CONDITIONS OF  
AMITY TREATY  
MADE PUBLIC

Basis of Relations To  
Remain Agreement  
of Rapallo

O'KAYED BY BERLIN

Pact Creates Unfavorable Im-  
pression In France; Experts  
Examine Text

Canadian Press.

BERLIN, April 27.—The Russian-  
German treaty of amity, after be-  
ing approved by the Foreign Affairs  
Committee of the Reichstag, has been  
made public. It contains but four  
articles, and begins by stating that  
both governments are inspired by the  
wish to do everything toward main-  
taining peace, being convinced that  
the interests of the Russian and German  
people necessitate intimate co-operation.

The first article declares that the  
basis of the relations between the two  
governments remains the treaty of Ra-  
pallo, and that they will keep in friend-  
ly touch so as to reach an understand-  
ing on political and economic ques-  
tions.

Article 2 provides that should either

of the signatories be attacked by a  
third power or by several powers, in  
the face of its peaceful attitude, then  
the other signatory shall remain neu-  
tral throughout the entire conflict.

Article 3 sets forth that should a  
coalition be formed among third powers  
with the object of imposing an  
economic or financial boycott against  
one of the two signatories of the pres-  
ent treaty, the other will not join such  
a coalition.

Article four declares that the treaty  
shall come into force when ratifications  
are exchanged and that it holds good  
for five years. Both parties will come  
before the expiration of this period con-  
cerning the further development of  
their political relations.

CONFORMS WITH LEAGUE

The German government considered  
an amity treaty imperative with neigh-  
boring Russia, which in pre-war days  
was the best consumer of German  
products. It was insisted, moreover,  
that the treaty should be strictly in ac-  
cordance with Germany's policy at  
Locarno, and the League of Nations,  
as not representing the slightest op-  
position against other nations, but that  
it should be considered a further step  
in Germany's avowed policy for the  
pacification of Europe.

FRENCH ATTITUDE

PARIS, April 27.—The Russo-Ger-  
man treaty, received in official form  
at the French foreign office this morn-  
ing, created a most unfavorable im-  
pression.

The Foreign Office experts will  
carefully examine the text before any  
decision is taken as to what steps may  
be necessary.

Sir William Tyrrell, of the British  
Foreign Office, is now in Paris on his  
way home from Rome. It is understood  
that he will be taken of his presence  
here thoroughly to discuss the problem  
from the Franco-British viewpoint.

RARE DICKENS SET  
IS SOLD FOR \$7,000

Original Issue of Pickwick Papers  
Brings Record Price in New  
York

NEW YORK, April 27.—A set of  
"The Posthumous Papers of the Pick-  
wick Club," by Charles Dickens, in  
the original parts, uncut, brought  
\$7,000, a record price, at a sale in  
the American Art Galleries of the  
Dickens and Thackeray collection of  
George Barr McCutcheon, the writer.  
Last night's session brought a total  
of \$34,207. The sale will be conclud-  
ed tonight.

The buyer of the rare issue of the  
"Pickwick" was James F. Drake. This  
set is said to be one of the finest in ex-  
istence, having the points sought by  
collectors. Many of the other Dick-  
ensiana brought record prices. A copy  
of the rare first issue of the first edi-  
tion of "The Battle of Life" was  
bought for \$1,075 by E. B. Geo, who  
also paid \$1,025 for "Great Expecta-  
tions." A Reading in "Three Stages,"  
privately printed. It is said that not  
more than two or three of the read-  
ings were printed.

brought relief in 3 weeks!

Read this remarkable testimonial  
to the power of Kellogg's ALL-

"I prize your ALL-BRAN. I have been  
using it three weeks for constipation. I

relief. Now, since using your bran I can  
regularly eat and feel like a new man."

Yours truly,

Ontario Hydro Will  
Keep Clocks Correct

Canadian Press.

TORONTO, April 27.—Absolutely  
correct time in every home and office  
will be a possibility if a new type of  
electric clock which may be plugged in  
on any electric light socket, is gen-  
erally adopted. The clock will be regu-  
lated by a huge master electrical clock  
at the Chippewa hydro plant, and the  
current running over the hydro line  
will cause the hands on the electric  
clock to move at exactly the same  
pace as that at which the master clock  
is running.

WOULD STOP GOLD  
RUSH TO RED LAKE

Pittsburg Engineer Says Precious  
Metal Not There in Paying  
Quantities

NEW YORK, April 27.—Gold does  
not exist in paying quantities in the  
new fields at Red Lake, northern On-  
tario and the hundreds of people join-  
ing the gold rush to that section are  
doomed to disappointment according to  
F. Braun, Pittsburg mining en-  
gineer, who has just returned from  
surveying the district.

Mr. Braun declared the Canadian  
government should stop the gold rush  
before it grows any bigger. Whatever  
gold exists, he said, would not assay  
over \$10 to \$15 per ton. He predicted  
severe hardships for many people, who,  
he said, include clerks, mill hands, and  
others not acquainted with mining, be-  
cause of their poor equipment and  
small food supplies.

GENERAL BOOTH  
LAUDS PROHIBITION

Predicts Dry Law in England  
Even if It Fails in the  
U. S.

United Press.

NEW YORK, April 27.—That probi-  
tion has "proved of immense ad-  
vantage" in the United States is the  
belief of General Bramwell Booth of  
London, International leader of the  
Salvation Army.

Reports from 1,200 service centres  
of the army, General Booth said, in-  
dicated that prohibition had aided in  
"bettering the homes, making the  
children happier and opening the way  
for moral and spiritual teachings."

"I am quite sure that prohibition  
will come in England, even if you fail  
here," General Booth said.

NOTED ECONOMIST DIES

LONDON, April 27.—Mrs. Lillian  
Charlotte Knowles, noted economist  
and educator, died at her home yes-  
terday.

Mrs. Knowles, who was a professor  
of economic history at the University  
of London, was prominently identified  
with several Royal Commissions on  
various economic problems.

Keeping Your  
Schoolgirl Complexion

Take  
Care What Kind  
of soap touches your face  
The kind beauty experts use them-  
selves—how to use

To endanger a good complexion  
with an unproved soap is a folly.  
The only kind of soap to use on  
your face is a true complexion soap.  
Some soaps that are excellent in  
many ways are too harsh for the  
skin.

Laundry, scrub, with any soap you  
wish. But if guarding a good com-  
plexion is your aim, take care. Use  
a soap made to protect it.

Thus Palmolive is so widely urged  
... a soap made solely for one  
purpose: to protect the complexion.  
A soap made by experts in beauty to  
be used freely and lavishly on the  
skin.

The accepted beauty method today  
is the simple rule that follows—  
Nature's formula to "Keep That  
Schoolgirl Complexion." Leading  
skin experts urge. Thousands of  
beautiful complexions prove its  
results.

Follow this rule one week—Note the  
improvement that comes  
Wash your face gently with soap  
Palmolive Soap, massaging it softly  
into the skin. Rinse thoroughly,  
first with warm water, then with  
cold. If your skin is inclined to be  
dry, apply a touch of good cold  
cream—that is all.

Do this regularly, and particularly  
in the evening. Use powder and

FLOWERS FOR HERO

WARREN, O., April 27.—Traffic  
Policeman Leo M. Dixon recently  
saved a frail and elderly woman from  
death in the street. She offered him  
money. He refused. The next day  
a florist delivered a carnation to  
Dixon as he stood on his post, and  
told him that he had a standing or-  
der to deliver a fresh carnation to him
