CASTLE MOUNTAIN NOTES

Castle Mount station will be a busy point, for the next two weeks members of the Canadian Alpine Club and their baggage and supplies being put off at this point to commence their trip to their annual camp nine miles south.

A party of Calgary prospectors left Castle Mount today to locate claims on a rich vein of silver ore which has been found near Castle Mount. Old timers will remember that when the railway first went through the Bow Pass that a hustling mining camp was located at Castle Mount, and a town called Silver City was laid out on the strength of a deposit of silver ore which failed to give results when worked. The party was organized by Mr. MacMillan, of Calgary, and they will be away for four or five days.

Calgary, Tuesday and Wednesday, August 6 and 7

METHUSALEH OF THIS AGE WAS AZTEC

Lived 785 Years, Ate What He Liked, Drank Moderately and Smoked Cigarettes

Austin, Texas, July 25.—Further substantiation of the report from Tuxpan, Mexico, of the death a few days ago at that place of Jose Calvario, an Aztec Indian, at an age lacking only 15 years of the two-century mark, was contained in a letter received here today from Frank L. Watson, an American mining man, of Colima, Mexico. It was at Tuxpan on the day Calvario died, he writes. "I had seen the old man walking about the streets of the town many times, and he was often pointed out to me as being nearly 200 years old. So interested were the state officials in the report of the great age of the man that a special commission was appointed to investigate the claim. The records of the parish church show that he was born in 1227. He left several thousand descendants. He often told his friends in a joking manner that he had the largest family of any man in the world. No one knows how many times he was married, but it is commonly reported that he took his last wife unto himself when he was past the age of 150 years and that he had several children by her. Calvario was an Aztec Indian. His rules of life were simple. In fact, he observed no set rules. He ate what he liked, and of course, his poverty prevented him from eating very sumptuously. He was a moderate drinker of native liquors for 155 years, according to his own statement, made many times to friends, and his memory did not go back to the time when he began smoking the Mexican hand-made cigarette. "This Methusaleh of modern times was the walking historian for this part of Mexico covering the period of his long life. He was born and lived within the shadow of Mt. Colima. He was a witness to the destruction of Tuxpan by an earthquake in 1886, when over 1000 people were killed. The man was of striking physical appearance. His frame was large and his eyes deep and piercing. During the later years of his life he gained a livelihood by doing odd jobs around town."

ANAESTHETIC REFUSED BY WOULD-BE SUICIDE

When Surgeons Probe Brain to Locate the Bullet

New York, July 25.—Max Kunow, who walked to St. Mary's Hospital from his home in Hoboken Wednesday night with a bullet in his brain, after he had attempted suicide, refused again to take an anaesthetic today when a delicate operation was performed on him by Dr. Justin at the hospital. Wednesday night Kunow consented to take an anaesthetic and operation was then performed, but the bullet was so deeply imbedded in his head that it was not removed. The second operation was decided on this morning. "No more of that ether stuff for me," said Kunow. "It makes you too sick to stand it." Dr. Justin explained that no man alive could stand the pain of such an operation without the aid of an anaesthetic. Kunow told Dr. Justin to go ahead. To get at the bullet it was necessary not only to cut away the flesh, but to saw into the skull. Not a sound did Kunow make. Except for an occasional quivering of the muscles of his arms he gave no evidence of being in pain. Until the bullet was removed Kunow remained conscious. Then he had a convulsion. He will live.

VANCOUVER SOCIAL FAVORITE WEDS AT TORONTO

Toronto, Ont., July 29.—At Lustig's, Devonshire, Eng., the marriage took place of William Stanley Barwick, eldest son of the late William Barwick and Mrs. Barwick, of British Columbia, to Miss Charlotte Eva, daughter of Mr. and Mrs. Edmund Ridley Butler, of Vancouver, B.C., formerly of Campbellford, Ont. Rev. Canon Palmer conducted the ceremony. Miss Frances Butler, sister of the bride, was bridesmaid and P. L. Bercher, of Vancouver, was best man. Mr. and Mrs. Barwick will spend the summer travelling in England, Scotland and Wales, returning to Vancouver to take up residence next autumn.

ROUND HOUSE WORKER IS CAUGHT IN TURNABLE

Montreal, July 29.—While at work in the Grand Trunk railway roundhouse at Turco village, near here, Francisco Astor, 24 years of age, 221 St. James street, became entangled in the pit of the turn table and was crushed to death. When picked up he was still unconscious. By the time an ambulance arrived the victim had expired. A verdict of accidental death was returned later.

Dear Friend

"Knowing your fondness for the good things of this life and for a cup of specially good tea in particular, I write to tell you that I have at last found a tea that is all I have ever wished tea to be.

"You can get it by saying to your grocer

"TETLEY'S TEAS PLEASE"

OTTAWA COMMENT ON LA TEMERE DECISION

Ottawa, July 29.—"A very serious matter," was the comment of the Hon. Mr. Justice Dillington, one of the supreme court judges who ruled on the marriage reference when it was referred to that body. It throws the whole thing into the hands of the local legislatures.

"The judgment evidently upholds the view of the majority of the members of the supreme court that power in this matter rests with the provincial legislatures. My own judgment, you will remember, took the other view, that where the local legislatures failed to provide the means of marriage of any persons, the Dominion government had power."

"What does it all mean? Justice Dillington was asked. "It leaves the whole thing to that province, where it will depend entirely on the interpretation that the Quebec local legislature may take," he said.

Sergeant-Major Under General French

Veteran of Boer War Who Lost Health on the Veldt Tells Experience

Good Advice for All Who Have Indigestion or Stomach Disorders

In his home at Waldegrave, N. S., no one is better known than Sergeant Major Cross, leader of the 14th Queen's Own Hussars. Speaking of the ill effects of a campaign upon a man's constitution, the Sergeant Major writes.

"I served under General French during the late Boer war. In the capacity of Sergeant Major, it was perhaps owing to a continued diet of bully beef, hard tack and bad water, but at the rate my stomach entirely gave out, I was in such a state that I could eat nothing without the greatest suffering. The army doctors did not help me much, and since leaving the service I have been very miserable. Some few months ago a friend told me he had been a great sufferer from indigestion until he tried Dr. Hamilton's Pills; they cured him. I confess it was without much faith I bought a box, but the first dose made me feel better than I had been for a long time. Dr. Hamilton's Pills completely cured me, and now I can eat everything and anything. I have recommended them to others, and in every case the result has been similar to mine."

Quick, sure results attend the use of Dr. Hamilton's Pills. They cure disorders of the stomach, correct indigestion, make you feel uplifted and strengthened. To renew or maintain health, Dr. Hamilton's Pills always prove a good prescription. 25c per box, five boxes for \$1.00, all dealers or The Caltzarhoxo Co., Buffalo, N. Y., and Kingston, Ont.

SETS PACE FOR BRITISH NAVY

To Offset Germany's Plan 5 Million Is Asked

London, July 29.—Winston Spencer Churchill, first lord of the admiralty, in introducing the supplementary naval appropriation of five million dollars in the House of Commons this afternoon, said the direct cause of the increase in expenditures on the British navy was to be found in the new German navy law, the main feature of which was the increase in the striking force of ships of all classes. The effect of the new German navy law would, he said, be that nearly four-fifths of the entire German navy would be maintained in full permanent commission and instantly ready for war. The first lord continued: "Such preparation is remarkable, and as far as I am aware finds no example in the previous practice of modern naval powers."

Mr. Churchill then announced the British shipbuilding program for the next five years, saying that five battle ships were to be constructed next year and four in each of the following years. This new college of art, we trust, will not make a specialty of instructing students in the art of owing out to paint the town.

CROOKS WHO "FIXED" ROULETTE WHEEL

And Cleaned Up Gamblers in U. S. Cities; Believed to be Those Expelled From Paris

Peoria, Ill., July 29.—Police authorities here believe the two men expelled from French Wednesday under suspicion of having "fixed" roulette wheels there, are members of a quartette which operated successfully in this city and at French Lick, Ind., about six years ago.

Frederick M. Sibley, who gives his home as Peoria, is said originally to be a Decatur man, and his companion, Walter Lewis, comes from Shelbyville, Ind.

Their methods and their successes paralyzed the gambling business of Peoria. In four different houses where roulette was played, they left specimens of their work, and they are estimated to have trimmed these four places to the extent of between \$4,000 and \$6,000.

They worked four in a crew. One man gained entrance to a gambling resort after business had closed early in the morning by "blackjacking" spring locks in advance. He took the bowl of the roulette wheel to their workshop where the trimmers removed the small steel balls in 15 of the 36 pockets on the wheel. These were replaced by copper balls finished in exactly the same color and size as the others.

The copper afforded a soft rebound to the roulette ball, not being as resilient as the steel. The edges were just a hair's breadth lower than the steel backs, making the ball land in one of the "fixed" pockets, where it would remain for 15 or 18, while it had not been tampered with.

"The house" itself was unable to detect the change in one instance.

NEW SUGAR TARIFF

Washington, July 28.—A Republican sugar tariff bill, the first purely Republican revision measure of the present congress, was adopted in the senate yesterday. Describing their allies of the last two days, the Republican progressives, by an ironclad agreement with the regulars, succeeded in making a tariff reduction bill which they believe President Taft will sign if it reaches him.

The sugar bill was a compromise between the Lodge plan, endorsed by the regular Republicans, and the Brice plan, behind which the progressives lined up. It would cut the present sugar duty of 19¢ to 14¢, and would abolish the duties standard, under which practically no refined sugar can be imported, and would abolish the 7½ cent refinery differential, an additional duty on refined sugar, which it is claimed has accrued directly to the profit of the sugar refiners.

An attempt to attach the Canadian reciprocity repeal amendment to the bill, made by Senator McCumber, was defeated 31 to 24. This vote showed the purpose of the Republicans to prevent any change in the sugar bill that might mean its death when it goes back to the house of representatives.

I. W. W. STRIKERS RETURN TO THEIR LABOR

Vancouver, B. C., July 29.—A large number of the laborers who recently went on strike on the Grand Trunk Pacific railway east of Hazelton, reached Vancouver today.

The steamer Sophie, after a brief but lively holiday at Prince Rupert, a dispatch from the northwestern states that several hundred of the strikers are returning to their work in the various construction camps.

Meade, Foley, Welch and Stewart are meeting with success in hiring men to fill the gaps made by the walkout declared by the I. W. W. Every neighborhood west of the city will be filled with laborers who have been hired by Vancouver labor agencies.

"THE PRINTER."

Now tell us Mr. Citizen. What would this world do, if there weren't any printers? To flash the news to you?

Some folks look down on printers. They think they are no good—Why, they wouldn't turn their fingers To harm you if they could.

Just stop and think a moment. And you will plainly see. That a printer is a Jewel. The best that there can be.

If there weren't any printers. There wouldn't be any news—There'd be no advertisements. Of clothing, boots and shoes.

There'd be no daily papers. To read each Sunday morn—Then why condemn the printers? And look on them with scorn?

They sit all night and pound the keys. They work their fingers sore. They get up type with might and main. Until there is no more.

A wrong font "is" the "is" won't drop. The type fall all on the floor. The metal pot gets empty. Till the whole thing seems a bore.

Sometimes they get bad copy. It tries their patience too. But they work ahead and never kick. Just to get the news to you.

A printer has philanthropy. He'll help you if he can—And always shuns with horror. Man's inhumanity to man.

There'd be no news from coast to coast. The ships adrift at sea. Without the printers, tell us. What would this world be?

He who condemns the printer. Condemns a worthy foe. For the printer is the watchword. That makes this great world go.

AN AD SAVED TWO SOULS

At \$50 Aplee They Were Cheap, Says Pastor, Who Will Use Papers Regularly

Chicago, July 29.—Two souls were saved yesterday as the direct result of a newspaper display "ad." The advertisement cost the Rev. Benjamin Micklebrown, pastor of the Onward Presbyterian church, \$100. He said today that \$50 aplee for souls was cheap.

The Rev. Mr. Micklebrown receives no salary for being the pastor of the small church. He earns a living by selling life insurance. The \$100 was paid out of his own pocket, and he says he will do extensive advertising in the future. The advertisement which won the two souls was headed, "God's Word," and contained Paul's speech to the Thessalonians.

"I believe," said the Rev. Mr. Micklebrown today, "that the church will soon realize that newspaper advertising is supplementary to their working program is indispensable."

It is noticeable that the Russian explorer who is to seek the north pole is not asking the loan of Doc Cook's map.
