# Montreal Stock Market,

STOCKS STRONG GENERALLY AND MARKET BROAD-ROYAL ELECTRIC AND COLORED COT-ADVANCE - ELECTRIC TON ROADS STEADY.

Prices were well maintained this morning all through the list, and in some cases noteworthy advances were recorded. Royal Electric was a leader in point of strength. There seemed to be some good buying, and altogether one thousand shares were dealt in. Evidently there are lots of traders willing to purchase this stock at this figure. as it closed this morn-ing at its highest point. The failure of the Lachine Company's light last night was a Bull point. The general feeling amongst the speculative world was of a very Bullish charac-ter.

world was of a very Bullish charac-ter. In New York and London prices were well in advance of last night's quotation's, and the appetite for all good securities seems still to be un-gratified. There was a flood of buy-ing orders this morning, on account of the better feeling on the contin-ental markets and of the partial lift-ing up of the cloud which has so long hung over Paris. The London quotations for C. P. R.

hung over Paris. The London quotations for C. P. R. were unchanged. The local stock in consequence acted very steady. A fair business was done in it at 86 and 86<sup>‡</sup>. The increased earnings reported the day before yesterday were not as good as looked for, but those for the balance of the month will be suf-ficiently encouraging to advance the price of the stock.

price of the stock. Stret Railway touched 296 and closed strong. There was little ex-citement in the dealings, but 360 shares were sold. Toronto was a trifle higher than yesterday, but was not active. The Company continues to do a prosper-ous business.

ous business.

ous business. War Eagle was down again on profit taking. Though sales were made on a lower level than yester-day, it had the appearance of steady-ing. Eleven thousand shares were sold, the best prices being obtained at the close of the session.
