

MANDATE OF THE OFFICE OF THE INSPECTOR GENERAL

The Office of the Inspector General provides senior management with assessments of the overall governance, probity and performance of policies, programs and initiatives delivered by DFAIT. It contributes to the generation of timely and reliable performance data used for departmental reporting of results in accordance with the commitments made in "Results for Canadians." It also plays a key role in helping the Department adopt modern management principles and practices. Specific recommendations aimed at improving service delivery are derived from the following review functions: inspections, evaluations, audits, special studies, training, advice and guidance consultations.
