Prospecting for Oil.

Geologists Return From West Coast Messrs. Weatherhead, Schofield and Templeton, of the Technical Expert staff of the Anglo-Persian Oil Co. who have been making a geological survey of the West Coast on behalf of their Company, are now in the city and will be returning to England shortly. They have been in Newfoundland since June.

Mr. Weatherhead, interviewed by the Telegram this morning, declined to make any statement as to the success or otherwise of their survey. He also refused to express any opinion on Newfoundland as an oil producing country, and said it would be impossible for him to do so as he had not yet reported to the directors of the D'Arcy Exploration Co., which is a subsidiary branch of the Anglo-Persian Oil Co. It will be remembered that the Government entered into an agreement with the D'Arcy Exploration Co. during the late session of the Legislature, whereby the Company had the right to prospect for petroleum on any unoccupied Crown Lands. The Company has to furnish reports of all surveys to the Government from time to time. If at any time petroleum is discovered in commercial quantities "the Company or any lessee or lessees to whom leases may be granted, shall proceed with all reasonable speed and continuously to work and develop same."

YOUR-TEETH

EPYORRHEA AGAIN.

Pyorrhea is so insidious that we want to repeat again and again our former warnings against it. It is not painful as a rule, and that very fact makes it all the more dangerous. Watch for those bleeding gums, they are your warnings. Do not give your body a chance to absorb poisons that come from bad teeth or diseased gums. Anything from a headache to a serious illness may result from your neglect. Pyorrhea is a dreadful disease.

BULGARIANS ON TRIAL.
SOFIA, Oct. 13. The trial of Bulgarians accused of war crimes opened here yesterday in the theatre here, which was crowded to capacity. The accused men include former Cabinet Ministers and two Generals. They are charged with high treason in favor of Germany, and misappropriation of public funds. The Public Prosecutor is demanding the death penalty for most of the defendants.

GERMANY TO-DAY.
LONDON, Oct. 13. Sir John Aldrich, General Manager of the Canadian Bank of Commerce, has returned to London after an extensive survey through France, Belgium and Germany. Interviewed to-day, Sir John told of some of the impressions he had gathered from his tour. The one outstanding fact, he said, was that everybody on the continent was working hard, and there certainly was no unemployment at the present time. In Germany the people are miserably, at any rate, being well and well dressed. Germany appears as well organized as it was before the war, and traffic on the railways and the Rhine River is handled in a thoroughly efficient manner. Germany, in fact, was living within herself, and the Canadian banker said it was impossible to think that she would become bankrupt even though the mark might sink to a figure near its practical abolition. Moreover, the Germans are producing a class of goods better than the same class can be produced in Great Britain. Germany is selling these goods to European countries and quite extensively to Russia, Mexico and South American States. From Russia Germany has obtained good foreign exchange in payment for these goods.

ELSIE WINS THE RACE.
GLOUCESTER, Oct. 13. The Elsie, the saucy little schooner

out of Gloucester, to-day, won the title as the fastest in the fisheries of New England, and the selection as racing representative of the United States in the International match to be sailed with the Canadian champion off Halifax nine days hence. In the forty-mile race off Cape Ann with the winds and course that provided a lively test of sailing qualities, she outpaced four other speedy vessels of the Gloucester and Provincetown fleets. The time of the winner was 5 hours, 14 minutes, 32 seconds. She slipped along at twelve to fifteen knots speed at times in reaches and runs with a twenty-four knot breeze. Except for a reach of five miles to the first mark, in which the Arthur James led, the Elsie was in front of the fleet all the way. Ralph Brown well handled but not so well trimmed, unexpectedly outstripped all other vessels and gained second place at the finish, eleven minutes astern. The Arthur James, which sailed a duel with Brown for second place over the most of the course was third. Elsie G. Silva was fourth and little Philip P. Mania fifth. "The Elsie is a faster boat than the Esperanto," Captain Marty Welch said after the race, in remarking that she "sailed beautifully." The course today was forty miles, as it was chartered, but fifty miles or more as it was raced, because of the added distance in windward work. The Elsie will sail for Halifax on Saturday, Captain Welch announced to-night.

GERMANY DISSATISFIED.
BERLIN, Oct. 13. An official communication says in part, "At yesterday's sitting of the Cabinet the Chancellor voiced the general indignation of the country at reports, which are not denied, that the Council of the League of Nations has decided the fate of Silesia, on lines which do not correspond either with the results of the plebiscite or the economic needs of the country. The

Chancellor said that if the reports were correct German towns, with all the fruits of German labor and German intelligence, would be separated from the Empire and placed under foreign domination."

"SELLING PROSPERITY."
DETROIT, Oct. 13. A poster advertising campaign for the purpose of "selling prosperity" to the country, has been decided on by the Poster Advertising Association in convention here. Delegates voted to donate one million and a quarter dollars worth of advertising space to carry to the public messages designed to promote a general business revival. Members of the New York Rotary Club have underwritten the cost of lithographing and distributing the posters.

CANADA'S WAR PENSION LIST.
OTTAWA, Oct. 13. Canada's annual pension list in respect of the late war amounts to \$30,802,608, payable to 50,287 disabled soldiers and 19,411 dependents. The figures are for June 30 of this year, just issued by the Department of Soldiers' Civil Re-establishment. The total amount paid out in pensions up to August 31st last was \$101,414,216.

CONFLICTING ANSWERS.
LONDON, Oct. 13. Members of the British Cabinet and the Sinn Fein leaders conferring here, to-day, in an endeavor to settle the future of Ireland, adjourned at 1:30 o'clock this afternoon, after having been in session only an hour and a half. Arthur Griffith, Sinn Fein head of the Irish Legation, was asked by a correspondent, "When are you coming back?" Michael Collins, Sinn Fein Minister of the Irish Republican Army, interjected, "we are not coming back." Griffith then answered, "We are coming back at eleven o'clock to-morrow."

THE FINAL GAME.
NEW YORK, Oct. 13. The Giants whitewashed the Yankees this afternoon one to nothing, in the eighth and final game of the series. Neft pitched for the Giants and Hoyt for the Yankees. Hoyt's lack of control in the first innings, followed by an error by Pochingough, resulted in the Giant's run. The Yankees won three games of eight in the series.

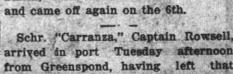

Signposts of the Sea.
The ordinary magnetic compass has one great fault: its needle does not point to the North Pole, but is always some distance to one side or the other of the true north line. Further, this deviation varies from year to year, and it is seldom the same in any two parts of the world. This kind of compass, too, is liable to be upset if there are metals or magnetic substances in its neighborhood.

The latest instrument carried by all great ships is called the gyro-compass. It consists for the most part of a heavy wheel turned at very high speed by an electric motor. The axle of the wheel is so mounted that it can turn in any direction. If its axle can swing on its mounting, a heavy wheel rotating at high speed will point always in the same direction. The gyro-compass is set while the ship is in harbour, and no matter how much the ship rolls, or what turns she makes, its wheel remains faithful to its original direction. Owing to its jointed mounting it does not follow the movements of the ship.

Sir Richard promised to give a copy of the message he would send to Lt.-Col. Nangle and of the reply from that gentleman to the reservists.

School Boy History.

(From an Exchange.)
A boy in a Welsh school assayed to write on Henry VIII, and a London paper reports him as beginning thus:
"King Henry VIII was the greatest widower that ever lived. He was born at Anno Domino in the year 1066. He had 510 wives besides children. The first was beheaded and executed. The second was revoked. She never smiled again. Henry 8 was succeeded on the throne by Mary Queen of Scots sometimes known as the Lady of the Lake."
