

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act, 1862.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent newspapers. These papers advocate: British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion.

GOOD NEWS FOR ST. JOHN

St. John has been selected as the site of a dry dock and ship repair plant, and tenders will soon be called for. There is still also a possibility that a shipbuilding plant will be located here, should the contract for vessels for the Canadian navy be awarded to the British company which prefers St. John as a site for the works.

This is news of immense importance to St. John, but it is accompanied by the further announcement that the work of constructing the first berth to be used by steamships in connection with the Grand Trunk Pacific Railway is also to be undertaken, along with the dredging of St. John harbor east. An Ottawa despatch states that the works now proposed will involve an expenditure of four or five millions.

The significance of this announcement cannot easily be over-estimated. It is true that the citizens were prepared to hear of large developments, ever since it was announced that the Grand Trunk Pacific had bought seventy acres of land around the head and east side of Courtenay Bay, and since President Hays told the people that the work of preparation for handling the freight of that railway at this port could not begin too soon. But in spite of all this there were persons who doubted whether there would be any such developments as are now announced. Doubt can no longer exist, and the growth of a new town at East St. John is assured. The works to be erected there will attract others and, as the development of West St. John will go on at the same time, it is clear that the port of St. John will assume a position of the first importance among the seaports of Canada.

The predictions of Hon. Dr. Pugsley are being fulfilled. Those who scoffed at his statements about Courtenay Bay are silenced. They are compelled to admit that since he became the representative of St. John and the minister of public works the claims of that port as a national port have been recognized as never before, and the development of needed harbor works has been vigorously prosecuted. No representative of St. John at Ottawa has ever accomplished so much; and it has not been at the expense of other parts of the country, but as part of a great national policy of transportation, directing the trade of Canada into Canadian channels.

St. John, which rejoiced to be the Atlantic terminus of one transcontinental railway, and only arrived at that stage after the most strenuous agitation and a lavish expenditure of money on terminal facilities, is now to be a terminus of three, and the expenditure necessary to provide the facilities has been assured by the federal government. This is no more than the city, by virtue of its location and its harbor, is entitled to; and it is a source of great satisfaction to be assured as the citizens were a few weeks ago by Dr. Clark, M. P., and Dr. Nealy, M.P., that the people of the west are heartily in accord with the government's policy of development at St. John.

ENGLAND'S AUTO LIST ADDS 40,000 IN YEAR

London, May 26.—Some very interesting facts were brought out in a lecture delivered in the theatre of the Royal Automobile Club premises in Pall Mall by W. Worby Beaumont. This club, which was started in 1897 has been in his opinion the great means of fostering motorism in these islands.

At the outset this club had 163 members, today it numbers 6410, besides 13,000 associates. In 1897 there were not 200 automobiles in the country, while last year they numbered no less than 124,000, the last twelve months having added the astonishing number of 40,000 cars to the list.

VERSATILE "They tell me your boy Josh is very versatile." "He is," replied Farmer Cornsmeal, patiently. "I never saw anybody who could do so many good things without repeating himself."—Washington Star.

A woman just has to love some one even if it's herself.

TIRELESS IN BODY AND IN MIND

Worn Out by the Monotonous Indoor Life of Winter—Spring Finds the Blood Weak and the System Run Down—Vigor is Restored by DR. CHASE'S NERVE FOOD

Just at the time when the buds are bursting and the birds are chirping merrily in the treetops, many people feel most keenly the debilitating and enervating effects of indoor winter life.

The blood is so thin and watery that it fails to supply the vital organs. You feel tired, weak and discouraged, your appetite is lost, digestion is impaired, your nerves are lacking, and all these distressing feelings come over you. You need a restorative to be used at this time of year to form new, rich blood, and create new nerve force. These elements are found in condensed and easily assimilated form in Dr. Chase's Nerve Food.

Thousands of men and women have learned to escape this spring depression and weakness and disarrangement by using this great restorative. Vitality is increased, strength and confidence returned, buoyancy is felt in every movement of the body, pallor and weakness and disease give place to the glow of health and vigor of mind and body.

Dr. Chase's Nerve Food, the great spring tonic and restorative, 50c a box, 8 for \$2.50, at dealers of Edman, Bates & Co., Limited, Toronto.

HE HAD NO TIME

He had no time to chat with friends, he had no time to stop and play, he had no time to laugh and joke, he had no time to go away. A fortune he was out to make, and night and day he toiled right on. And when his children came to romp he promptly told them to go home.

NO WONDER

Strict Parent.—From my observation of him last night, I came to the conclusion that that young man of yours was rather wild. "Wild?" Of course. It was your observation that made him wild. He wanted you to go upstairs and leave us alone.

DOCTORS TELL HOW "CUTICURA" CURED SKIN DISEASES

One says, "I have Great Faith in Cuticura Remedies." Another, "They Always Bring Results." "I wish to let you know of a couple of recent cures effected by the use of the Cuticura Remedies. Last August, Mr. J. H. Hackett and son, James, visited me with a severe skin eruption. At first I could not understand the nature of the case. Finally traced it to his occupation, as he was painter and decorator. It was dermatitis in its worst form, he started with a slight redness and would affect most parts of his body—his face, neck, chest, back, arms, and hands. The itching and burning was so distressing that he could not rest his skin at night, and he could not get relief. I recommended the Cuticura Remedies, and he used them for about fifteen days, and he was cured. He would not believe in my advice, especially on the fingers, wrists and arms. I could do nothing but prescribe Cuticura Remedies in cases of eczema, and they have cured every other formula I have used. I am now the holder of numerous patent medicines, but I find remedies possessing this merit, such as the Cuticura Remedies do, I am unable to mention. I have been treating patients with Cuticura Remedies for many years, and I still find the Cuticura Remedies as good as ever. They always bring results."

CHapel Grove Notes

Chapel Grove, May 23.—Ernest Reardon and E. Carr, were the guests of Mr. and Mrs. Thos. Martin on Sunday. Miss Harney returned to the city last evening. First Holy Communion will be held in St. Bridget's church, on Wednesday, the 24th at 8.30. Many children are now preparing for this great event and their instructions are being attended to by Rev. J. H. Bergmann, C.S.B. The services were had a lively time following up in the men who were working on the drive, and who made for their homes.

NO EXTRAVAGANT DEMAND. (Boston Transcript.) "Trap—Kin I got a bite to eat here? Woman—Yes, if you'll saw that pile of wood." "Trap (sizing up the job)—I ain't askin' for no \$10-a-plate banquet, lady."

"Little Joe Twitters is the worst case of henpeck I ever met." "What's the matter with him now?" "Why, his wife makes him wear all those mannish hats of hats after she gets tired of them."—Canadian States Journal.

LAWN MOWERS

Beautiful lawns are made and kept beautiful only by constant care and attention. Buy a good Lawn Mower, and it will be a pleasure for you to care for your lawn. The mowers we sell are made of high-class material and we can honestly recommend them to wear well, look well and work well.
