[Special to The Advertiser.] [Special to The Advertiser.]
WINNIPEG, Sept. 20.—Major Hall C.
Fryer, M.C., son of H. B. Fryer, of
Fort William, killed in action, 23 years
of age, was one of Fort William's most
popular young men. He graduated
from Woodstock College, and was from Woodstock College, and was studying law in Toronto when he obtained a lieutenant's commission with the late Col. Hay's battalion, joining the day it left for overseas. On arrival at St. John in November, 1915, the young officer was married to Miss Pearl Malcolm of Port Arthur, who accompanied her husband overseas, and has been in England ever since.

AERONAUTICS AFTER WAR. NEW YORK, Sept. 20—Steps to or-anize an international commission on civil aeronauties, with the object of studying the possible application of aircraft for commercial purposes, and for finding employment for the thousands of aviators after the war, have been taken by the Aero Club of America, it was announced here tonight.

China Willing to Send 300,000 Men to France

LONDON, Sept. 20. — Peking dispatches say that the Chinese Government is willing to send 300,000 troops to France if the Entente Powers approve.

A Tokio dispatch says that Japan has been sounded on this proposition, and there are indications that Japan will not oppose such action.

LOUISVILLE, Ky., Sept. 20.—Keen interest was displayed today by delegates attending the 93rd session of the Sovereign Grand Lodge, Independent Order of Oddfellows, which is meeting here, in the reports of several committees, notably that of the committee on legislation.

Among the most important of the matters referred to this committee for action were propositions for the benefit of Oddfellows who are now or may later be in the military service.

St. Louis was selected as next year's meeting place, at a short session held yesterday.

DEFENSIVE METHODS AGAINST SUBMARINES **ARE HAVING SUCCESS**

Justification for Hope of Further Reduction in

LONDON. Sept. 20.—The Press Association hears on high naval authority that the new defensive measures against submarine warfare are meeting with success, justifying the hope of a further reduction in the losses, and says it can be stated on official authority that the results of the methods adopted in the last month give cause for growing confidence.

According to an admiralty statement, dozens of ships have been saved by the smoke box system, with which the admiralty during the last few months has supplied a majority of British merchantmen.

Will German Intrigue Unite North and South America in War For Democracy?

The proper way to murder, according to a German nobleman in the diplomatic service, is to do it "without leaving a trace." This noble character represented William II (more or less accurately) at the capital of Argentina, and his message to Berlin telling them how to do their own specialty, as some think it, was part of a dispatch coolly advising Germany to submarine steamers of the neutral nations that harbored him as a guest. "The present disclosure," remarks the Harrisburg Patriot, "ought to be the means of lining up the Argentine with the other South American republics against the Germans as further evidence that the western hemisphere is united against the things for which Germany stands.'

In THE LITERARY DIGEST for September 22 there is a very illuminating article which covers from every angle the recent diplomatic clash involving Germany and Sweden against Argentina. There are a number of other striking articles covering the news of the world in this number of the Digest. Some of

Form Your Judgment On All the Evidence

Don't be satisfied with hearing only one side, and that in all probability garbled, of the news of the day. Hear all the evidence, exactly as presented by the different parties and schools of thought, without coloring or distortion, and then weigh the facts, as given, and make your decision. This is the only way in which you can arrive at

a fair knowledge of what is going on in the world in all lines of endeavor. By reading THE LITERARY DIGEST each week, which you can do easily in a couple of hours, you can arrive at this result and will know all the facts before you form your conclusions. Think of what this will mean to you in breadth of vision and clearness of view.
