

WATERLOO NEWS RECORD

Mayor Kutt and Town Council
are Returned by Acclamation

Also Were Light and Water and Sewer Commissioners; all School Trustees Except in East Ward Where Two Have Qualified.

As was to be expected Mayor Kutt and all of last year's Council who were returned by acclamation and the town council will consist of only one change. Mr. Arthur Foster taking place of Mr. Jacob Brox, the latter being elected to the position of alderman. The council should be a source of satisfaction to the members elected at this year's election. The council has been favorable to the community of aldermen. Last year's council had many big problems on their hands and it is to their credit that they handled them judiciously and well.

Work that was started last year and of which the old Council were thoroughly in touch with can now be carried out to a successful issue. While some of the town fathers were absent at the Nomination Meeting for their shortcomings this was only to be expected but apparently very little weight was put on these accusations and all are returned without exception. Mr. A. Bauer and Mr. C. H. Hootch the retiring members of the Water and Light Commission were returned unopposed and the same can be said of the Sewer Commission and the School Trustees in the North, South and West Wards. In the East Ward both Mr. A. E. Devitt and Mr. Herman Engel have qualified for reelection in an election of the School Board in this ward.

Mr. Devitt has been the representative for 12 years and has given good and valuable service not only as a trustee but as Secretary of the Board. Mr. Engel while a qualified taxpayer of the town and having children attending the public school has a perfect right to appear on the Board, but while all the town fathers have been elected by acclamation their services being quite satisfactory to everyone concerned, the time seems inopportune to put the town to the expense of an election in this ward.

Mr. Kutt may have a grievance and hopes by getting on the Board that things will come his way, but as far as we can learn this has been stated both before the Board and the Inspector and in both cases the action of Principal Playford and his staff has been upheld. Influence is being brought to bear on Mr. Engel to withdraw as he still has time and no doubt were this done sometime in the future when he should appear before the electors he would receive support for his action in saving the town this extra expense. We can recall many instances of good citizens stepping back at the last moment and thus saving the town some money and were we to do this action would be highly commendable.

ICE NEEDED.

So far the Waterloo Rink has not been open to the public owing to lack of ice and unless Jack Frost gets to his work in short order rink ice all over Ontario will be hard hit and profits will be as scarce as hens teeth.

MADE USE OF ICY SIDE-WALKS.

The sidewalks in town were the scene for the small boy with his sled yesterday and in every section of town where there was a hill of anything the boy with the "bob" was to be seen. The sidewalks were icy and although there was a rain no notice was taken and all enjoyed themselves to the limit.

QUIETLY SPENT.

Yesterday was quietly celebrated in town the unfavorable weather keeping many citizens indoors. A drizzle fell continuously throughout the day and as the thermometer at the freezing point pedestrians found some difficulty in navigating the icy condition of the sidewalks. Many falls but luckily

HEART FLUTTERING EASILY

Good Advice to Folks Bothered With Palpitation, Weakness, Etc.

If your heart flutters, be careful. An attack is liable to come one of any time. Excitement, over-exertion or emotion may cause it. If blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm. If you want a good honest remedy try Ferrozene. We recommend Ferrozene because we know it's just right for heart trouble. It cured A. F. Beattie who lives at Allen Hotel, Bay City, Mich. See if your symptoms resemble these:

Some Symptoms of Weak Heart
Nervousness, Palpitation, Trembling, Dizziness, Sinking Feeling, Heart Pain, Short Breath, Weakness.
Mr. Beattie says:
"I was weak and miserable. I was subject to heart palpitation and dizziness."
"As I grew worse I began to have trembling and sinking sensations. Ferrozene strengthened my heart, gave vigor to my nerves, soon made me well. It's a great restorer."

By strengthening the muscles of the heart, giving proper circulation and causing a general rebuilding of the whole system, Ferrozene is bound to do grand work in heart trouble; try it 50c per box or six for \$2.50, at all dealers, or direct by mail from The Catharhose Co., Kingston, Ont.

MAINE SHOEMAKER Tired All Time. Did Not Want to Work. How He Regained Strength.

Sanford, Maine.—"I suffered so much from a run-down, nervous condition and stomach trouble that I never felt like working and had tried almost everything without relief. The first bottle of Vinol however helped me and it has built me up so I feel better now than I have for a long time."—Chester D. Haines.

There is no secret about Vinol. It owes its success to beef and cod liver peptones, iron and manganese peptones, and glycerophosphates, the oldest and most famous food building and strength creating tonic.

A Pioneer Resident of Wilmot Has Been Called

MRS. SALOMA BERLET.

The death and intelligence of the death of a staunch resident of the county is imparted today. Mrs. Saloma Berlet passed away on Tuesday evening, aged seventy-five years. Her death occurred at her home 74 Samuel street and came rather suddenly.

Although Mrs. Berlet had reached the allotted span of life she was still energetic and active. On Tuesday afternoon, however, she became ill and the affliction, which was a

paralytic stroke, later in the day terminated fatally.

The deceased was born in 1843 in Niederseebach, Alsace, France, and before her marriage was known as Saloma Pfanner. With her parents she came to this country in 1847 settling on the old homestead near Berlet's corner near Wellesley. In 1864 she was wedded to Valentine Berlet who predeceased her on Dec. 23rd, 1883. For fifty years she had resided on the old homestead. Four years ago she removed to this city, where she had made her home ever since. She was widely acquainted and the friend of all who had met her. Many an expression of sorrow is overheard over her loss, keenly felt not only by the family but by the community in which she had resided a half century by her many acquaintances in this district.

Surviving her are two children, Mr. V. M. Berlet, of the Robe and Clothing Co., Ltd.; and Miss Elizabeth Berlet at home. Five sisters and two brothers of the deceased also survive. They are Mr. Jacob Pfanner, Wilmot Township, John in Tonawanda, N. Y., Mrs. Jacob Seitel and Mrs. Geo. D. Forler, both of Wilmot Township; Mrs. Charles Knapp of Petersburg; Mrs. J. R. Schmidt and Mrs. Wm. Seyler of Detroit.

Mrs. Berlet was a member of St. Matthew's Lutheran Church.

The funeral will be held Saturday at the residence, 74 Samuel St., to the cemetery near the old homestead, in No. 19 School Section, Wilmot.

STARTING THE BALL ROLLING!

A Chance for a Big New Industry.

PARENT PLANT EMPLOYS THOUSANDS

Efforts to bring a big manufacturing industry to this city are being made through Secretary A. J. Cundick of the Board of Trade and by a prominent manufacturer. The parent plant which is located in the United States employs about four thousand men and manufacturers a line of motor trucks. The company is seeking a location in Canada.

The plant is one which could supply the needs of this city, namely, opportunities for male help. This in turn would prove a benefit to other lines of industries because the new families in the city would provide help to factories employing girls.

Just what we need. "Go after it. Start the industrial ball rolling."

INFANTRY, CAVALRY AND ARTILLERY, WELL ARMED

GENEVA.—The Polish forces consist of infantry, cavalry and artillery, all well armed, the report said. Cavalry, moving rapidly ahead of the main body, was reported to have entered Posen and Frankfurt on the Oder. The important railway station of Bautzen, Guesen and Breg, it was said, were occupied without slight resistance.

WHY COAL MUST BE SENT TO FRANCE.—The scarcity of coal is so great throughout France that the French people have appealed to America to send all coal that possibly can be sent to replace the shortage. The children of Paris as soon as they are out of school run to the coal depot and follow the carts through the streets waiting for a piece to roll off. A merry scramble follows for the treasured jewel. The children trail along for miles in this manner in order to feed the kitchen range. The Germans were in control of most of the French mines and destroyed them so thoroughly that it will take years to get them into shape for operation again.
