

French Departments of Var, Pyrenees An interesting innovation will be

Orientales, and the Alps Maritimes. made in the designing of the battleship New York, which is now under These roots, fashioned into rough blocks containing sufficient wood to construction at the Brooklyn navy make one or more pipes, are sold at yard. This is a large and commodious room in a location very accessible 77 cents to \$7.72 ner gross of twelve lozen. The price varies according to visitors, which is to be used as a nu the actual demand and the quality of rary and reception room for the memthe roots. These blocks are known bers of the crew's library, and the room is to be fitted with reading s ebauchons or rough shapes.

The annual production in France tables, writing desks, paper and magastimated at \$1,930,000 to \$2,316,000. zine racks and chairs. Adjacent to this room are to be lavatory facilities epresenting about 15,000,000 pipes. Of these, not more than \$193,000 worth for the use of guests of the crew. This provision is new in warship design.

That is what a critical user of "Globe-Wernicke" cabinet says of his equipment. Another says "It leaves nothing to be desired." Another says "So complete yet so concise." Another "Perfection as a filing arrangement." Another_"It is really indispensable." Another "A surprising advance in handling records." Another "A welcome improvement in office conditions"-and so on. The ex-

tensive sale of "Globe" filing cabinets in St. John's is by no means as re markable as the abundant evidence that it is on merit alone that these devices have earned such generous appreciation. For certain when you become a user you will be well coned with your adaptable and liable outfit. Mr. Percie Johnson has your catalogue ready for the asking as well as other necessary details.

Adopting American Fash ons

Many Chinese women are adopting, bookmakers' art.

Caucasian clothing, modified to suit Chinese taste. "This change, though limited to a comparatively small number, is having a marked effect upon trade." writes Consul General George E. Anderson of Hongkong. 'Hongkong shop windows-the more fashionable shons that cater to Chin-

ese trade-are full of modifications of foreign dress for the use of Chinese women, and manikins displaying styles are of a distinctly foreign cast. Formerly warmth in winter in China was obtained by a series of garments of various qualities and weights-the number of undergarments, all similar to the outer garment, being proportioned to the temperature. The in-

troduction of knit wear, however, has made these several lavers of clothing unnecessary and the change has resulted in a difference in the cut of outer garments. The coat, formerly reaching just below the hips, has Been lengthened into what is practically a skirt, almost covering the trousers. In the cut of these skirts,

or long coats, fashionable Chinese, women now generally affect foreign styles."

or about 2,000,000 pipes, are "unfin ished," and are for export. It is said that a large proportion of the so-call ed "English" pipes are entirely manu actured at St. Claude, and are exportd ready for sale. Considerable se

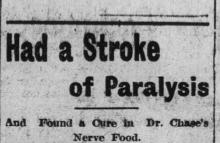

recy is observed, because of the many attempts that have been made to get inside information and to in duce French workmen to go abroad with the promise of extremely high wages.

The average wholesale price of pipe sold retail at 48 cents is \$2.31 per dozen, and this may be taken as basis for estimating the wholesale price of both the more expensive and the cheaper varieties.

Duke's Library.

New York, March 17 .- The privat ibrary of the Duke of Devonshir cne of the most famous in the world. is reported to have been purchased by Henry E. Huntington, multi-millionaire railroad man, nephew of the lat:

Collis P. Huntington. The library has been valued at \$1,700,000 and contains some of the finest examples of the

It is always better to prevent seri-ous diseases of the nerves. There are many warnings, such as sleepleseness, irritability, headaches and nervous ndigest

Prostration, paralysis and locomo-or ataxia only come when the nerv-ous system is greatly exhausted. Ever though your allment may not yet be-very serious, there is a great satisfac-tion in knowing that Dr. Chase's Nerve Food will cure paralysis in its.

Merve Food win cure states in its earlier stages. Mrs. R. Bright, 215 Booth avenue, Toronto, writes: "Two years ago my husband had a stroke which loft him in a weak, nervous condition. He started taking Dr. Chase's Nerve Food and we say and Midney-Layer Pills, and we saw

The good results almost immediatery. They have made a new mail of my husband and we cannot speak tor highly of them." Dr. Chase's Nerve Food, 50 cents a oox, 6 for \$2.50, all deplets, or Fol-manson, Bates & All deplets, To-March 23, 1914.

KING AND QUEEN IN MUSIC HALL.

London, March 17 .- Militant suffra gettes contributed an extra and unrehearsed "turn" to the programme given before King George and Queen Mary at a music hall performance tolay in aid of a hospital.

During the singing of the National Anthem a shower of suffragette pamohlets fluttered from the gallery above the Royal Box. Some of the papers floated into the box.

Simultaneously, a woman, occupying a place in the stalls of the theatre rose, and pointing a finger at the Royal party, shouted: "Your Majesties. Mrs. Pankhurst is in prison. I therefore-

The woman was unable to proceed further with her speech, as a detective clapped his hand over her mouth, ind she was escorted out of the th atre.

Just after the performance opened a number of women arose and began to chant "Votes for Women."

The King seemed amused, but Queen Mary glanced coldly in the direction of the noisemaker and then turned away. The suffragettes were subdued by attaches of the theatre and the performance was continued.

A word to those who wear "Twenty-five cent Glasses." Do you realize that by so doing, you virtually admit that twenty-five cents is the value you place upon God's greatest gift to you? There is no law to prevent you from injuring your eyes by using such glasses excepting, per-

course you don't know why cheap glasses play such havoc with

eyes, and health generally, nor does the man who sells them to you know.

and if you would interest yourself to the extent of asking him to explain you would never look through a pair of them. Anything more perfect or beautiful than the human eye would
