Company/Product

Fuller-F.L. Smidth Canada Limited is located in Scarborough, Ontario. The company's home office has an adjoining warehouse and is the headquarters of the sales, engineering, purchasing, accounting, and service staff. In addition, there is a sales office in Montreal, Quebec.

The Scarborough warehouse is used to stock parts and consolidate shipments. To properly assist customers, Fuller-FLS Canada carries a large inventory of high turnover parts and blowers. Consequently, the company has significantly increased its parts and service sales.

Fuller-FLS Canada markets and sells the complete line of Fuller and F.L. Smidth products which, with a few exceptions, are fully fabricated in Canada by an established group of approved manufacturers. The resulting equipment is of top quality. In the past, the office has addressed, quoted, received orders, and supplied diverse items such as tumblers for the tar sands, coke breeze drying/grinding systems, and crushers to handle rock from the Laurentian Shield. During any manufacturing process, the office's inspection department surveys all stages of production.

Current Geographic Marketing Activities

Fuller-F.L. serves Canada coast to coast as well as the United States. Presently, the company is also involved with providing a cement plant in the Shanxi Province of China.
