

ENVIRONMENT AND CLIMATE CHANGE CANADA

Environment and Climate Change Canada recognizes the importance of international cooperation on environmental issues. In 2015-2016, the department largely provided ODA through support for multilateral environmental organizations that provide technical cooperation and capacity building to developing countries.

CANADA REVENUE AGENCY

The Canada Revenue Agency provides knowledge and technical support to tax administrations in developing countries, both bilaterally and multilaterally, as a key member of international and regional tax organizations.

INNOVATION, SCIENCE AND ECONOMIC DEVELOPMENT CANADA

Innovation, Science and Economic Development Canada supports the International Telecommunication Union, the UN specialized agency responsible for coordinating the global development of telecommunications. This support helps member states save lives when disaster strikes via the deployment of emergency telecommunication equipment.

EMPLOYMENT AND SOCIAL DEVELOPMENT CANADA

Employment and Social Development Canada's Labour Program provides ODA to help partner countries implement existing labour legislation and modernize labour policy and administration. This fosters better enforcement of national labour laws and greater respect for internationally recognized labour rights, an integral part of human rights.

PARKS CANADA

Parks Canada's ODA includes Canada's annual core contribution to UNESCO's World Heritage Fund, membership dues to the International Centre for the Study of the Preservation and Restoration of Cultural Property and membership dues to the International Union for Conservation of Nature.

HEALTH CANADA

In 2015-2016, Health Canada assisted the World Health Organization and African countries affected by the Ebola virus disease outbreak, bringing expertise to the clinical trial reviews as part of a commitment to fulfill Health Canada's regulatory capacity-building agenda. Through the Canadian Food Inspection Agency's Federal Assistance Program, Health Canada also contributed to the World Bank's Global Food Safety Partnership to support global cooperation for food safety capacity building, and the World Health Organization Codex Trust Fund to support the participation of representatives from developing countries in Codex meetings.

STATISTICS CANADA

Statistics Canada engaged in various statistical capacity-building activities through the UN and regional organizations and directly with national statistics offices in developing countries. Statistics Canada is a member of the Partnership in Statistics for the 21st Century (known as PARIS21), and provides technical assistance in support of PARIS21's activities and events. Through participation in the Inter-agency and Expert Group on Sustainable Development Goals, Canada provides expertise for the development of sound global indicators for measuring the 17 Sustainable Development Goals of Agenda 2030.

CANADA POST

Canada Post contributed to the Universal Postal Union which provides technical assistance to developing countries.

CANADIAN INTELLECTUAL PROPERTY OFFICE

In 2015-2016, the Canadian Intellectual Property Office provided technical assistance to developing countries through two main channels: a technical assistance workshop with the World Intellectual Property Organization, and research reports for patent requests.

NATURAL RESOURCES CANADA

In 2015-2016, Natural Resources Canada provided an in-kind contribution of training on the use of geomatics technologies to help the Government of Senegal develop a national geomatics plan.
