Detectives Now Looking For a Man Named Havens.

Laporte, Ind., May 18.—The possible determination that the globules of metal found by the mining operations on the Gunness farm yesterday were bits of gold used by a dentist for fillings or crowns on women's teeth is likely to be a development of importance in the case to-day. The specimens were turned over to a local jeweler last night, and it is expected that he will report them soon.

The mystery has reached a stage where the determination of such facts is of major importance. The discovery of additional bodies is a remote possibility, and the identification of any of the seven cadavers remaining unmarked is even more distantly to be expected.

Yesterday's developments did little to
elucidate any of the unsolved problems. The attorneys for the defence are said to be looking for David Havens, who, it is reported, aided in uncovering the bodies of the persons whom Lamphere is accused of murdering. According to the information current here, they claim that Havens was declared an undesirable citi by Sheriff Smutzer, and ordered away from Laporte shortly after the fire. The attorneys also claim that Havens has declared that when the bodies were found in the cellar of the Gunness home on April 28 that they were lying on the floor, and that there was no debris under them. They assert that the testimony to this effect at the trial will do much to clear their client

stroyed the farmhouse.

The testimony of the other men who helped Sheriff Smutzer uncover the corpses and of the sheriff himself, however, is against this supposition.

French and Spanish Troops In Fight at Casa Blanca.

Spanish Newspapers Want Their Troops Withdrawn

Casa Blanca, May 18.—There was an acounter on May 12 between French and Spanish troops quartered in the port. The Spaniards fired first, it is alleged and the French Zouaves replied in kind One Spaniard was killed and another was wounded, while the French had two wounded. At the conclusion of the incident Col. Desmoutiers assumed com-

mand over the area reserved under the policing agreement to Spain.

The encounter, which took place at one of the city gates, was the outcome of a guarral between some Spains and of a quarrel between some Spanish sol-diers and an unarmed Algerian sharpdiers and an unarmed Algerian sharp-shooter. The Algerian was knocked down and beaten by the Spaniards, and is now dying. A sergeant of Zouaves, who was in charge of the gate, rushed to the aid of the sharpshooter, and, with the aid of a French subaltern, tried to intervene. The sergeant and the officer were without arms. At this point some Spaniards behind a wall opened fire. The interchange of shots continued several minutes. The firing from the French side was done by Zouaves.
