REX MAGNUS (THE MIGHTY KING.) What it is, and What it Does

, IT IS THE Humiston Food Preservative

A ND, as its name signifies, is a Mighty King, an invincible conqueror. It is safe, tasteless, pure and harmiess. Its special field of usefulness is in the preservation of lood, such as lish, meaks, ovsters, cream, etc., either in large or small quantities—and it does it. Words are cheap,

and so is Rex Magnus, in all its several Brands. Every word used by the proprietors of this preparation, in stating its nature, characteristics and effects upon food, is strictly true. Corroborative testimony can and will be cheerfully tendered. The best proof, however, is to buy a box, test its effects yourself, and you too will agree with us. You do not have to buy a "right" or costly "receipt" but get your money's worth.

A 35 days test, in a temperature averaging 70 As day's test, in a temperature averaging to Prof. Sannel W, Johnson, the well known chemist and for more than 25 years identified with the Scientific bepartment of Yele College, furnishes the following report concerning Rex Magnus:

"My tests of 35 days on meats, &c., bought in open mariest have certainly been severe in daily mean temperature of 70°, and I am satisfied that the different brands of Rex Magnus, The Humiston bare excomplished all cleined for them. So far as I have yet learned, they are the only preparations that are effective, and of the same time practicable, for domestic use. At the banquet on 'treated' meats at the New Haven House I could not distinguish between those which had been sixten days in my laboratory and those mostly takes from the refrigerator of the

No preparation has ever performed such marvellous cures, or maintained so wide a reputation, as Amer's Cherry Protoral, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts specifily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in throat and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and operation, physiciaus use the Cherry Pretoral extensively in their practice, and clergymen recommend it. It is absolutely certain in its healing effects, and will always cure where cures are possible.
