

COMPLETE LIST OF THE PUBLIC WORKS

IMPROVEMENTS TO BE CONSIDERED IN BULK

A Meeting to be Held for Purpose on Friday Night—Last Night's Session.

From now until after the city estimates have been handed down, which will be in the course of a week or two, there will be few if any appropriations for local improvement work.

At the regular meeting of the city council last night much discussion was indulged in over what should be done, but there appeared to be a mutual understanding that all requests for improvements be laid in the table until it is known definitely what funds the board had at its disposal.

It was learned that the improvements already demanding attention call for all and more money than will be available for the purpose. A meeting will be held on Friday evening for the consideration of board matters, and it was agreed that the board should then take up the question of improvements in bulk and consider them.

Much routine was gone through at last night's session, and notwithstanding the meeting was adjourned by 10 o'clock. First in the order of communication came a letter from B. W. Pearce, who complained of the manner in which the electric lamps are lowered in some instances, and suggested that the committee by night and day refer to a wind storm. The letter was referred to the electric light committee for report.

H. Dallas Holmcken wrote as follows: Gentlemen—I beg to call your attention to the enclosed clipping which I have taken from the issue of the Victoria Daily Times of Saturday last, the title of which is 'The Victoria Terminus Railway Act.'

The by-law itself refers specifically to Chinese and Japanese, and section 25 of the act says that no railway company shall employ any Chinese or Japanese in any work connected with the railway.

The communication was received and laid on the table for a week and the clerk instructed to convey the thanks of the board to the writer.

Miss Perrin, president, and Mrs. Grant, secretary of the Woman's Council, drew attention to the large number of small boys on the street at night, and suggested the advisability of enforcing curfew law.

Ald. Williams moved that the letter be laid on the table for a week, as he had something in mind which he thought would cover the whole matter to the satisfaction of the council.

Ald. Yates was curious to know the secret of Ald. Williams's scheme, but the latter refused to discuss it until he normally introduced it in council. The motion was carried.

B. Christopher, secretary of the Tailors' Union, wrote enclosing a resolution of that body asking the council to invite tenders now for uniforms worn by city servants, as the present was the dull season with the tailors, and the work would afford employment for idle men.

The resolution further asked that the city adopt the union label on all clothing purchased by the corporation, the label being a guarantee that the articles were made by white labor and under fair conditions otherwise.

Ald. McCandless, Cameron and others of the council called attention to a dangerous telephone pole in front of his residence, and the subject was referred to the electric light committee, with power to act.

Mrs. S. Blake again asked that the water privilege be extended to her residence, it being now two or three years since she first sent in a similar request. Ald. Yates said that the matter was before the council, and he moved that it be laid on the table until after the estimates were considered.

Ald. McCandless moved an amendment that the city engineer be instructed to ascertain the cost of laying a one-inch pipe to the corner of Shakespeare street, and be felt that the board could not think of laying a four-inch main even after the estimates were handed down. He thought that the smaller pipe would suffice, and this could be laid down at comparatively little cost. The amendment to the motion carried.

receipt of the following communications: Gentlemen—I have the honor to inform you that after the last meeting of the city council the following communications have been referred to the city engineer for report, viz.:

Hampton, re ditch south side of Lansdowne road.
Alex. Watson, re rock Catherine street.
Benjamin Deacon, re improvement of King's road, between Fourth and Seventh streets.
C. R. Nairne, re condition of drain Battery street.
R. Lettice, re condition of drain Battery street.
R. Lettice, re condition of drain Battery street.
R. Lettice, re condition of drain Battery street.

The communication was received and laid on the table.
Ald. Cameron moved that the city engineer be requested to furnish the council with a complete list of the work that has been asked for, the name of the applicant and the cost of the same.

Ald. Williams seconded the motion, and the council unanimously approved of the idea.
Richard Hall and C. Ellison petitioned the council urging it to take some action in respect to the Craigflower road.

Ald. Yates moved that the communication be laid on the table, to be considered with the estimates. He explained that the many demands on the council of last year had debared the board's good intention from being carried out.

Ald. Cameron thought that the estimates were already on the wrong side by \$3,000, and he was of the opinion that Ald. Yates's motion only meant delay.
Ald. Yates, however, said that this and many other works could not be carried out without the imposition of increased rates. The people had a right to the improvements, and these could only be carried out by increasing the rate.

Ald. Yates's motion was eventually carried.
J. C. Darling complained of the misconduct of the Japs living at Nos. 112, 113 and 114 Yates street, who were a great source of annoyance to the community by night and day. Referred to the sanitary officer and chief of police, with power to act.

W. W. Ralph and three others petitioned for additional water supply. Referred to the water commissioner for report.
J. T. Henley and others, owning property near the cemetery, asked for a light and water supply. Referred to the water commissioner and electric light committee respectively.

The electric light committee reported as follows: Your committee submit the letter herewith attached from the superintendent of the electric lighting department, estimating the cost of installing arc lamps at these points. Total estimated cost, as shown in Mr. Hutchinson's report, is \$1,000.

The following is an estimate of cost of installing arc lamps at these points: Old Equipment road, at corner of Walker street, \$100; Russell street, corner of Alpha street, \$120; Blanche and Bondarke streets, \$20; Market St., \$20; Andrew and James streets, \$20; Elford and Fort Sts., \$20; Balfour St., \$20; Belmont and Bondarke streets, \$20; Yates St., between Douglas and Bondarke streets, \$20; Store and Fisgard Sts., \$20.

Total \$530.00
The report, after considerable discussion, was laid on the table.
The park committee reported that there was no provincial or Dominion land available for the proposed municipal parks on Sunday. Received and adopted; a copy to be forwarded to the secretary of the Lord's Day Alliance.

The finance committee recommended payment of accounts aggregating \$1,834.45.
The finance committee further recommended appropriations of \$10,000 and \$1,500 for the James Bay reclamation and the Victoria school respectively. Adopted.

The city engineer reported as follows: Gentlemen—In accordance with instructions as per resolution of your honorable body passed January 21st, 1902, I have the honor to submit the following report showing the number of houses unconnected with sewers on property abutting on streets, and the streets on which such property is situated. The reasons why such houses have not been connected may be generally stated as follows:

1. Property owners alleged to be unable to bear the expense of making connection.
2. Property owners who, in my opinion, are quite able to bear the expense of making connection, but refuse to do so.
3. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.
4. Properties unconnected on account of level.

5. The city in one instance made a test case and had the property connected in accordance with the provisions of the sewerage by-law, and the expense of making connection, but refused to do so.
6. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.

7. Properties unconnected on account of level.
8. The city in one instance made a test case and had the property connected in accordance with the provisions of the sewerage by-law, and the expense of making connection, but refused to do so.
9. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.

10. Properties unconnected on account of level.
11. The city in one instance made a test case and had the property connected in accordance with the provisions of the sewerage by-law, and the expense of making connection, but refused to do so.
12. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.

13. Properties unconnected on account of level.
14. The city in one instance made a test case and had the property connected in accordance with the provisions of the sewerage by-law, and the expense of making connection, but refused to do so.
15. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.

16. Properties unconnected on account of level.
17. The city in one instance made a test case and had the property connected in accordance with the provisions of the sewerage by-law, and the expense of making connection, but refused to do so.
18. Quantities of work existing in streets between sewer and property lines, thereby increasing the cost of connection beyond the means of the average property owner.

PYRITIC SMELTER REPORTED BOUGHT

SUNSET MINE OWNERS ARE THE PURCHASERS

Montreal and Boston Copper Company Secure Plant to Treat Ores From Their Mines.

The pyritic smelter, built over a year ago by the Standard Copper Company, controlled by Price Bros. & Co., of Quebec city, has, according to good authority, been acquired by the Montreal & Boston Copper Company, and after a few alterations will be ready for operation. Negotiations looking to the purchase of the smelter by the Montreal & Boston Copper Company have been pending for some time, and it is now stated that the deal is closed, and as soon as the necessary papers are prepared and signed the new owners will immediately begin the work of putting the smelter into shape to treat the ore of the Sunset mine.

The pyritic smelter was intended as a custom smelter to treat the heavy sulphide ore of the Boundary district. It was built close to, and as soon as a great saving could be made in the cost of fuel by the new process, and consequently ores containing a large amount of sulphur could be treated much cheaper than by the old methods. Price Bros., who were behind the enterprise, found that the construction of the smelter, the purchase of several mines, and the large amount of money required to develop the latter, would call for a larger expenditure than they at first contemplated, and they decided to close down all their enterprises in the Boundary district.

The Montreal & Boston Copper Company own the Sunset and several adjoining claims in Deadwood camp. Development work on the Sunset uncovered several rich veins of copper, and the company is seriously considering securing a smelter, so that they might retain for themselves any profit that might arise from the treatment of the ore. They first decided to erect a smelter at their own expense, but later negotiations were opened for the purchase of the pyritic smelter with the result as stated above. The net purchase price cannot be ascertained, but it is in the neighborhood of \$100,000.

H. C. Bellinger represented the Montreal & Boston Copper Company as expert purchaser, while E. J. Wilson, who looked after Price Bros.' interests in a similar capacity, Mr. Bellinger thoroughly examined the plant about ten days ago, and his report seems to have been favorable, since Mr. Wilson actively carried out will be under his direction. These will include a remodelling of the furnace and the erection of a large cooling mill. It is expected that the necessary improvements will be completed to run the present furnace within 30 days. It has a capacity of about 250 tons daily and this amount of ore can be readily supplied by the Sunset mine.

The company intend, however, to begin the immediate erection of another furnace and continue increasing the capacity of the plant to meet the requirements of their own business. Custom ore that may be offered. It is quite possible that within a short time a besmeling plant similar to that in operation at the Grandy camp will be erected so as to save the high freight rate on metal.

The smelter is situated on the Colliery Western, near Boundary Falls, about two and a half miles from the town. It is built on a bench overlooking Boundary creek, and below is ample dumping ground for the slag. There are excellent facilities for securing water for granulating the slag. The Sunset mine is about three and a half miles from the smelter with a down grade of 100 feet. The rate from the mine to the smelter for ore should not be more than 15 cents per ton. The Sunset adjoins the Mother Lode mine, which is low lying its own smelter running with a capacity of over 400 tons a day, and this will be doubled as soon as a second furnace, which is now being installed, can be blown in.

The operation of the pyritic smelter owned by the Montreal & Boston Company will give employment to at least 100 men at the smelter itself, and will double the number now employed at the Sunset mine.
Messrs. Greenshields and Munroe leave to-night for Montreal, but Mr. Munroe will return to the Boundary shortly.

THE BANK FRAUDS.
"Dick" Barge, the Pugilist, Gave Evidence To-Day.
London, Feb. 19.—On the resumption of the hearing of the charges growing out of the Bank of Liverpool frauds to-day, the defence was commenced with an examination of "Dick" Barge, the pugilist, one of the accused men. He testified that he made £30,000 from boxing during the last ten years; that he had known Lewis Marks, the missing American book-maker, for 18 months, and that he advanced him £250 in October last on the understanding that they were to follow him to the premises of the Bank of Liverpool. Marks informed the witness that James Manes, an American book-maker, had a rich friend in Liverpool, and suggested that he (Barge) should there with Manes and a lot of money might be made by their transactions. Barge declared he never saw Thomas P. Goude until he met the latter in Holloway jail. When he heard of the Bank of Liverpool frauds, he was not connected with them, and Manes were connected with them.

VISITED THE GOVERNOR.
Hongkong, Feb. 19.—Marquis Ito, who left Naples on January 23rd for Japan, landed here privately and visited the governor. There was no public demonstration.

STORM AT APIA. Several Vessels Blown Ashore—No Loss of Life.

San Francisco, Feb. 19.—Passengers arriving from Pago Pago, Samoa, on the steamer Sonoma report that a great hurricane occurred at Apia about February 2nd or 3rd, and that the Norwegian bark Teifon was said to have been blown ashore along with two or three smaller vessels. There was no report of loss of life. The Teifon was a vessel of 711 tons register, and had gone to Apia from Tamatave. At Pago Pago the wind was high, but no damage was done.

A SOUVENIR OF THE LOCAL POLICE FORCE

Neatly Compiled Volume Has Just Made Its Appearance—Profusely Illustrated and Creditable.

A very neatly compiled souvenir of the Victoria police department has just been published under the auspices of the retail association of the local force. It is the result of an arrangement entered into between the association committee and Messrs. Charles Towne and J. C. Dawson, whose volume dealing with the police force of Vancouver elicited much favorable comment.

An agreement was contracted whereby the police were to receive a certain percentage of the advertisement proceeds as a nucleus for a pension fund just inaugurated. The expenses incurred in preparing and publishing the volume were to be defrayed by Messrs. Towne and Dawson. These gentlemen have been energetically engaged on the work for the past two months and a half, and have succeeded in turning out a souvenir which, in view of the fact that it is the first of its kind published here, as well as its merit, should be favorably received.

It consists of over a hundred pages, is well written and printed and convenient in size. A review of the history of the Victoria police department, following a picture of the chief at his desk, occupies the first few pages. The roster of the force with rank, name, age, place of birth, former service and date of joining of each member, comes next, followed by the pictures of the chief, officers, detectives and constables of the force, each of which is accompanied by a brief biographical sketch. Liberal advertising patronage has been accorded the publishers, nearly every establishment of prominence in the city being represented by the pictures of the police rank and file, there is one of the sanitary inspector, whose work at times is closely allied to that of the blue-coated guardians of the peace.

The roster of the book is taken up with views of the city and vicinity, including those of the principal hostleries, the parliament buildings, places of business, municipal buildings and leading streets. The pictures of the Victoria harbor, the sailing fleet, the dock at Esquimalt, the Gorge and other points of interest are clearly reproduced. There are also a number of views along the coast, the Nanaimo railway. Altogether the volume is a very creditable one, and nearly bound, will shortly be placed on the market. It is from the pen of T. R. Cusack, the splendid artist, who has manufactured the book, the Engraving Company of this city. The police anticipate a substantial pension fund nucleus as the result of the venture.

Ten Years of Blessed Work and Glorious Victories.

PAIN'S CELESTIAL COMPOUND

Has Brought Health and New Life to the Sick and Deseased in Every Part of the Civilized World.

For the last ten years, the work of Paine's Celestial Compound has been a blessed and cheering one to men and women of every rank in society. In no country has the great medicine failed to benefit, and where it has been used promptly, it has in every case brought about a cure.

The blessed results that spring from the use of Paine's Celestial Compound are not confined to this Canada of ours. The great life-giving medicine has been sent to every quarter of the civilized world, and has cured the sick, restored the weak and depressed to health and strength, and caused tens of thousands to live who failed to find health in worthless prescriptions, sarsaparillas, and nerve pills. Paine's Celestial Compound has cured when all other remedies failed.

It is to this best of all medicines, Paine's Celestial Compound, that we would direct the attention to every man and woman suffering from general debility, rheumatism, neuralgia, heart trouble, dyspepsia, anemia, blood diseases, liver complaint and kidney diseases. Thousands of grateful letters have poured in, testifying to wonderful and permanent cures.

It is foolish and criminal to delay the use of such a disease banisher when others have so clearly demonstrated its value; when any of your friends or neighbors have been made well by its use. The health-giving virtues are so eminently great that the ablest physicians are prescribing Paine's Celestial Compound daily for the sick.

If you are weak physically, in the grasp of disease, or simply feeling out of spirits, irritable, sleepless, or despondent, try one bottle of Paine's Celestial Compound, and note well the magical effects.

PRINTING PRESS FOR SALE.—The Cotton Press, on which the Daily Times is printed for several years. The bed is made of iron, and is in perfect condition. It is in first-class condition. Very suitable for daily or weekly office. Cost \$1,200. Will be sold for \$800 cash. Apply to Manager, Times Office.

FOR SALE.—Three good dairy cows; newly calved. Apply R. Stuart, Hatley Park.

A CLASH OF INTERESTS.

Interesting Fight on for the Control of a Local Newspaper.

An interesting fight has been in progress for some time past for the control of the Colonist newspaper, and reached a climax at a meeting of the directors yesterday, when a Dunsmuir board was installed, with A. G. Sargison as managing director. The other section, headed by Forbes George Vernon and C. A. Holland, threaten to elect a board representing their views, and it is possible that the trouble may yet have to be adjusted in court.

The difficulty lies in an arrangement said to have been entered into years ago at the time Theodore Davie started a rival newspaper. The Dunsmuir and Vernon interests came in at that time, and in consideration of their doing so, it was agreed that an agreement was reached whereby they were always to have the control of the directorate. The rival faction claim that this agreement is not binding, because it was not made with the Colonist company, but with Messrs. Ellis and Sargison.

Some time ago an agreement was reached between A. G. Sargison and J. Dunsmuir, whereby they were to have interests, thus giving Mr. Dunsmuir control. Yesterday morning, at the meeting already referred to, Mr. Dunsmuir having control of the majority of the stock, refused to recognize the agreement upon which his rivals have always based their claim, and succeeded in having a board elected in conformity with his ideas. The members of it are all, with the exception of Mr. Sargison, connected in one way or another with the Dunsmuir interests.

The following officers were elected: President, Hon. James Dunsmuir; vice-president, C. E. Pooley, K.C.; managing director, A. G. Sargison; secretary, J. A. Lindsay. The above were together with J. Maurice Hill were elected directors of the company.

NEW PRESIDENT.
New York, Feb. 19.—Thos. Powell Fowler, president of the New York, Ontario & Western railway, has been elected president of the Metropolitan Securities Company and of the International Urban Railway Company. Mr. Fowler is the representative on the board of many railroads, and of large English money interests.

There must be something in a name after all. The Conservative candidate in Lisgar was called Toombs. He is now buried.

APIOL & STEEL After Ladies PILLS

REMEDY FOR IRREGULARITIES SUPERSEEDING BITTER APPLE. PILLS COCHIA, PENNYROYAL, ETC.

Order of all chemists, or post free for \$1.20 from EVANS & SONS, LTD., Montreal, or MARTIN, Pharmacian, Southampton, England, or P. O. Box 290, Victoria, B. C.

NOTICE.
Notice is hereby given that the Canadian Northern Railway Company will apply to the Parliament of Canada at its next session for an Act empowering the Company to construct the following lines of railway, namely:

1. From a point on the Company's line between Arthur and Port Francis, thence northerly and southerly to a point on the Port Arthur, Ottawa and Montreal line to Port Arthur, Ottawa and Montreal.
2. From a point on the Company's line at or near McCreey Station, Manitoba, to the easterly boundary of Manitoba.
3. From a point on the Company's line near the narrows of Lake Manitoba, to a point between Edmonton and the Kellogg Head Pass.
4. From a point on the Company's line near Swan River to the Pacific Coast at or near Skeena River, by way of the Pine River, in Alberta or Saskatchewan, to the Red Deer River.
5. From a point on the Company's line near Hanging Hide River (Saskatchewan) to the mouth of the Carrot River near Pasadena.

Also, increasing the capital of the Company and empowering it to issue stock, debentures or other securities in connection with the acquisition of vessels, hotels, tenements or other properties; and to acquire and utilize water powers for the generation of electric and other power, and to dispose of surplus power, and to acquire or establish pleasure resorts; and to aid settlers upon lands served by the Company's railways; to improve the Company's lands and to acquire and hold lands outside of Canada; also, confirming the amalgamation between the Company and the Edmonton and Pacific Railway Company. Dated 24th December, 1901.

J. M. SMITH, Secretary.
MINERAL ACT. (Form F.)
CERTIFICATE OF IMPROVEMENTS.
NOTICE.
"Patriam" and "La Toscana" Mineral Claims, situate in the Victoria Mining Division of Victoria District. Where located, Gordon Mine, about 5 miles east of Kitchikan Canon.

Take notice that I, J. Herriek McGreggor, acting as agent for S. Arden Singlehurst, Free Miner's Certificate No. 56223B, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining Crown Grants of the above claims.
And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements. Dated this 31st day of December, 1901. J. HERRICK MCGREGGOR.

CERTIFICATE OF IMPROVEMENTS.
NOTICE.
The Max and Gold Steel Mineral Claims, situate in the Victoria Mining Division of Victoria District. Where located, Gordon Mine, about 5 miles east of Kitchikan Canon.

Take notice that I, E. F. Billingham, as agent for B. T. Godman, free miner's certificate No. 56223B, and H. E. Newton, F. M. C. No. 56227D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown Grant of the above claims.
And further take notice that action under section 37 must be commenced before the issuance of such certificate of improvements. Dated this 4th day of February, 1902.

TWICE-A-WEEK ANY ADDRESS

VOL. 32. FORTY KILLED BARCELONA STRIKERS MAKE ATTACK

Disturbances Have Begun in Neighboring Town Situation Is Growing Serious.

Barcelona, Feb. 21.—The strike has broken out here. The strikers are still in the city, and the number of rioters has increased. The ordinary necessities and the distress of the strikers are causing large sums of money from the neighboring towns to be spread, and in gravity.

The Strike Spread. Madrid, Feb. 21.—A morning's address received from Madrid, concerning the situation there, though it is still threatened to be made to the strikers. The strikers have been prepared for the worst, and the rifles, but they are well equipped with revolvers and daggers. Suspected houses continue to be searched, and the arrest of large numbers of strikers is reported. The strikers are considered to be the chief trouble.

The character of Barcelona is a resort for revolutionaries in European ranks of the malcontent, and has been swelled by French political agitators. The Republicans are being urged their own arms against their own work. Madrid law is being enforced. Tarragona. The strike is a general cessation of work and much excitement prevails. Forces of gendarmes are ordered to those places. Delegates of labor societies of Saragossa dressed the government in petition.

Sensational Report. London, Feb. 21.—Dispatches from Madrid report from various frontier towns with scenes of the Spanish, quite discredit to the Exchequer. The Exchequer Company saying that a fight between troops in a suburb of Barcelona killed a street armer and 500 persons were reported killed or wounded on both matter of fact up to yesterday morning. The number of persons killed was only 40.

Attack on Coll. Saragossa, Spain, Feb. 21.—Rioters attacked the 3rd regiment of the 1st division, believing their assault. Fight at Valenc. Valenc, Feb. 21.—In a yesterday between rioters here persons were found arrested were made.

A Settlement. Castellon De La Plana, employers and their employees understanding this after strike here is ended.

Anarchists at Bill. Bilbao, Feb. 21.—A number of anarchists have arrived here with a view to inciting a strike. The anarchists refused to co-operate in the NEWFOUNDLAND.

Legislature Opened Yesterday. Circulars Show a St. Johns, Nfld., Feb. 21.—The provincial legislature was opened yesterday. Governor Boucher's speech was a favorable outlook for industrial operations, and predicted results for the present financial year are most promising. The estimate for the fiscal year are framed like results.

The Legislature proposed a session includes bills to regulate the fisheries, to amend the constitution of the colony's river and cold storage for the fishery for the municipal government, and for the highway employees. Premier Bond to-day introduced a bill on the Fisheries. The leader of the bill is the Fisheries. The bill is unanimous.

YOUR FAITH will be as strong as Shiloh's Consumption Cure and cure is so strong we guarantee a cure and refund money, and we send you a free trial bottle of Shiloh's Consumption Cure. Shiloh's Consumption Cure will cure you in a day, and thus prevent serious results. It has been doing this for 10 years. S. C. WELLS & Co., Toronto, Can.

Karl's Clover Root Tea corrects the Stomach.
