Four Score Years

A very pleasing event took place on Tuesday evening, March 7th, when the children and grand-children of Mr. and Mrs. Robert Spence, to the number of 25, assembled at the parental home on Main street, to celebrate their father's 80th birthday.

In replying to his children's greetings, Mr. Spence said, "Mother and I are very happy to have you all with us tonight. We are sorry our youngest boy and his wife, also one grandson could not be here, but we have very many things to be thankful for, and I think it is wonderful that we have lived to see this day, with not one break in our family. All our dear children and grand-children are well and happy, and we thank God for all His blessings".

After refreshments, the evening was spent in music and games, Mr. Spence joining with the others in singing many of the old time favorites. He received many congratulations from friends and relatives, also a deputation from the King's Daughters conveying their hearty good wishes, and joining with the family in wishing him many happy returns of his birthday.

The Bible

To the Members of Grace Church:

Arrangements have been made with the Editor whereby a weekly Lenten letter will appear in the Review, and the paper sent to all our members.

The Bible! Always a live topic. There are many gainsayers and many foolish exponents. Remember the gigantic fact, the Bible was completed 1700 years ago. There are hundreds of thousands of copies and versions and translations all in practical agreement. There 700 translations in different languages extant. Some so called great men make certain positive statements, a bishop, a professor or what-not. Some laugh, some are aghast. Who can say, for example, whether the Bible is or is not "folk lore"? When you see or hear some startling statement, go back to your Bible. Read it with an open mind. It has cured millions of broken hearts. Let scoffers and careless ones alike beware. The Bible itself says, "Behold, ye despisers and wonder and perish". The Bible stands for itself. Invoke its blessings, provoke not its curses.

H. J. LEAKE.

To the Editor,—

It is reported that the hot lunch experiment at our school has caused disorder at the noon period and is proving a failure. The Inspector says the pupils should not have to pay any fee, and the teacher who undertook the job has been accepting money from the scholars. Has she a domestic science certificate? If not is she qualified to supervise the work? It was tried in a school about the size of ours last year (Stoney Creek) and proved a failure and was thrown out. It may be alright in a small rural school where the teacher as well as all the pupils take their lunch and the teacher remains at the school for the entire noon period and keeps order. It appears to be unpopular with the majority and was only given a trial to satisfy the whim of a few faddists.
