## NO GREAT ENTHUSIASM

Belgrade, Lavishly Decorated, However, Filled With Visitors.

Only Four Governments Have Sent Special Messages of Congratulation to King Peter On His Coronation, the Others Being Represented in a Merely Formal Manner—Memory of the Regicides Still Casts a Shadow.

Belgrade, Sept. 20.—The city, which is lavishly decorated, is filled with visitors, but there is no great enthusiasm over the approaching coronation of King Peter, which will occur to-morrow. The weather is cold and rainy and threatens to spoil the festivities, while the people are inclined to complain of the waste of money spent in the coronation, although the amount is not large.

Only the Governments of Germany, Austria, Italy and Roumania have sent special messages of congratulations. The other powers will be represented at the coronation in a merely formal manner, and some of them, like Great Britain and Holland, who withdrew their Ministers after the assassination of King Alexander and Queen Draga, are taking practically no part in the affair. In fact, the memory of the regicides still casts a shadow over the court. It is rumored that King Peter receives threatening letters, and is in constant communication with the secret police.

### Caused a Sensation.

Belgrade, Serbia, Sept. 20.—All the powers have instructed their Ministers here to attend the coronation of King Peter on Wednesday next, except Russia, whose action has caused a sensation.

### ROME STRIKE ABANDONED.

Disturbances Took Place at Palermo, Genoa and Turin.

Rome, Sept. 20.—The workmen have decided to abandon the strike, and the city has resumed its normal aspect.

At Palermo, Sicily, however, the strikers and police were in collision during yesterday, and the former displayed a red flag.

Disturbances also occurred at Genoa yesterday in which anarchists violently participated. They burned a number of street cars and destroyed a flag hoisted in honor of the birth of the Crown Prince. Lack of bread led to the outbreak at Genoa. Two thousand troops have been sent to that city.

The strikers at Turin have destroyed considerable property.

Premier Giolitti left yesterday for Racconigo, Piedmont, to perform his official duty as Crown notary, of registering the birth of the Crown Prince.

### Riots in Switzerland.

Lugano, Switzerland, Sept. 20.—A meeting held here yesterday to protest against the labor policy of the Italian ministry developed riotous proceedings. The rioters proceeded to the Italian Consulate, from which they tore the Italian coat of arms and threw it into the lake.

### C.P.R. Boilermakers Work.

Winnipeg, Sept. 20.—The strike of C. P. R. boilermakers is over. By an agreement reached between the men and the company on Saturday night, the former consented to return to work yesterday morning. The wage difficulty was settled by a compromise, the men securing an addition of one cent per hour to their scale, bringing their scale up to 32 cents to 34 cents per hour. Besides this, a clause of the agreement provides for further consideration of their schedule by the company.

### Would Like Peaceful Solution.

Toronto, Sept. 20.—The eighth annual convention of the International Structural Iron Workers' Union opened in the Labor Temple on Church street yesterday. About 200 delegates were present from the United States and Canada. The delegates were welcomed by Mayor Urquhart and Ald. Ramsden. The president, Frank Buchanan of New York, in replying, said that trade unionism desired a peaceful solution of industrial problems, but was prepared to fight for the rights of labor.

### Labor Congress.

Montreal, Sept. 20.—A large number of delegates from all parts of the country attended the opening session yesterday of the Trades and Labor Congress of Canada. John A. Fleet, president, was in the chair. Mayor Laporte extended a welcome to the delegates. The sessions will continue all the week.

### Balfour and Lyttleton Heroes.

London, Sept. 20.—Premier Balfour and Lord Lyttleton rescued several small boys from a boat yesterday off the Scottish coast. They were playing golf at Earl Wemyss' links when they were interrupted by the loud cries of the boys, whose boat was being rapidly carried seaward. The Premier, heading the rescue party, launched a heavy surf boat, and all waded up to their waists to shove it clear. The boys were saved.

### G.T.P. Party Returns.

Toronto, Sept. 20.—Senator Cox has returned from the five weeks' tour of investigation and inspection to the Pacific coast. The other members of the Grand Trunk Pacific party continued east to Montreal. No information has yet been given out as to the western terminus.

### To Extradite Hamel.

Ottawa, Sept. 20.—The Imperial Government have intimated their willingness to try and arrange with the Cuban authorities for the extradition of the Montreal absconder, Hamel, who is wanted for forging cheques on the Bank of Montreal to the amount of \$30,000.

### THE CAMPAIGN SHEETS.

To the Editor of The Planet:

Sir.—In reading the pamphlet sent out by the government through the "would-be" member, D. A. Gordon, in reference to the removal from office of Lord Dundonald, there are many things in it that I would take exception to, but one of them, and perhaps the weakest, I here mention. On page 13 it states that any men born in Canada it would be superfluous to instruct in cutting down trees. This is simply absurd; the pioneers of the country doubtless learned by experience how to cut down trees, because at that time the country was all bush. Our lumbermen know how to do it because it is their business, but neither the pioneers or lumbermen could cut down trees in the sense that Lord Dundonald meant, without instruction, i. e., cut in such a way as to render them fit for the various uses put to in military purposes.

The pamphlet is misleading in many ways to all save those who have a knowledge of military matters. Lord Dundonald, when he referred to teaching cutting down trees meant what is taught in the short course of military engineering in Para 1-27, 32-45, in "Instructions of Military Engineering," and Para 152-178 in "Field Fortification." Again I maintain it does not follow because a man is a born Canadian he can cut down a tree now-a-days. If taught he probably can do it as well as anyone else, but take for example our good little regiment here. I think they would make a poor job of cutting timber without instruction, suitable for making single and double sling bridges 40 and 50 feet wide, likewise trestle bridges to be made hastily, or cutting the brush and binding suitable for making huts, sentry boxes, etc. It

must not be for a moment allowed that the present generation, when timber is so scarce, can live on the reputation of their forefathers. The Russians have been rated according to the deeds of their forefathers, but the present shows that they are deficient. Circumstances, be it remembered, alter cases. I remain, Yours truly,

CONSERVATIVE.

Special offer during opening week—all our \$1.25 and \$1.35 dress goods, this week only, for 98c, at Thibodeau & Jacques.
