We have had dealings with Dr. Kendall for many years, and we knew of some large ousiness houses in cities near by who have also dealt with him for many years, and the truth is fully and faithfully proven, not only that he is a good honest man, and that his celebrated Spavin Cure is not only all that it is recommended to be, but that the English Language is not capable of recommending it too highly.

Kendall's Spavin Cure will cure spavins There are hundreds of cases in which that has been proven to our certain knowledge, but, after all, if any person confines the usefulness of this cell-brated medicine to curing spavins alone, they make a big

In case of spavin, of which I have treated five, thas killed them all, and entirely removed three. In case of splint I find it has no equal, one case I had was of three years standing and the Spavin Cure removed it entirely. I had a cow get spavined and it entirely cured her. One year ago a two hundred pound bleek of fee fell out of a wagon striking my foot on instep and toes, it would be impossible to mash a foot worse without breaking any bones. I was taken home and carried into the house. I do not think amputation of the leg would cause any more pain. I sent for Kendall's Spavin Cure, it was all I used, and in six days I could walk around. About three weeks ago my team ran away and threw me out of the wagon, the hind wheel struck my knee. After applying several highly recommended linkments without obtaining any relief, I went for Kendall's Spavin Cure. My large was drawn up and my knee swollen badly. In three days I was able to walk to the barn. I could go into details more fully and make this a very long letter, but will not weary you.
