Man's ways, is a fact of which the pass ing years give constantly recurring evi dence. Only a few days ago, when the transfer of the property of the Lands and Works department from the old to the new buildings was in progress, a bundle of long staves were brought to light, whose use for a time puzzled everyone. It was at first thought they re part of the paraphernalia of a Masonic lodge; then the suggestion that they were the armament of a regiment of drum majors was duly weighed and found wanting. The explanation was ultimately found, thanks to Oldest Inhabitant, who volunteers the information that in the years gone by Sir James Douglas was wont to reward the good Indians for fidelity and meritorious service with one of these batons of honor —a mark of favor as much appreciated as knighthood, a C.M.G. decoration or a enatorship in these latter days. Now times have changed. The Indians pre-fer coin to the empty baubles of their childhood adoration, and Sir James' batons of honor have been distributed by the ministers among their friends as curiosities of a day that is gone. The work of removing the old buildings proseeds rapidly, and now the last of the provincial departments—that presided over by Hon. Col. Baker—has been transferred to its new home.
