# HOW DR. SANFORD MCEVOY SAVED A PATIENT'S LIFE

cessfully Met by a London Boy.

The New York Herald of Wednesday last contains an account of a unique incident in surgical annals, the hero being Dr. Sanford McEvoy, son of County Treasurer McEvoy, and brother and a remarkable record.

Unique Surgical Dilemma Suc- of Mr. J. M. McEvoy, the well-known barrister, Dr. McEvoy is a graduate of the Western University. In dealing with the emergency which is described in the following account, Dr. McEvoy displayed a coolness and presence of mind for which he was afterwards highly complimented by the authorities of the hospital. The Herald article reads as follows:

"While Dr.McEvoy, house surgeon of the Polyclinic Hospital, at No. 218 East Thirty-fourth street, was operating on Henry Epstein, 28 years old, of No. 417 Third avenue, in the hospital, early this morning, his sterilizing machine burst, making his instruments used. burst, making his instruments usless. As the operation had begun it was absolutely necessary to continue, and a "hurry call" ambulance had to be sent to Bellevue Hospital. The man was put into the ambulance, driven with furious speed to Bellevue, and put on the operating table there, where the work

"Dr. McEvoy and his four assistants prepared Epstein for the terrible journey he had to undertake. It is the first time such a journey was ever made in this city under such circumstances. Epstein was put upon a stretcher and carried down to the ambulance, which had arrived by the time the man was ready. The four doctors got around the patient and the ambulance drove swiftly to Bellevue Hospital. The doctors watched their man

closely, but he bore the wonderful journey remarkably well. He was immediately carried to the operating table, Dr. Train, Bellevue's house surgeon, was summoned, put in charge, and the wound opened and the dangerous operation resumed. It was completed with the patient still alive. "The case established a precedent

The city engineer's troubles are corduroy road than a sidewalk. Mr. Warman explains his grievance in the following characteristic letter:

There are eight houses on the north side alone in this block. In the next block west there is one house, with a 3-foot cement walk, where I, with no visible means of support, am expected to make good for just half a block. At the eastern terminus of this fine walk I, and all of us who abide at the west end of that wide weed preserve known as Cheapside street, stumble into this stretch of short boards that has been left here where a walk should be. It provokes people to wrath and increases the natural flow of profanity. There is no good going church and coming back that way. It is next to impossible for a man to be Christian and live at one end of a walk like that. Now, what are you Mr. A going to do about it? One at a time, London. please. Faithfully yours, CY WARMAN.

# ART IN PHOTOGRAPHY

Work of Mr. Frank Cooper Attracts Attention at Fair.

was made by Mr. Frank Cooper in the general passenger agent, and A. H. main building at the Western Fair this year attracted perhaps more attention than any other exhibit there The arrangement of the display was strikingly effective, and added greatly to the beauty of the interior of the art annex. The photographs shown by Mr. Cooper have never been surpassed in any display at the Western Fair, and thousands of visitors daily expressed their admiration of the fine effects obtained by this popular photographer. Many commented on Mr. Cooper's success in combining a highly artistic effect with an absolutely true likeness. This was very noticeable in many of the pictures shown, and is an illustration of one of the rules folowed by Mr. Cooper in his work. While he strives always to secure the best artistic result possible, he never sacrifices the likeness, and this no doubt explains his acknowledged popularity as a photographer. His display included samples of his latest work, which means all that is newest and best in style and finish in photography.

## SCENE OF GREAT BEAUTY

Beautiful Millinery at Mrs. McLeod's Establishment.

A scene of bewildering beauty meets the eye of the visitor to Mrs. Mc-Lepd's milliney establishment, on Dundas street. Soft white tulle hangings with graceful trails of autumn leaves and banks of palms form a fitting background to the beautiful hats displayed, and never were hats more

beautiful. Amid so many lovely models it is difficult to select one, but a beautiful ermine hat, with coque de roche trimming and a lovely ermine ruff, with long stole ends, is certainly one of the gems of the collection. Fur is to be used a great deal on hats this winter, combined with lace, chiffon and satin, and Mrs. McLeod has some of the most beautiful Parisian models in this combination. A lovely panne hat of crush rose had pedigree fur trimmings, with shaded rose plumes. Another exquisite little hat is of reseda and turquoise camelshair chenille, and a much-ad-mired one is a plateau of pale blue

mufieau and chiffon.

Mrs. McLeod is this year making a specialty of suit hats. Misses' hats and feather ruffs are also features at Mrs. McLeod's store this year, and her whole display is a most elegant and attractive one. Only a few of the leading hats are here mentioned, but Mrs. Mc-Leod and her courteous assistance will be delighted to show their stock to visitors, whether intending purchasers or not.

## HOGS DEATH OF MISS PRESCOTT

in East Tilbury.

at Present.

Dr. J. H. Tennant, of this city, Government veterinary surgeon, is a busy man just now. Rumors of hog cholera outbreaks in various districts have kept him traveling early and late. Last week he discovered a very serious outbreak at Tilbury East, and in four days 289 hogs were killed under his direction. The prompt action taken in this instance will probably prevent the malady spreading. This afternoon Dr. Tennant will go to

Wallaceburg, where, it is reported, hog cholera exists. He returned this morning from Woodstock, where he found that the report of the disease existing in that region was a myth.

One of the finest railways trains

which ever passed through London, went westward this morning over the C. P. R. It carried on their homeward way the members of the American Association of Traveling Passenger Agents, together with the ladies of their families. The jolly agents have been in convention at Montreal, and are now returning to their respective homes, which are scattered all over the map of the United States from Smoketown, Md. to Ntsaladdy, Wash., and from Thief River Falls, Minn., to Nacodoches, Texas. After meeting at Montreal the association took a trip to Ottawa and return by rail, thence by steamer to Saguenay, and back to Quebec, taking the C. P. R. at Quebec at 2 p.m. yesterday, a fast run was made to Toronto. The train reached London about 10:15 a.m. today. From here it went out as a double header with the intention of making a fast run to Windsor. The train goes through to Chicago, where the members break up to go to their respective destinations west, north and south. It is expected that Chicago will be reached about 7 p.m. Two cars were dropped at Toronto, one of them going on to Buffalo. There were over 300 in the party when leaving Quebec.

The train was made up of practically the same cars as will compose the C. P. R.'s new imperial limited. It included one baggage car, a tourist car, two dining cars—the Westminster and the Warwick, and the following sleepers: Rossland, Robson, Regina, Revelstoke and Mt. Index. The latter is a Great Northern car tendered each year to the traveling passenger agents of St. Paul and district by President J.

The junction of the two armies of the Government of Venezuela has changed the situation, and it is now believed it will be difficult to overthrow President Castro.

Serious Hog Cholera Outbreak Passed Away Saturday in New York Hospital.

Dr. Tennant Is a Very Busy Man Contracted Typhoid Fever From the Patient She Was Nursing.

> Miss Alice Prescott, the younger daughter of Mr. and Mrs. George Prescott, of 233 Oxford street, died Saturday at Mount Sinai Hospital, New York, of typhoid fever. The remains will be brought to this city for burial. The circumstances of Miss Prescott's death are particularly sad. She went to New York two and a haif years ago to study nursing. Last June she graduated, and her first professional case resulted in her death. She had taken charge of a very serious case of typhoid fever, and it is now believed she contracted the disease from her patient. Her filness extended over five weeks, and but a day or two before her death her physicians expressed the opinion that she had passed the critical stage of the malady. Heart failure developed, however, and all ef-

Fine Train Run by the Canadian forts to save her life proved futile. Miss Prescott was very widely known and loved in London. She had spent almost her entire life from the city, and had a legion of warm personal friends, who will not soon recover from the shock of her death. Prior to going to New York she had charge of the wholesale department of Woods' Fair. Besides her mother and father, a brother and sister survive. The former is Mr. J. G. Prescott, auditor for J. R. Hayes, of Detroit, and the latter, Miss Mary Prescott, of this city.

Mr. Borden's Narrow Escape.

Calgary, N. W. T., Sept. 21.—While R. L. Borden and his party were re-turning yesterday from the Indian reservation to Calgary, the rig in which Mr. Borden was seated had passed over a rough and sloping piece of ground, and, as the one containing Mrz. Borden and others was passing this spot, the driver of the rig was thrown from his place and the horses at once bolted with the rig and its six helpless occupants. The runaway team ran astride the rig containing Mr. Borden and other ladies and gentlemen, and Mr. Borden was, by the pole of the pursuing rig, thrown in such a manner that his left knee was caught between the wheel and the brake of his rig, and a furious horse was all but pinning him beneath its feet. runaway was stopped.

IT RETAINS OLD AND MAKES NEW FRIENDS.—Time was when Dr. Thomas' Eclectric Oil had but a small field of distribution, but now its territory is widespread. Those who first recognized its curative qualities still value it as a specific, and while it retains its old friends it is ever making new. It is certain that whoever once uses it will not be without it.
