WHY MANY PEOPLE NEVER NEED

You have a natural laxative in your false purgative to move the bowels?

Bile is nature's laxative. It is bile and bile alone—which moves the bowliver is the storehouse for the bile. The liver pours forth the bile into the bowels, which stimulates them to move, and thus causes the waste matter to pass from the body.

Constipation is a disease, Of the bowels, but CAUSED by the liver. When the bowels do not move regularly and naturally, it is because the liver is not giving up enough bile. And the only possible way to cure constipation is to cure the liver.

Calomel, cascara, salts, senna, common pills and sweet lozenges and all the other purgatives do not act, on the liver at all. They merely irritate and inflame the bowels.

"Fruit-a-tives" cure Constipation because they act on the liver. The fruit principles stimulate the liver to secrete and give up enough bile to move the bowels, while the tonics and antisepties tone up and invigorate the museles. "Fruit-a-tives" are the only medicine ever discovered that will cure constipation, biliousness and all other troubles due to a torpid or disordered liver. She says:-" For four long years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctor's prescriptions but got no ease. Zam-Buk was different to everything else I had tried, and it cured me. I am grateful for the cure, and as I have never had piles once since, I know the cure permanent. Another thankful woman is Mrs. E.
