**GENERAL MOTORS IS GOOD "BUY" FOR BEGINNERS.**

With a High last April of \$42 per share, and intrinsic value greatly increased since then; with cash dividend of \$1.00 per share per year still maintained; with a recent inventory greatly reduced; with its recent \$27,000,000 new financing, and with J. P. Morgan and the Du Ponts in control—  
GENERAL MOTORS is unquestionably a good purchase on margin at current price levels and we cheerfully recommend it to our clients as being one of the few motor issues with an extremely bright outlook. Beginners may open an account for as low as 5 shares if desired, but don't neglect to get some while low prices prevail. Present quotation \$16.50.  
**J. J. LACEY & COMPANY, LIMITED,**  
STOCKS AND BONDS.

**Notice to the Public!**

Since Re-starting business in 1919 I have been warned that there would be a scarcity of

**First-Class Material.**

With a view to ensuring a supply to meet my customers' requirements I have during that period made heavy purchases of costly goods to an extent, owing to the general depression, in excess of my needs.

In order to capitalize this stock and incidentally to provide employment for my staff of workmen, I have decided to make a large sacrifice by reducing the price of my Suits and Overcoats until this stock is sold out.

With the exception of a few super-quality Cashmeres and Overcoatings I propose to offer the whole of my stock with

**A Discount of from Fifteen to Twenty-Five per cent. for Cash.**

At these new figures profit is practically eliminated and in some instances an actual loss will be incurred. This, however, cannot be obviated if I am to achieve my threefold aim—to dispose of my stock, find employment for my staff, and to induce my customers to renew their normal patronage, which may have felt it imperative to curtail owing to the necessarily high costs.

Trusting to be favored by an early call where your commands will receive my prompt and careful attention.

**J. J. STRANG.**  
Tailor of Quality.

**COALOX!**

**Saves Coal and Money**  
COALOX is a reddish powder containing chemicals which, when dissolved in water and sprinkled over coal, effects a great saving.  
One ingredient retards the escape of burnable gases and gives time for the other chemicals to create more oxygen and so aid in a more even and total combustion.  
When COALOX is not used 75 per cent. of the efficiency goes up the flue unburnt. When COALOX is used nearly 60 per cent. is saved.  
The fact that customers come back for more is its best recommendation.

**ROBERT TEMPLETON**
