CLINICAL TEACHING.—The Toronto General Hospital has a very large number of patients in the wards, who are visit-
 ed daily by the medical officers in attendance. The attendance of out-door patients is also very large, and thus abun-
 dant opportunities are enjoyed by students for acquiring a familiar knowledge of Practical Medicine and Surgery, in-
 cluding not merely major operations, but minor surgery of every kind, ordinary medical practice, the treatment of
 Venereal Diseases and Skin Diseases, and the Diseases of Women and Children. The Burnside Lying-in Hospital, amal-
 gamated with the Toronto General Hospital, has recently had the staff largely increased, and will afford special and
 valuable facilities for the study of Practical Midwifery. The large new building, close to the Hospital and School, will
 be very convenient for students attending in practice. The Mercer Eye and Ear Infirmary is also amalgamated with the
 Toronto General Hospital, and affords special facilities for students in this department.

Daily Clinical instruction in the special wards and Theatre of the Hospital will be given by members of the Hos-
 pital staff on all interesting cases Medical and Surgical. Arrangements have also been made for the delivery of
 daily clinics, out-door, in-door and bedside, in the Hospital, by the respective members of the in-door and out-door
 Clinical Staff, which has been recently largely increased.
