By permission of the King the new arrangement recently went into effect. The Cheshire Cheese

Sooner or later every Canadian who omes to London visits the Fleet St. "Cheshire Cheese" that ancient chop-house which it were profane to call a restaurant; he samples the famous pudding of rumpsteak, kidney, larks and oysters, and sits in Dr. Johnson's traditional chair. The one hundred and forty-eight Pudding Season was opened with due cereony on Oct. 1st, Lord Burnham esiding from Dr. Johnson's seat. It is the custom that on these festive occasions the principal guest shall carve the dainty, and this year the duty fell to the French Amba the Comte de Saint Aulaire, assiste by Admiral Mark Kerr. Somebody has said that the first step towards aternational friendship would be to do away with the two worst brands of assassin in the world, Paris taxirivers and English cooks. The Amassador, after an ultra-British meal (the proper sequels to the noble pudding are pancakes and toasted cheese) was good enough to deny the second part of the statement, saying that if his countrym share his good fortune of that eve ing, they would recognize the the Frenchmen and Englishmen wer ethren in gastronomy as in every
