Will Close on Friday.

The Trade has decided to close all day on Friday, which has been proclaimed as a Day of Mourning and arrangements made for holding memorial services. The official memorial service will be held in the Church of England Cathedral, and other memorial services will be held elsewhere. The suspension of business on that day of National Mourning is the only course consistent with respect to ourselves, decency to the dead monarch, and honour to the Throne. The adoption of any other course would have belied our assertions of regard for the British Throne, and would have sullied our standing as the oldest of the British Colonies. Not only will Friday be held as a Day of Mourning throughout the Empire, but in many of the foreign commercial centres of the world, stock exchanges will suspend business on the day of the Peacemaker's funeral. Kings and special envoys are assembling in London to pay the last respects of the Nation, and represent to the great citizen of the world, and it is but right and proper that the token of respect decided on by the St. John's Importers' Association should be paid. It is in accordance with the course followed when Victoria the Good was buried.

The Open Door for Consumption

And How "Father Morrissey's No. 10" (Lung Tonic) Closes It.

A low run-down condition, with perhaps a neglected cold and a little cough, is a cordial invitation to the White Plague, Consumption, to come in and make itself at home. And it seldom overlooks the invitation.

In such a case there is no time to be lost. The door must be promptly closed. This can be done by taking a complete rest, with plenty of fresh air, and "Father Morrissey's No. 10" (Lung Tonic). This medicine clears out the passages, relieves the cough and heals the delicate membrane of lungs and air passages. But perhaps most important of all, it builds up the whole system, giving Nature the needed assistance in fighting off the dread disease.

Though other remedies may have failed, don't give up. Try "Father Morrissey's No. 10", combined with fresh air and exercise, and even though you are in the first stages of consumption there is hope of a permanent cure. Sample bottle 5c. Regular size 50c. at your dealer's, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

Supreme Court.

(In Chambers.)

Before Chief Justice Horwood.

In the matter of Henry Mallow, deceased, between the York Harbor Mining Co. and Elizabeth Frances Mallow. This is an application on the part of the plaintiff company, which admits its liability to pay compensation to the defendants of the deceased in the amount of \$1,136.80 for settlement of the claim of the defendants of Henry Mallow, deceased, upon the plaintiff company, and for directions as to when the said compensation shall be paid and in what proportion and other directions as to the disposal of the same. Mr. Conroy for the company moves for leave to pay the sum named into court. A. J. Herder for the defendant accepts this sum and asks that the amount be paid in half yearly instalments of \$100. It is ordered that \$1,136.80 be paid into court in settlement of the claim of the defendants. An order will be made later as to the apportionment of the funds.

Fire at Gov't. House.

Yesterday at Government House, about noon, Lieut. Gale, A.D.C. to His Excellency the Governor, got the smell of smoke in different parts of the building, and fearing that an incipient fire was in progress, investigated. After going through various departments he went to the upper flat, and there in a room saw several pairs of men's overalls laying on a table. These were on fire and were quickly quenched, but not before some of them were destroyed and the table considerably charred. A telephone message was sent to the Central fire department and Supt. Dunn and Fireman Organ went to the vice-regal residence, but the danger was then over. Workmen around the grounds had left their overalls there, and one of them had put a lighter pipe in his pocket unwittingly and had forgotten it when he left the clothing there. But for the action of Mr. Gale a destructive fire might have occurred.

DO YOU KNOW YOUR AILMENT? Or is it a complication which can be reached only by DR. CHASE'S KIDNEY-LIVER PILLS.

There is only one medicine that can prove thoroughly satisfactory in complicated ailments of the liver and kidneys, and that is Dr. Chase's Kidney-Liver Pills.

They begin by regulating the bowels and awakening the action of the liver, thereby effecting a thorough cleansing of the excretory system. By thus removing the poisons from the system they lighten the work of the kidneys and gradually restore them to health.

Nobody who once learns of the definite and certain action of Dr. Chase's Kidney-Liver Pills in regulating and invigorating the kidneys, liver and bowels, is willing to take chances by experimenting with other medicines.

Such ailments as biliousness, constipation, chronic indigestion, liver complaint and kidney disease yield readily to this treatment.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cts. a box, at all dealers, or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipe.

HALLEY'S COMET.

WILL THE TAIL HIT THE EARTH TO-MORROW?

Signs that will show whether the filmy tail of Halley's comet envelopes the world on the night of May 18, if the tail is the necessary 15,000,000 miles long, are mentioned by Professor Turner. "It is impossible," he remarked, "to say with any certainty whether any influence may be detected on May 18. Possibly delicate instruments for recording atmospheric electricity might show some disturbance; possibly, if there are solid particles in the tail at such a distance, a few meteors may be seen; possibly nothing will happen at all; and this last alternative is by far the most likely, for according to recent observations the tail is far too short to reach us."

As illustrating the nature of the comet's tail Professor Turner observed: "If anybody could catch a little comet's tail in a bottle he would find that less than a hundredthousandth part of the atmosphere in the bottle would be due to comet's tail."

Sir Robert Ball is to give a lecture upon Halley's comet on May 18, the day upon which the earth will probably pass through the comet's tail, in the Large Queen's Hall.—Daily Mail.

Makes Hair Grow.

Your dealer has an invigorator that will grow hair or money back.

The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, can't be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold by all dealers under a positive guarantee to cure Dandruff, stop Falling Hair and Itching Scalp in ten days, or money back. A large bottle costs 50 cents. The word "SALVIA" (Latin for sage) is on every bottle.

There are many tooth pastes before the public just now, but we should like to say a word about one that certainly deserves to be better known.

Most dentifrices now-a-days are flavoured with either wintergreen or peppermint. Some people dislike both these flavours and will be glad to know of a really reliable dentifrice sold at a popular price which has a very pleasant Rose flavor. White Rose Tooth Paste is quite unsurpassed in all the qualities which go to make up a first class tooth preparation, and will give general satisfaction as it becomes more widely known. Price, 25c. a tube.—adv.

The Flying of the Royal Standard

London, May 12.—Few persons are aware that there are forms and ceremonies connected with the use of the British flag besides the regulations as to signalling of messages and the display in the times of general rejoicing. But there are, and the use of the Royal Standard is an interesting case in point. It is never lowered on occasions of death, excepting in the case of the sovereign, and this has accounted for the late King's colors at his castles and palaces always being at the mast-head on the death of a member or relative of the royal family. On the demise of the King the Standard was lowered, probably for the first time since his Majesty's accession. The position of the Standard on the flagstaff at Buckingham Palace every morning during the last illness of the King was a matter of much interest to the many journalists and others who were waiting for what they knew would eventually be serious news.
