UNLABELED LIQUOR DEEMED SMUGGLED

Collector of Customs Makes Statement in Case of John L. Duncan

John L. Duncan, who is said to be wanted in Carson City, Nevada; on charges of conspiracy, was charged yesterday afternoon in the police court with having liquor in his possession other than in his private dwelling, and with having smuggled liquor in his possession. Some evidence was taken in both charges and the case set over until this morning.

In the charge under the New Brunswick Intoxicating Liquor Act, Donald Miller, 10 Germain street, told on accused renting a room from him. Sergeant Detective Power and Detective Biddiscombe told of finding several bottles of liquor in the room. This concluded the case for the prosecution.

The second charge was then taken up. C. B. Lockhart, collector of customs, represented the excise and customs department. By consent of E. J. Hennebery, who appeared for the defence, the evidence of the previous witnesses was taken as given again.

Arthur C. Powers, computing clerk in charge of the bonded warehouse, gave evidence concerning the department regulations. He could not say that the liquor in question had been smuggled.

GIVES EXPLANATION.

The collector explained that all liquor legally in the province bore the commission stamp. Any liquor without the stamp was regarded by the department as smuggled and he contended that where the stamp was lacking the burden of proof was cast on the person in whose possession it was found. He added that it was the desire of the department to stop the traffic in smuggled liquor by catching the wholesaler who sold it, but failing that they would have to go after the buyers.

Cobham Will Employ Amphibious Plane

LONDON, March 31—A type of De Havilland aircraft which can be used either as a landplane or a seaplane, is to be employed by W. Alan Cobham in the flight from London to Australia, which he is to attempt soon after his return from his flight from South Africa.

The craft will be flown as a landplane from England probably as far as Calcutta, where its wheeled under-carriage will be replaced by floats for the remainder of the journey to Port Darwin, Australia, which will be largely over water.
