure on the Kovel-Sarny line, the Teutons counter-attacked south west of Kolki, but without result, it is announced here. On the Galician front, it is stated

in reports received in Petrograd, be-

tween the Rivers Sereth and Strypa, before which the Russian troops had H. E. AYLIFFE taken up positions, the Moskovites apparently have commenced an offensive and advanced as far as the left bank of the Strypa, between Buczacz and Sokolow. The region on the left bank of the Styr is still held against serious attempts of the Austrians to advance. TERRIFIC EXPLOSION

Burst.

Burst.

attempts of the Austrians to advance. The greatest activity appears now along the Stripa on both sides of Buczacz. Here the Russians have driven the opposing forces back from fifteen to seventeen miles from their positions. It is stated that the Russians continue to hold and fortify the newly acquired territory, although battle is still progressing. The capture of the heights north of Czernowitz, where nearly 900 prisoners were taken

Glasses That Become You cannot be picked out of a box on the shelf or from a card in a tencent store. They must be made especially for you.

Glasses that are made especially to fit and become you usually cost no more than the readymade kind that are carried around in a grip or kept in a box on the shelf. It's simply a question of facilities and skill.

We have every facility for the manufacture right here on the premises of glasses for your individual requirements and we have the expert optical skill to make them right.

Glasses are the most conspicuous things we wear. It doesn't pay to get along with "misfits."
