

of the case, have accepted his resignation, and declared that from the 21st day of this month he is no longer Bishop of the said Diocese.

Two Bishops, the Right Rev. Drs. Griswold and Moore, having been removed since the last General Convention, an affectionate tribute of respect towards their memory was unanimously adopted by two separate resolutions.

A very interesting Canon passed the two Houses on the 20th, having originated with the Bishops and been concurred in by the Clerical and Lay Delegates, to make it lawful for Bishops under certain circumstances to admit to Deacons' orders individuals whose admission thereto shall not be understood on the outset to entitle them to their advancement to the presbyterate at the expiration of a certain limited period; but who shall look upon the diacunate as their permanent degree, though provision is made for the treatment of those peculiar cases in which a deacon of this class may be admitted to Priests' orders.

The two Houses jointly appointed a Committee to provide for a standard edition of the Bible, consisting of three Bishops and four Presbyters.

The next triennial meeting of the General Convention is appointed to be held in the city of New York, and the officers charged with the preparatory arrangements for the same are instructed to select for its place of meeting a building used for secular purposes, and not a Church edifice.

Political and Local Intelligence.

GENEROSITY OF THE BRITISH GOVERNMENT.—The French Whaling Ship Roland, having met with an English vessel called the India, on fire, by great exertion succeeded in removing 198 souls from the burning ship, and conveyed them to Rio de Janeiro. In consequence of this large increase to her complement, all her provisions were exhausted; she was, however, supplied by the British Ambassador. But in addition, a representation having been made of the loss sustained by the French vessel in going so far out of her course to take the English sailors to a port, the British Government presented the owners with £1,000 as an indemnity, and gave £500 to be divided among the crew.

FIRE.—A fire broke out on Monday evening, about seven o'clock, in a house near the Turnpike Gate on the road leading to Scott's bridge, occupied by several poor families. The storm was then raging with great fury, and although three fire engines and a hose company were promptly on the spot, together with a party of police and several citizens, the violence of the wind rendered it impossible to save the building, which was burnt to the ground. The furniture was principally saved.

ten miles from Sunderland, which caused the destruction of more than 100 human beings. The number of men and boys in the pit at the time of the accident is supposed to have been nearly 150, and three only were said to have been saved. Many of them had families, and the anguish of the relatives can hardly be conceived.

DR. WOLFF.—The last mails from the East having brought no further account of the movements of this intrepid Missionary, much interest has been excited in England from the intelligence previously afforded of his detention by the despotic ruler of Bokhara. Capt. Grover, who has all along taken an active part in the endeavours to ascertain the fate of the British officers on whose behalf Dr. Wolff undertook his perilous journey, started lately for St. Petersburg with a view of interesting the Russian Emperor in this philanthropic enterprise and of persuading him to use his powerful influence to obtain Dr. Wolff's release. No doubt is entertained that his mission will be successful, and a sanguine hope is cherished that Captain Grover's disinterested and laudable exertions may be instrumental, under Providence, in rescuing Dr. Wolff from the dangerous position in which his kind and Christian feelings have led him to place himself.

TERRIFIC STORM.—The Upper Canada Journals furnish details of a very severe storm which visited the Lakes of Ontario and Erie and the towns adjacent on Friday the 18th inst. and caused great loss of life and property. Much damage was done in the neighbourhood of Kingston and Toronto, but the city of Buffalo, N. Y., suffered to an almost incredible degree. The wind blew a gale from the south west and the city being exposed to the swell from the lake, forced the water into the streets to the depth of from two to eight feet. Houses were blown down and unroofed, cellars filled and a large quantity of goods in store destroyed or damaged. But on the water, the scene was more terrible. Seven or eight steamboats, eighty canal boats, and a number of vessels navigating Lake Erie were either driven ashore or injured more or less, and it is melancholy to add that many persons are supposed to have been lost besides a number who were killed on shore by houses falling on them.

MEMBERS ELECTED TO THE PROVINCIAL PARLIAMENT.

Table listing members elected to the Provincial Parliament, categorized by Lower Canada and Upper Canada.

SNOW STORM.—A furious gale accompanied with snow, visited our city on Monday, which continued during the whole of Monday night and until late on Tuesday night, with unabated violence, rendering the streets almost impassable. The Mail Steamer due on Tuesday morning from Montreal, did not arrive until 4 o'clock on Wednesday afternoon, having been obliged to remain at Sorel while the storm lasted. In consequence of her non-arrival, the Unicorn, which ought to have left on Tuesday morning, was detained until Wednesday evening. In our Shipping Intelligence will be found particulars of various disasters on the river. It is to be feared that we shall soon have worse accounts from below.

FIRE.—A fire broke out on Monday evening, about seven o'clock, in a house near the Turnpike Gate on the road leading to Scott's bridge, occupied by several poor families. The storm was then raging with great fury, and although three fire engines and a hose company were promptly on the spot, together with a party of police and several citizens, the violence of the wind rendered it impossible to save the building, which was burnt to the ground. The furniture was principally saved.
