

## Realty and Building

There is reported to be a good demand for store properties on West Queen-street, between Yonge and Bathurst. This section of the great east-west thoroughfare is an ever-mounting district extending far to the north as well as toward the south, and is fast coming into its own as one of the city's greatest retail divisions. From east to west Queen-street promises to be the great diagonal artery of the city and this is being realized by those who are endeavoring to keep in touch with the rapid strides being made by the city from a real estate standpoint. College-street, particularly by west of Spadina, is also bound to be a great retail centre, and is fast building up into a thoroughfare of stores which are being taken up as soon as completed. This district will be called upon to supply the needs of the parts of the city lying to the north and between College and Bloor. As yet, however, much of this trade is coming down to Queen-street.

Within the next week the erection of the steel framework for the new five-story building of the Union Bank at the southeast corner of King and Bay-streets will be started. The 19 caissons have been completed, extending down to the solid rock, 35 feet below the sidewalk level, and filled with concrete on which the steel pillars will rest. The Dominion Bridge Co. will erect the steel work and it is stated will endeavor to make a record in putting up the same. Hitch and Co. are the general contractors for the building.

J. J. McCaffrey is erecting a three-story brick addition to his hotel at the southeast corner of Adelaide and Bay-streets. J. M. Lyle is the architect and Tait & Co. have secured the contract for the work. The building will cost \$10,000.

Robins, Ltd., report the sale of the Foster estate at the corner of Davenport-road and Dufferin-street. The property, which is 400 by 125 feet, and includes a house sold for \$25,000, and will be broken up into building lots. The same firm report the purchase for \$60,000 of 800 feet of vacant land in the rear of the Dufferin-street school by the board of education.

## A RESIDENTIAL CITY

Port Arthur a City of Beautiful Homes.

As a residential city Port Arthur is undoubtedly the finest in northwestern Ontario. The charming site of the city itself, with its gradual slope from the waters of Thunder Bay, lends itself to the making of the home beautiful, and the people have not been slow in taking advantage of their opportunity. There is plenty of white sandstone near the city and as a consequence many of its homes and business buildings are of this material as well as brick. In almost every beauty as well as utility has been taken into consideration in the design, and the result is Port Arthur's residences which they hold would be more valuable because of the opening up of the park, and so they would not be the losers, and they did not at reasonable figures, although at no pecuniary loss. The transferring of these properties to one man meant that there would be opened for building purposes the finest block of land in Port Arthur. This has been done, and in conjunction with the city Mr. Carrick is making all the necessary improvements. The streets and avenues have all been laid out 66 feet wide, with a driveway of 28 feet, a strip of 18 feet on each side being reserved for boulevards and walks. Miles of concrete sidewalks have been laid, the roads are being graded, and the boulevards sodded and planted with trees and shrubs, so that by next fall the whole park will be in splendid condition.

Too much cannot be said of Port Arthur's new residential district known as "Marlborough Park." This park is right in the centre of Port Arthur's best home section, and indeed would not have been left unbuilt until this long had it been agreed that the fact that the several properties included in the park were held by wealthy Port Arthur men who would not part with their holdings until they could get a sufficiently large return for their investment. J. J. Carrick, the well-known western real estate man, was able to persuade these men that the time had come for them to dispose of their interests in order to help the city, and pointed out to them that other properties which they held would become more valuable because of the opening up of the park, and so they would not be the losers, and they did not at reasonable figures, although at no pecuniary loss. The transferring of these properties to one man meant that there would be opened for building purposes the finest block of land in Port Arthur. This has been done, and in conjunction with the city Mr. Carrick is making all the necessary improvements. The streets and avenues have all been laid out 66 feet wide, with a driveway of 28 feet, a strip of 18 feet on each side being reserved for boulevards and walks. Miles of concrete sidewalks have been laid, the roads are being graded, and the boulevards sodded and planted with trees and shrubs, so that by next fall the whole park will be in splendid condition.

PORT ARTHUR, Ont., June 1.—The city council today passed a resolution authorizing the city engineer to prepare plans for the improvement of the city park, and to have the same laid out in accordance with the plans of the city engineer.
