Wheat both March and May up % at Li-Wheat both March and May up 78 to ---verpool was the cable this morning, March being at 5-914 and May at 5-836. This is being at 5-914 and May at 5-816. This is now the fourth opening at Liverpool showing advance the total since the 19th being

At New York May at 731/2 and July at 785/2 are the one 1/4 and the other 1/4 ad-

vance on the previous closing.
Chicage openings were for May 4 advance to 6714 and for July 36 advance to 68%. Cause for the advance of wheat in all markets is found in the unfavorable weather reports in France and in some States, the famine in India said to be in-creasing and the half million decrease in Bradstreet's World's visibles. These builish influences taken advantage of by spe-culators have given a welcome variation to the market, making it moderately bull-ish now for one week. It has not been a m. ket more than medium wized in the quantities disposed of and trauer in, the rising prices raised matters somewhat and made the market interesting. It most all foreign houses had orders to sell and inference is drawn that some little reaction is probably due now. The market cfore noon declining seemed to show this.

Provisions opening unchanged were under no influence and so followed the decline in the wheat market. As speculation cline in the wheat market. As speculation once started is liable to carry prices still higher, it may be that the weakness of to-day will give place later to steadiness and strength. It was noticed yesterday that no foreig houses were buying and that Europe did not accept any cash wheat offered last night.
