#### CANADIAN STEEL AND COMPETITION

"When Exchange Rights Itself," Says Mr. Wolvin, "Canadian Steel Makers can Compete With World."

(Montreal Herald)

Mr. Roy M. Wolvin, President of the Dominion Steel, when asked whether his company had tendered for the recent order placed by the Argentine government with British mills for 75,000 tons of steel rails at \$37 a ton, stated yesterday that the company had not done so. He added that if they had done so, they would have quoted \$34 a ton, which was the tender put in by the United States. This would have meant a sign basis of exchange. The bid made by the British firms was \$42.

Discussing the impossibility of steel mills on this continent attempting to underbid Europeans, Mr. Wolvin stated that this was what he had stated when he returned from Europe a short while ago.

Just as soon, however, as the European mills are working at 90 per cent. capacity, they will push their prices up to the levels of ours, and when the exchanges of European countries are around normal, we will see if they can manufacture rails as cheap-

ly as we can," said Dominion Steel's chief executive. "Our new process for making steel rails, which has been recently started to enable us to take care of an order for 40,000 tons, has proved to us that we can compete with anybody in the world in steel rail making."

Mr. Wolvin anticipates a temporary slowing down of the export coal business owing to the cessation of the strike in the British coal fields, but states that it was not expected to last, and came in the nature of a boon to tide them over what is usually a dull period of the year. Very soon the regular customers will begin to buy their supplies of coal, and, besides, it is expected now that the lengths of the British coal strike, which it is probable that England will have to come this way for coal again in the near future.

CHILDREN, ANY AGE, BOARDED at Summer Home three and five dollars per week. For information apply Box Y 183, Times. 1164-7-11
