BANKS HOT AFTER BUSINESS.

Atlin Now Has No Less Than Three Tents on Which Shingles Are Being Put. Vancouver, April 8.—Just as Canadian banks established branches at Dawson soon after the Klondike excitement broke out, they have lost no time in hanging out the word "Bank." Three tents now bear the word "Bank." The Merchants' Bank, the Halifax, and Bank of Commerce had a race to get in, and now word comes that the Bank of British North America has opened up. The Atlin manager is Mr. Simpson, and notwithstanding the difficulties of the trail he made a record trip with the bank outfit. The Juneau trail was used from Log Cabin and the journey to Atlin was accomplished from that point in two days.

FURIOUS FIGHT BETWEEN BOYS.

West Point, N.Y., April 9.—A fierce battle occurred at Highland Falls at late hour last night between candidates for admission to West Point as cadets on the one side and boys of the village on the other. The trouble began with a hand to hand fight, and the crowd soon increased to such an extent that stone-throwing took place. Several of the candidates were more or less injured, and the village of Highland Falls was in a state of commotion. The third son of General Fred D. Grant, a candidate for admission, was severely injured. The services of all the doctors in town were required to dress the wounds of the injured. Hostilities continued for nearly an hour.

There's Something Wrong.

Editor World: "What are the signs of the devil doing? Has the city gone to the devil completely? What has come over the respectable element in Toronto that such brutal exhibitions will not even tolerate, be squelched in Toronto now and for all time. Who are the men responsible for such exhibitions? Surely it cannot be that they are supposedly respectable citizens."

THE TORONTO WORLD.

THE PREFERENTIAL TARIFF A DELUSION.

The design of the preferential tariff was to increase our imports from Great Britain. It certainly could not, except in a sentimental way, increase our exports to Great Britain. An increase in our imports from Great Britain must be made either at the expense of other countries, especially of the United States, or of our own manufacturers. If the United States or our own manufacturers have not suffered loss of trade from the preferential schedule then we take it that the preferential tariff has not had the effect intended. The only evidence so far advanced by the Government to show that the preferential tariff has benefited Great Britain is the statement that our imports from the Mother Country have increased six per cent. during the first eight months of the twenty-five per cent preference has been a force. This of itself is no proof that the preferential schedule has diverted trade from the United States to Great Britain, or that it has hurt our manufacturers. We imagine the Government has no desire to prove that the preference has been a detriment to Canada. We ourselves do not believe it has. Has it affected the trade done by the United States with Canada? Apparently not in the slightest. According to the New York Journal and Commerce the trade of the United States has not been adversely affected by the British preference. On the contrary the exports of the U. S. to Canada seem to have increased by a larger percentage than have the exports of Great Britain to this country. We quote from The Journal:

Table with columns for years (1897, 1898, 1899) and values for Agricultural implements, cars and carriages, Boots and shoes, Builders' hardware, Scientific instruments, Steel rails and bars.

It is quite evident from these figures that the differential tariff has not injured our business; therefore, it has not diverted any of our trade from the United States to the United Kingdom. The imports from Great Britain have increased, but they have not fallen nearly so much as they would have increased without the differential tariff that were designed to impede importation from the United States.

MR. TARTE'S MONEY-SPENDING PROGRAM.

It cannot be denied that Mr. Tarte's money-spending program meets with considerable popular approval. Canada's debt is larger to-day than it ever was, but the interest on that debt is steadily decreasing, while the country has been constantly adding to its wealth. With money obtainable at 3 per cent, we can afford to borrow somewhat liberally for various national enterprises. But while, generally speaking, the people are apprehensive that the spending of the money will not be confined to necessary and economic works, but will be extended to illegitimate schemes. There are many public works that should be undertaken, but the country wants no more debt. We do not think Canada has made a mistake in any of the railway enterprises she has undertaken up to date. The intercolonial, it is true, has not paid working expenses, but the construction of this line was a political necessity. The building of the C.P.R. has already been paid for. The C.P.R. is earning a good interest on every dollar invested in the enterprise, as well as a large amount of watered stock. The success of the C.P.R. has been such as to warrant our undertaking new railway projects with all confidence. But what the Government should guard against is the opening up of new territory for the special benefit of bonus hunters and railway magnates. If the Government supplies the money for building new railways, it should retain the ownership of them itself. We are glad to observe that the Government looks favorably upon a policy of national ownership of the elevators which it is proposed to build in Montreal harbor. American capitalists are anxious to secure the privilege of constructing them, but they will not do so unless they secure a 50 years' franchise. It would be a retrograde policy to tie up these elevators to an American or any other syndicate of capitalists. It is by retaining control that the Government can prevent extortion, and at the same time take advantage of new conditions as they arise. Without giving in detail the various works throughout the country which the Government would be justified in going ahead with at the present time we may mention that they include the completion of the intercolonial and the extension of the Georgian Bay-Toronto Railway and the deepening of Toronto harbor. We are given to understand that the latter will be undertaken at an early date. The former is an equally commendable project. The proposed short cut across the Ontario peninsula is a necessary complement of our canal system. Unless this line is built the enlarged St. Lawrence canal will lose fully one-half their efficiency. The Grand Trunk and Canadian Pacific find it inimical to their interests to carry grain from Georgian Bay ports to Toronto. Their object is to secure the long haul to Montreal. In no other way can the people secure the benefit of the new St. Lawrence canal than by the construction of a portage railway, under Government control, from Georgian Bay to Toronto. This is one of the projects for which the Government would be justified in borrowing money and undertaking at once. We are surprised that the Toronto Board of Trade and the City Council are making no move to have this project brought to the attention of the Government. The country can afford to borrow money for such an economical project as this. Mr. Tarte's program is right in line with the proposition. If we fail to secure the line it will be more because of our own indifference than from any other reason.

DOLLAR SLEEPING CAR BENTERS.

Some short time ago the Baltimore and Ohio Railway placed half-rate sleeping cars on its night trains. As the World has already described, these cars were built after the style of ordinary Pullmans, only with less elaborate fittings. We learn from the Railroad Gazette of last week that they are to be taken off after a trial of two or three months. The Gazette says: "It is given out that the railroad company's results of this brief experiment were very gratifying, but the Pullman Company was not in a position to furnish the low-price sleeping cars to all of the roads which are running first-class Pullmans between the east and the west; hence, to reduce friction, the Baltimore and Ohio had to take them off." We take it that the meaning of this is that these half-rate sleepers were very popular with the traveling public, so popular in fact that other railway companies had either to place them on their lines or else insist on the Baltimore and Ohio's taking them off its line. These lines brought pressure to bear on the Pullman Company, and succeeded in getting that concern to withdraw the new sleepers altogether. The experiment was apparently too successful. It proved too much.

A POPULAR SELECTION.

Washington Officials Pleased at the Appointment by Britain of Mr. Charles N. Elliott as Samoan Commissioner. Washington, April 8.—The appointment of Mr. Charles N. Elliott as Samoan Commissioner gave much satisfaction in Government and diplomatic circles, as Mr. Elliott is a member of the Embassy Staff, and during his brief service here has made many friends. It also gave added assurance that the real differences over the Samoan problem were well behind us, and that the Governments have turned their attention to the selection of commissioners for its adjustment.

FATHER CHAMPAGNE DEAD.

The Gaitaine Point Clergyman Who Rendered Service to the Whoredeans Taken Off by Cancer. Ottawa, Ont., April 8.—Rev. Father Gaitaine, the parish priest of Gaitaine Point, died last night after a lengthy illness of cancer of the stomach. Death came to him peacefully at his late residence at the Point. About three years ago, when Lord and Lady Aberdeen came nearly being drowned at Gaitaine Point, Father Champagne took them into his parsonage and rendered them whatever aid was in his power. For this kindness Lord and Lady Aberdeen presented a chime of bells and set of restaurants to the parish church. During his illness the deceased was several times inquired after by Lady Aberdeen. A few days before his death he received flowers sent at her wish.

Gait Cricket Club.

Gait, April 8.—At the annual meeting of the Gait Cricket Club the election of officers resulted as follows: Patrons, B. S. Strong, J. G. Dykes, F. G. Allenby, J. C. Dietrich; hon. president, Hon. James Young; president, J. Hughes Charles; vice-president, J. F. Jeffrey; secretary, A. E. Milligan; treasurer, H. F. Bligham; captain, R. O. McCulloch; chaplain, Rev. B. Knowles; official scorer, James Trotter; Ground Committee, W. Fulton, John Turnbull, F. T. Strong, C. J. Logan, J. B. Warnock; Match Committee, W. C. Whittaker, J. F. Jeffrey, R. O. McCulloch, B. S. Strong, J. C. Dietrich; Executive Committee, C. J. Logan, Mr. Randall, W. W. Wilkinson, John Turnbull.

Rests With Congregation.

At the service at St. Andrew's Church yesterday reference was made to the death of the Rev. Mr. Black of Birkenhead, England. The matter now rests with the congregation.

FROM MAKER TO WEARER

"Tiger Brand" clothing and furnishing goods for men and boys—ready-made.

For Boys.

"Tiger Brand" prices don't come between mother's judgment and mother's purse—and any boy old enough to know one kind from another appreciates the difference between "Tiger Brand" clothing for boys and other kinds for boys.

"Tiger Brand" middie suits—tweeds and serges—2.00 to 8.00. "Tiger Brand" sailor suits—nothing "stingy" about them—big full collars—generously trimmed—natty—neat and just a purpose for gentlemanly little fellows—3.50 to 7.50.

"Star" shirt waists for boys—we have a full range of them—they've the best reputation—or they wouldn't be here.

Your money back if you want it.

E. Boisseau & Co.

Temperance and Yonge.

It is a necessary complement of our canal system. Unless this line is built the enlarged St. Lawrence canal will lose fully one-half their efficiency. The Grand Trunk and Canadian Pacific find it inimical to their interests to carry grain from Georgian Bay ports to Toronto. Their object is to secure the long haul to Montreal. In no other way can the people secure the benefit of the new St. Lawrence canal than by the construction of a portage railway, under Government control, from Georgian Bay to Toronto. This is one of the projects for which the Government would be justified in borrowing money and undertaking at once.

Sole Agent for Canada. For Sale by all Reliable Dealers.

The New Century Toilet Requisite Co., of Toronto, Limited.

Having purchased from the originator, who for over seven years has experimented and at last discovered a preparation that will POSITIVELY MAKE HAIR GROW, it seems almost incredible, as the New Century Hair Grower is the result of years of study and production. ACTUAL RESULTS. To prove our assertion, WE ARE GIVING FREE TRIAL TUBES of our Hair Grower to so many of our friends that we are unable to do so till the end of April at the City of Toronto, 6 Lombard-street, Toronto.

ST. PAUL'S WARD STALWARTS

Met on Saturday Night, Heard Speeches and Songs and Had an Enthusiastic Time.

About 200 members of the St. Paul's Ward Liberal-Conservative Association spent a very pleasant social evening in their rooms, Jackson Hall, on Saturday night. Short speeches, songs and light refreshments were the order of the evening, hence a thoroughly enjoyable time was spent.

The chair was occupied by the president, Mayor Shaw, and among those present were: G. E. Marter, M.L.A.; Ald. Hubbard, Dr. L. H. Randall, J. H. Haino, F. Sheppard, Dr. J. Wilson, Geo. Giesinger, H. L. Church, A. Derry, G. Wilson, J. Stone, H. C. Hemming and others.

Mayor Shaw, after thanking the association for electing him president, in his absence, read a report from a committee appointed for the purpose of making arrangements for the holding of more frequent meetings, and it was decided that in future the association would meet monthly. The next meeting will take place some time during May.

Ald. Hubbard gave an interesting talk on organization and thought that the club should meet every week. He also regretted the accident which prevented the number for East York, W. F. Maclean, M.P., from being present at the meeting.

G. E. Marter, M.L.A., criticized the action the Ontario Government took towards the bill introduced by Mr. Haino. He also expressed his sympathy with their Dominion member in his recent misfortune.

Several other short addresses were delivered, after which a social time was enjoyed, the meeting breaking up about 11.30, after singing "God Save the Queen."

FREE! Medicines and Appliances

To any honest man who may try them a reasonable time. If he is pleased with the result, he is to keep and pay for them. If he is dissatisfied, he has simply to return the appliance and remainder of medicine to us, and that ends the transaction without any expense whatsoever. There is no C.O.D. fraud, no deception of any kind, and our treatment is so sure to give bodily strength, to remove impediments to marriage, to stop unwholesome habits, to develop and tone to every portion of the body, and to restore to weak men the feelings and manhood of youth that we gladly make this offer in good faith.

Our new medical book will be mailed without charge in plain sealed envelope. Erie Medical Co., Buffalo, N.Y. We pay Canadian duty. No delay, no exposure.
