WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS.

WEDNESDAY, July 30

Dulness and inactivity have been the salient been due partly to small offerings, rendering any sions. If any business has been done it has not but we believe that the market really has been quiet, and p.t. sales comparatively few during the favourable, save that there seems to be some reason what, in this neighbourhood. Another week, howcidedly irregular. English quotations show spring prices of white and club lower : corn has advanced an easy feeling prevalent, and the upward moveactivity in trade; but still left prices steady with holders not inclined to press sales. The quanti-ty of wheat and flour on transit for the United Kingdom on the 24th inst., showed a decrease of 25,000 parters, against 1,379,000 on the 10th inst., and 701,000 at the corresponding date last year. The total supply wheat and flour in the week ending on the 19th inst. was equal to 322,812 to 370,625 qrs. dicating a deficiency under consumption of 50,075 to 2,290,000 to 2,320,000 bushels, v. an average weekly 774 bushels in 1876, and 773,858 bushels in 1875. Further cable advices to the 21st inst. state menced, and harvest could not begin even in the Wheat came into ear on the 1st inst., which is the sest date for it in 46 years, and 24 days later than favourable; circumstances only two-thirds of a barley was still worse. Prices were tending upwards and the advance seems to have been regarded by the best authorities as perfectly justifiable. ary, at the commencement of each season, it is comwest to the 5th instant were equal to 88,270,*

800 cwts. of wheat against 85,019,000
in the corresponding period last season.

Continental advices by mail to the 12th inst. state that in France during the preceding week, continua miny and cold weather had further compromise the wheat crop, and the reports from that country the country markets were very small, and the apof the limited reserves still remaining in hand. A

increased steadiness, and prices advanced in 24 out

with New York press quotes Iron"In consequence of the somewhat more favourable; though dull, weaker, the grain trade at the safety collural markets this weak has been less active. Prices, however, are well supported, and is some instances slightly improved. Cargoes are firmly hold, just byers above but like degast into the content of the grain and the business in wheat on a limited scale. White sorts nearly maintained to the sacred and the response in wheat on a limited scale. White sorts nearly maintained to the scale with a business in wheat on a limited scale. White sorts nearly maintained scale. White sorts nearly maintained to the scale was quoted at 42 th to 45 at 10 th 10

At the same time prices were firmly maintained in in many districts on the shores of the Volga. The stores which were destroyed by fire at the close of June, in the government of Samara, contained considerable quantities of grain, and this was causing holders to show more reserve. At Alexandria trade remaided as dull as before. On this continent, mar-kets have been irregular; prices in the States have

been controlled very largely by daily reports of the situation in Europe. The "cornering" influence seems to be fer the present at an end, and markets are thought to rest chiefly on the basis of supply busy cutting spring wheat last week, and the harvest was expected to be general this week. A fair average yield seems generally to be expected. The barley crop was being gathered, and a few days of fine weather would finish the work with the crop in fine condition. The movement of wheat has cont to be on a large scale; the receipts at seab ports for the week ending on the 19th inst. were 3,664,450 bush., v. 1,406,808 bush. the previous week, and 128,568 bush. the corresponding week in rope for the week were 2,160,366 bush., v. 2,073,391 bush the previous week, and for the last eight weeks, 15,889,263 bush., v. 9,811,811 bush. the corresponding eight weeks in 1878. The movement of the new crop of winter wheat is much earlier than usual, being earlier than last season. The movement of new winter wheat in Cincinnati and St. Louis is already upwards of 1,500,000 bush per week.

f.o.c. Extra seems rather unsettled; it brought equal to \$4.85 here on Thursday, and sold at equal to \$4.77; on Monday, while a fancy brand brought equal to \$5.06 on Eriday. Spring extra has been scarce and held higher; the only sale reported through the week was that of 100 barrels on Monday at \$4.80 f.o.c. Strong bakers has been very scarce, and prices covered a wide range according to quantity, but \$5 was paid last week and on Tuesday. The market to-day was inactive, with some enquiry for car-lots of superior at \$5, and of extra at \$4.80, but no sales reported.

BRAN—Has been inactive, but

BRAN—Has been inactive; but one lot of half-a-car sold at \$8.50 on track. to \$4.90. Small lots are up to \$4.25 to \$4.50.

Wheat—The demand has been very slack, and until the last couple of days holders were not inclined to sell; prices have declined in sympathy with outside falls, and an sidvance in ocean freights. Fall was neglected last week; and the only sale reported is that of two cars of No. 2 on Tuesday at \$1.06 f.o.c., but on Tuesday it was offered at \$1.05 and No. 3 was offered at \$1.05 with no bids for either. The market to-day showed no improvement; any grade could have been bought as lows on Tuesday, but there was no demand for any. On the street prices declined to \$1 to \$1.02 for fall, and \$5c to \$1 for spring.

Onts—thave been in lair demand at steady but generally unchanged prices. Western sold to a small extent last week at 40c f.o.c., but has been very scarce. Eastern has sold almost daily at 384-ot 59c for cars on track, the latter price being paid on Tuesday. No movement was reported to-day, but values were steady. Street receipts nil; from 40 to 42c would have been paid.

BARLET—There is still nothing doing either in lots or on the street; but there seems reason to fear that rains since our last may have done some damage in this neighbourhood, as some samples, considerably discoloured, have been received. Prass—Seem inactive, with little demand, but are held firmly. Buyers could probably be found at 62 to 63c for No. 2 inspected, but holders want more; no sales reported. Street receipts nil; but values from 58 to 63c. RYE-Remains nominal at 52 to 53c.

POTATORS—Nothing doing in car-lots; street receipts large and sufficient, and prices again easier a from \$1.25 to \$1.50 per barrel.

SHEEF—The market has shown but little change; offerings have been of fair amount, but have sold fairly well at steady prices. The demand for export lots has been maintained; good wethers averaging from 130 lbs. upwards have been readily taken at \$4.50 to \$4.62 per cental, or \$6 to \$7 each. Second-class are not much wanted, and have sold slowly at \$4 to \$4.75. Third-class consisting of culls from export lots have ranged from \$5 to \$3.75.

HIDES, SKINS AND WOOL. TRADE—Has been generally quiet.

and noth these and cured remain quies at former prices.

PRIME—Have been in good supply but are unchanged at 55c for the best green.

Lamsakins—Receipts have been large and prices remain as before at 55c for the best green, but the lat prox may bring an advance.

Woot.—Has been weak and tending downwards, with sales small. Some few lots have changed hands at 20c; at 20jc and 21c for new fleece, but it is doubtful whether the latter price could now be obtained; indeed it seemed improbable that it would be paid to-day. Pulled wools are nominal.

TALLOW—Offerings have been large and prices weak; a lot of about 9,090 lbs sold at 53c, and dealers now are not often paying over 54c.

Quotations stand as follows:—No. 1 inspected, choice, \$5.00; No. 2 inspected, \$7.00; No. 3 inspected, \$6.00; Calfakins, green, 13c; Calfakins, cured, 18½ to 14c; calfakins, dry, none; pelts, 25 to 35c; Lambakins, 40to 55c; Wool, pulled super, 20 to 21c; extra super, none; Wool, pickings, 6 to 7c; Tallow, rough, 3jc; rendered, 5½ to 55c.

ed. Country dealers seem inclined to wait to see the barvest in before committing themselves to any increase of purchases. The sorting-up trade continues to be up to the average at this season. Prices are steady, and the increased firmness in leather and hides is expected to keep them so. Quotations are as follows:—Men's Calf Boots, \$3 to \$4; Men's Stoga Boots, \$1.50 to \$2.80; Men's Kip Boots, \$1.75 to \$3.25; Men's Pegged Con. COAL AND WOOD. COAL AND WOOD.

Coal has been decidedly active, chiefly in consequence of a reduction of fifty cents in hard, leading buyers to push in their orders at the fall. Wood also has been selling freely, at former prices. Quotations stand as follows:—Large egg, \$4.00; small egg, \$4.00; stove, \$4.00; nut, \$4.00; Briare Hill and Mount Morris, \$5.00; Lehigh lump, \$6.50 to \$6.75; Blossburgh, \$5.00; Maple, delivered from the yard, \$4.50; pine, \$3.50.
