

FAIRBANKS VALVES

Will appeal to the discerning buyer. They are widely known and popular among all Engineers - and deservedly so. In design they are simple, in construction and composition only the finest workmanship and best grade bronze have been used. They are heavily built and well proportioned, being fully capable of standing rough treatment and any pressure up to that specified for each valve.

We Shall Appreciate Your Further Enquiries.

FAIRBANKS STANDARD SCALES, SAFES AND VAULTS.

FAIRBANKS-MORSE GAS ENGINES.

St. John, N. B.

Robb- Armstrong Corliss Engines

FOR

Continuous Hard Service

with the least possible attention secured by the positive valve gear and moderate piston speed.

Freedom from vibration is a result of a short stroke and compact frame.

Low steam consumption as in Corliss Engines.

Close speed regulation is assured by the Robb governor controlling the cut-off directly.

Duplicates of parts always on hand for prompt shipment, for all Robb engines are made on the interchangeable system.
