very active, owing to the early opening of navigation. Goods for early spring requirements are being shipped out as rapidly as possible and the demand is more than equal to the facilities for moving such goods. Heavy metals, too, are participating in the brisk demand. Old Country reports speak of heavy shipments of pig iron, with makers' prices practically unchanged. In Liverpool tin plates are reported quiet, but unchanged, and with no indication of any impending change in prices.

Hides, Skins and Leather.—Not a very large quantity of hides are coming forward now, neither is the demand keen. Prices are unchanged. For calfskins, which are arriving in fair quantities, there is a fair demand. Sheepskins are a little more firm. Tallow keeps steady. In Chicago the general reports speak of a better market. The season is now at hand when the quality of the hides steadily improves. Tanners are reported as showing increased attention to the market and are understood to be ready buyers at inside quotations, with packers indifferent sellers. Quotations are, 11½ to 12¼c. for native steers, 12½ to 12¾c. for heavy Texas, 11¼ to 11½c. for butt brands, 11 to 11¼c. Colorado, 10 to 10¼c. for heavy native cows and 9¼ to 9½c. for light ditto. Country hides are unchanged, with sellers of No. 1 buffs holding for 8¼c. The leather trade is now distinctly good, with firm prices. Prospects are quite bright.

Live Stock.—Several important advances took place in the prices for cattle realized at the cattle market this week. Export cattle fetched 37½., butchers' 25c., and sheep 25c. per cwt. more than last week. These advances were made owing to the heavy demand in face of very heavy offerings.

Oils.—Business in oils has picked up and is quite satisfactory. Prospects point to a better trade being done this year than last. Prices are keeping very firm. The serious fluctuations which have been experienced in turpentine during the last few weeks now seem to have ceased and the price to have settled down to about 70c. in barrels. Linseed oil, too, appears to have become more fixed. Burning oils are somewhat slackening with prices on the easy side, but this is to be expected at this time of the year.

Wool.—Export demand is almost nil. But little new unwashed wool is offering, though larger quantities will no doubt come forward in two or three weeks' time if conditions prove at all satisfactory. The domestic demand for pulled wools is not brisk.
