

### TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Edmonton, Alberta, Can.—"I think it is no more than right for me to thank you for what your kind advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"When I wrote to you some time ago I was a very sick woman suffering from female troubles. I had organic inflammation and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills, and think they are fine. I will never be without the medicine in the house."—Mrs. FRANK EMSLEY, 908 Columbia Avenue, Edmonton, Alberta.

#### The Other Case.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILL, Beatrice, Neb.

### NOTE AND COMMENT

Six perfectly good submarines are said to be awaiting a purchaser in San Francisco. It is expressly understood, however, that the buyer must come from a country which, for the moment at least, is not at war.

Farmers' co-operative associations will not be needed when the farmers drop party politics and vote together for their own interests, as the combines have been doing for years. It is in this way that the autocracy controls our legislation.

It pays to ground the wire fence to protect stock from lightning, according to Frank M. White, of the University of Wisconsin. These ground wires should be placed about 100 feet apart, closely stapled to the post, so as to form a contact with every one of the fence wires. They should also extend slightly above the fence post and reach well into the soil.

There is an obvious reason, comments the London Daily News for keeping as carefully secret as possible the details of methods designed to meet the menace of the submarine; they may be more numerous and effective than is at present suspected. What the war has made clear to the least initiated in these matters is that it is essential to the future of this country to discover some more or less complete reply to the submarine—not so much to the submarine of today, which is a grave nuisance, but not a serious peril to our sea power, as to the sub-marine

as it would seem certain to become at no very distant time when its present defects of relative unseaworthiness, slow speed, and almost exclusive reliance on the torpedo for offensive action (not to mention others equally obvious) have been effectually overcome.

New York Herald.—Germany's apologists have been profuse with explanations that "kultur" does not mean culture. Events have proved their case. There is no place in "kultur" for culture, for humanity or for civilization—if civilization is what the Christian world has believed it to be. Germany's submarine warfare is a reversion to barbarism. Piracy in its worst days never indulged itself in such inhuman methods as those resorted to by the German navy, acting under the instruction of the kaiser.

William Dean Howells, the novelist, has written a most satirical letter to the New York Sun, on the question of American neutrality. His final question is: "Suppose the Allies should triumph in the battle which they believe they are fighting for free men and free minds, for justice and honor among the nations, for peace and good-will on earth, will not it be a good thing for us to remember that once we did our worst to embarrass them, since nothing could discourage them?"

Conan Doyle in a letter to the London Times on the subject of German barbarities towards British prisoners says that retaliation is impossible. He points out that the Germans have evidently no more understanding of chivalry than a cow has of mathematics. He suggests that the narratives of torture of prisoners be printed and distributed to the soldiers and so rouse them to fury against the Huns. He thinks that this will result in a practical advantage which the Germans will be not slow to recognize.

John Sleicher writing in Leslie's says: One mischievous boy will break up a school. One false alarm will create a panic. One hasty word will lead to a divorce. One false step will cost a life or ruin a character. One broken wheel will ditch a train. One quarrelsome worker will create a strike of 10,000 men. One undiplomatic word will provoke a war involving thousands of lives and the destruction of millions of property. One hasty act of legislation will entail untold hardships. One muck-raker will bankrupt many a big business. One vote will decide an election. Let the People Think!

### Loyal British Workers

Westminster Gazette.—We know that it would have been utterly impossible to raise armies running into millions by voluntary enlistment, if the working class had not risen to this struggle as to no other in our history. The great majority of the men in the field or in training for the war necessarily come from the working class and are the brothers and sons of those who are working in the factories. Admirably as the other classes have done, they could not by themselves have produced armies on anything approaching the scale that we now have at our disposal. That ultimately governs the industrial situation.

Most infants are infested by worms, which cause great suffering, and if not promptly dealt with may cause constitutional weakness—difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will set upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

### SPRING FASHION FORECAST.

Suits. Full, wide skirt cut short to give it a chic appearance; plaits, bands, yokes, permissible to lend variety. The flare of the skirt makes necessary short suit jackets in various outlines, tendencies of which are dip fronts, fullness below the waist, belted effects and close set buttons. Coats. Medium and short effects, not to exceed knee length, with flare and ripple on the sides; small collars; high waisted, belted and close buttoned treatments and patch pockets in favor. Simplicity and smartness are imperative for 1915. Materials. Gabardines, serges, poplins, covers, novelty weaves, silks and velvets. Colors. Putty, sand, beige and battle-ship gray are the new colors, though navy, dark Copenhagen or Labrador and black will be extensively favored.

### BATHROOM LINEN.

Elegance in Fittings Matched by Luxurious Towels and Mats. Elegance in bathroom appointments has been followed by luxury in bathroom linen. While styles do not vary much from season to season, there are novelties that may please the taste of those who are replenishing their linen.

The latest bathroom towels and the matching bath mat are of thick soft white Turkish toweling, the bath mat having on the plain linen woven edges a raised Greek fret border in the toweling. The towels have plain ends crossed by a Turkish weave stripe and hemstitched ends. The novelty is the initials or monograms on both bath mat and towel, embroidered in terry stitch in contrasting color—blue or red—and from six to eight inches in size. Terry stitch resembles the loop of the Turkish toweling, and the effect is artistic.

The monograms—usually scroll letters or old English—are, with the addition of a couple of little design motifs, made into diamond shaped monograms, making the monogram extremely ornamental on account of their contrasting color. Where the terry stitch is not used a two inch diamond linen embroidered monogram is applied on to the towel, also done in colors.

For hand towels some prefer those having scalloped edges with a spray embroidered scroll motif in a raised pattern. The scallops are not uniform in size, three or four of them making a deep, leaflike shape, which is repeated across the towel edge from seven to ten times. The pattern of the scallops is made up of rather fine leaves and small flowers in a widening spiral shape. The toweling is of the same weave as those with the colored embroidery, but is used in white only.

The wash cloths are like the pieces, and the hand toweling is of the huckaback or diaper weave, with the applied monogram, usually the same used on the household napery.

#### Firing a Torpedo

When a submarine sights a vessel a group of sailors cluster round the torpedo tub is loaded with its instrument structure, and behind it a charge is inserted in a recess and the trigger controlling the mechanism cocked ready. A proceeds to estimate the target and its course glasses. He then adjusts a known as the "director," which means of dials tells him where the tube is pointing in the right direction. At a distance of about yards the gunner presses a pressure of 50 lb. per square inch through the open end of the tube. The well-greased projectile is put upon the rear end of the tube. The well-greased projectile is through the open end of the tube at a rate of 35 ft. per second, it takes the water in a long tube the twin propellers in the rear to work. They are driven air pressure of 2,250 lb., which the driving machinery in motion the torpedo leaps from its tube. A gyroscope steering gear prevents the torpedo from deviating from its straight path, and unless it is lessly fired, or its target of manoeuvres out of the way \$2,500 projectile seldom miss mark.

### In a Nutshell

Some Canadians—few in number, happily, growing fewer still asking what Canada has got to do with the war. To commend the brief speech of Hon. Frank Oliver, Opposition leader, in Parliament this week, said:

"We realize that this is not a man who is a victim of indigestion transaction of business becomes a misery. He cannot concentrate his upon his tasks and loss and vexation tend him. To such a man Pancreatic Vegetable Pills offer relief. A course treatment, according to directions, convince him of their great excellence. They are confidently recommended cause they will do all that is claimed them.
