

Purity is goodness Goodness is Strength

Tea Combines Them All

Sold only in sealed lead packets, 25c, 30c, 40c, 50c, 60c per lb. By all Grocers. Black, mixed or green. Highest Award St. Louis 1904.

HAVE TWO HOUSES

in South Parkdale for delivery on the first of May. Not since the collapse days after the boom of '86 has there been such a chance to get a splendid home for so little money.

My permanent residence in Ottawa makes it necessary for me to close out my holdings in Toronto real estate, and I now offer my former residence and lot, at No. 166 Jameson-avenue, for a price which would barely build the house to-day.

The lot alone is worth \$3,500
The house would cost to build \$4,200
Actual value to-day \$7,500

To anyone who will buy this house and lot before the first day of May I will make a special price of \$5,500.

I will accept any reasonable cash payment, with the balance on easy terms. I do not want to hold property in Toronto when all my interests are in Ottawa.

The lot is wide and deep with shrubbery, fruit and shade trees.

The house is built better than they build houses to-day.

Have a look at this house, and also one at 179 Jameson-ave. Both are for sale cheap.

If you are interested apply to R. S. King, care of the Elias Rogers Company, or to any real estate agent making a specialty of house property.

ALFRED WOOD,
Ottawa Free Press, Ottawa, Can.

COALERS HERE BY APRIL 15.

Oswego Harbor Still Blocked by Ice, Which is Unusual.

The coal vessels will begin to move in and out of the harbor about April 15, it is expected. The first trip undertaken last year was on April 13. Reports from Oswego indicate that the harbor there is almost as badly ice-bound as Toronto, but the ice in the latter case is the result of a heavy snowfall, while in the former it is the result of a heavy snowfall, while in the latter it is the result of a heavy snowfall.

POPE CALLED BENEDICTION.

Albany, N.Y., March 24.—Former Congressman, better known as General Charles Tracy, died today. He had been ill for some months. Pope Pius X. called last Monday the papal benediction. General Tracy was born in Albany 57 years ago. While studying in Europe he enlisted in the papal army and served two terms. In 1883 General Tracy married Miss Hermine Duchesnay of Montreal, Que., who with four children, survives him.

Electrocuted by Door Knob.

St. Louis, March 24.—During a heavy spring storm yesterday John McGovern, 47, engineer at the Insular Hotel, was instantly killed by an electrified door knob as he started to open the door of his home.

Wanted in Massachusetts.

An officer from Lawrence, Mass., will arrive to-night to take back Osgood Gagnon, who is wanted there on the charge of stealing \$40 and a cheque for \$50. Gagnon was arrested by Detective Forrest. He has consented to return without extradition proceedings.

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most effective disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better it is. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion; it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best is Stuart's Charcoal Lozenges; they are composed of the finest powder of willow charcoal and other harmless ingredients in tablet form, or rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the feeling of it is that no other medicine can result from their continued use, but on the contrary, great benefit. A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all my patients suffering from gas in the stomach and bowels, and to clear the complexion, and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty cents a box at drug stores, and although I am some years a patient, I have never known a better and better charcoal than Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

READY TO GO BEYOND HARBIN RUSSIAN ARMY TO WITHDRAW

Flying Column of Japanese Cavalry Now Moving Hastily Across the Country Toward New Point.

St. Petersburg, March 24.—(4:52 p.m.)—The news from the front continues to indicate preparations for a withdrawal of the main portion of the Russian army beyond Harbin, so as to place it out of danger of having its communications with Russia severed, if it is found impracticable to attempt to hold the lines at the Sungari River. Tishler, 300 miles west of Harbin, is mentioned by several correspondents in a fashion to suggest that it will be the new point of concentration, although others speak of the Amur River.

A flying column of Japanese cavalry is reported to be moving hastily across the country towards Tishler, while a heavier column is going east in the direction of Vladivostok. One correspondent intimates that the Japanese may adopt the tactic of relieving the direct pressure on General Linvitch, in the hope of inducing him to concentrate as far as possible below Harbin, which would give Field Marshal Oyama the advantage of preparing his next blow without greatly lengthening his line of communications. Linvitch's decision to be prepared to meet his main army beyond the reach of a decisive stroke while awaiting reinforcements may have been taken in order to avoid just such a trap.

CAMPAIN FOR PEACE.
St. Petersburg, March 24.—(2:30 p.m.)—The papers are supporting the campaign for peace and are beginning to print quite openly the history of the invasion in the far east, for the protection of private interests, devoting special attention to the connection with the Yalu river.

O. E. A. ANNUAL MEETING.
Some of the Features of the Next Month's Program.

The forty-fourth annual meeting of the Ontario Educational Association will be held in the University buildings April 25-27. On Tuesday evening, April 25, the general association will meet in the west hall, when President Edwards will deliver the presidential address: "Prof. Moulton of Chicago will speak of the future of the school system from the point of view of the school of the future, and the reports of the committees on the reconstruction of the educational system will be presented. On Wednesday evening, Hon. Dr. Pyne will speak; J. S. Edwards will read an address on the "School of the States," and the reports of the committees on the reconstruction of the educational system will be presented. On Thursday evening, Helen MacMurchy speaks on "Recent Progress in School Hygiene," and a conversation will conclude the school work.

Among the features of the program arranged for the various sections are: College and high school—Comments on high school affairs in the past year, by C. A. Mayberry and J. E. Wetherill; discussion on the effect of the new regulations upon the school work.

Modern language.—H. H. Bell, on "The Educational Value of French and German"; discussion of methods in English, by T. F. Macpherson, B.A., and others. "The English Centenary," by Prof. Van der Smid, B.A., and others. "The English Centenary," by Prof. J. Hume Cameron. "Natural science section."—New Researches in the History of the Earth, by Prof. Kenrick and F. B. Allan, B.A., LL.B.; "Mineralogy for Schools," by Rev. C. M. St. John, B.A., LL.B.; "Recent Advances in Chemistry," by W. P. Cobbe. "Classical section."—The History of the Roman Empire, by R. A. Little; "Experts and Authorities in Education," by Dr. G. W. Johnston; "The Early Greek Mathematicians," by R. A. Little; "Recent Advances in Physics in America," by R. A. Little; "Some Modern Conceptions in Geometry," by R. A. Little; "The History of Algebra," by R. A. Little; "The History of Trigonometry," by R. A. Little; "The History of Calculus," by R. A. Little; "The History of Statistics," by R. A. Little; "The History of Logic," by R. A. Little; "The History of Philosophy," by R. A. Little; "The History of Literature," by R. A. Little; "The History of Art," by R. A.
