

VETERANS ALL JOIN TO ATTACK CAPITAL

Army and Navy Men to Urge
Grants for Widows of
Fenian Victims.

[Canadian Press.]

TORONTO, July 1.—The ninth annual convention of His Majesty's United Army and Navy Veterans of Canada, held here today, was attended by about 200 war-grizzled veterans, wearing medals won in many a hard-fought battle in defense of home and empire. These men represented every branch of the imperial forces and included heroes of the Crimean war of 1854-55, the Fenian raid, Batoche, and the more recent South African conflicts. The object of the gathering was the consolidation of the different veterans' associations into one Dominion body, so that greater pressure might be brought to bear upon the Government to give more generous consideration to the grievances and requisitions of those who have fought and bled for the benefit of the whole empire.

Motions were passed urging the Dominion Government to continue the grants made to the Fenian raid victims, to their widows, and to allow the members of the different societies to hold their different meetings in their respective towns and cities.

NAVIGATION IN LOWER HURON TIED UP BY FOG

[Special to The Advertiser.]

SARNIA, July 1.—Owing to the dense fog navigation is completely at a standstill, both in the St. Clair River and the southern part of Lake Huron. The fog settled at about 8 p.m., and at midnight was so thick that no boats could possibly make headway without extreme danger.

AUTOMOBILE HUNG BY REAR WHEELS OVER DEEP RAVINE

St. Thomas Physician and Two Children Have a Miraculous
Escape From Plunging to Death From Bridge One
Hundred Feet High.

[Special to The Advertiser.]

ST. THOMAS, July 1.—A holiday catastrophe was only averted, in St. Thomas today by a miracle. Dr. J. D. Curtis and his two children were crossing the deep ravine in the southern part of the city, at the end of Elgin street, in the doctor's automobile. The driveway on the bridge is cement and the rain had made it slippery. The machine skidded and tore halfway through the iron railing at the side, dangling suspended, being held only by the rear pair of wheels, with a distance of 100 feet beneath them.

Passersby succeeded in extricating them from the car after an extremely nerve-racking experience, as it was feared to press upon the auto. The doctor and children suffered a severe shock.
