Public Notice!

The attention of the public is called to the seriousness of the COAL situation.

There is at present in St. John's a quantity of coal ready for immediate delivery. Those who are able to stock coal for the coming winter would be well advised to secure same immediately.

Coal which has to be stored for autumn delivery is liable to be much more expensive because of possible shortage of supply, shortage of tonnage and because of an additional charge for cost of storage.

Buy now and you not only save money for yourself, but you help to keep the price of coal from soaring to an excessive figure during the Winter and early Spring when navigation is closed.
