

Sulpho-Nathol
 "Plays the deuce with Mosquitos," so a troutler told us.

Add a few drops to a small phial of Olive Oil which you may carry in your vest pocket, and each time you wash when out camping, put a few drops in the washing water. Sprinkle on shoulders or hat, the odor alone keeps the pest at bay. Friday, Saturday and Monday 10c
 Small Bottles 25c
 Large Bottles 30c
 (A Bottle should be in every home for disinfecting.)

Methodist Conference.

(By Rev. Charles Lench, Conference Reporter.)

Tuesday was a busy day at the Conference. The Laymen's Missionary Committee and the Standing Missionary Committee reported, and some lively discussions took place in which the acknowledged debates of the Conference took place. The Conference is anxious to do its best the coming year to reach the objective of \$21,000 for Missions.

The Rev. Mr. Arnp, the Missionary Secretary, whose visit to the city has brought sunshine into the work of the Conference by his sermons, addresses, etc., said good-bye. The Conference placed on record its high appreciation of Mr. Arnp's visit.

The Rev. Mr. Hull also took farewell of the Conference, and like Mr. Arnp, expressed himself as very much pleased with his visit to our city.

The Rev. Dr. Morton, an old St. John's pastor, who served the circuits of George St. and Gower St. some years ago, addressed the Conference. Mr. Morton represented his Department, the Supernumerary Fund. The feeling which found emphasis from the laymen was to the effect that the time had come to remove the injustice of inadequately providing for the needs of the ministers in their old age.

In the evening session, several important committees got through their reports. The Lord's Day Observance Committee brought in its report with regard to the sanctity of the Lord's Day.

The Laymen's Report. The Laymen's Report was of great interest and brought forth some lively speeches.

References were made to the fact that the Methodists were not properly represented in the Civil Service of the Colony. Over \$24,000 were due the Methodists and many positions in the Civil Service. The Conference in its wisdom decided that the time had come to appoint a vigilance committee to keep the matter before the authorities, and acted accordingly. A long discussion took place concerning the laxity in enforcing the Prohibition Act. The Temperance watch-dogs gave the Conference some marvelous facts regarding medical prescriptions. There must have been many very sick people in the city the last few months, if it is true that "scripts" were issued in such numbers. The resolution embodied the representation of the matter to the legislators to enact a law that shall say how much alcohol shall be prescribed by a medical man at one time for each patient.

The laymen called for the Minutes of Conference as they used to be printed before the introduction of the Year Book, i.e., the separate printing of the minutes.

Other vital matters were incorporated in the report, which evidenced the fact that the laymen of the Conference are wide awake and are making a patriotic stand. On Patriotic Gambling. The following resolution passed the Conference:

"RESOLVED, that the Conference direct the attention of the Department of Justice to the common and frequent violation of the Lottery Act. Even under the name of patriotic purposes this Act is violated as an every day occurrence. It is the opinion of the Conference that our Constabulary forces should take this matter vigorously in hand."

The Conference deprecated this means of making gain out of the war under the name of patriotism, or making the national distress a medium of graft.

A Patriotic Resolution. The following resolution stands just where the Conference stands in its attitude towards the Empire's titanic struggle. As every Methodist Parsonage is represented where an available young man was forthcoming the resolution is more than mere empty sentimentalism.

"WHEREAS, in answer to the call of the nation's needs, which has come to us during the titanic struggle between the various nations, there has been a splendid and inspiring response by the young men of Newfoundland; and whereas it is imperative that in justice and loyalty to the brave men who have fallen and those who are still fighting, we maintain our Newfoundland Regiment in full strength on the firing line; and whereas the present system of recruiting is slow, costly and inefficient, and that it is of the essence of democracy that the rights and privileges of citizenship carry with them the obligation of service to the State to the extent of life itself;

"BE IT THEREFORE RESOLVED that this Conference place on record its opinion that the Legislature during this session should enact a law empowering the Government to require the enrollment of all male citizens of military age, and that from these be selected a sufficient number to fill all vacancies and keep our Regiment at full strength and provide the required number; resolved further that we recommend that copies of the resolution be forwarded to His Excellency the Governor and to the Prime Minister."

The resolution was adopted by a standing vote.
