

**Technische Universität Chemnitz-  
Zwickau**

**Trent University / Brock University/  
McMaster University**

Within the framework of the Ontario-Baden-Württemberg Agreement, two students from Chemnitz (in general from the Departments of Economics or Humanities) can study in Canada at either Trent University, Brock University or McMaster University. This exchange program is coordinated in Freiburg. The TU Chemnitz-Zwickau only participates in this program on the basis of a cooperation agreement between Sachsen and Baden-Württemberg. As a consequence, no Canadian students come to Chemnitz within this program. Canadian students are sent to universities in Baden-Württemberg instead.

The participants are selected by their respective departments.

Unless German students receive Auslands-BAFöG, the participants have to finance the exchange themselves. Nevertheless, there is a reduction of tuition fees of CDN \$ 2500. The exchange lasts a year, during which the students remain enrolled at their home university. German students receive special leave status for the time of the exchange.
