MARQUIS ITO

Says Japan is at the Height of an
Area of Great Development.

QUATRE, Wm., Oct. 5.—Marquis Ito of Japan, who has arrived in the United States, declares that Japan has no desire to fight a loan in the United States. Japan's necessities, he says, are merely temporary, and the loan which is to be raised can be got without difficulty, probably in Japan itself.

"Japan is at the height of a great area of development. She wishes to improve her harbors, to foster shipping and commerce, to build railroads and other industrial enterprises. The expenditure of the sum named in the dispatch will undoubtedly be an incentive to future trade between the Pacific coast and Japan. We need American supplies of every kind, including steel and iron coaches, locomotives, etc."

Marquis Ito leaves for the east today. He will remain several days in St. Paul. The rest of his itinerary is unsettled beyond the fact that he will pay his respects to President Roosevelt at Washington. A banquet was tendered the marquis at Banquet last evening. It was attended by prominent residents of this city. The local Japanese colony gave a magnificent reception to their distinguished countryman yesterday.

ARCHBISHOP OF YORK

Makes an Extraordinary Statement
About a Day of Humiliation.

LONDON, Oct. 5.—The Archbishop of York's pastoral proposing a day of national humiliation because of the slow success of British arms and of penitence for national sins has been received with astonishment and especially as he openly suggests therein imitation of the Boers who proclaimed August 9 as a day of humiliation. The archbishop quotes the Boer proclamation in full for the edification of the British clergy. "It is easy," he says, "and not uncommon to denounce these people as hypocrites and to laugh to scorn their open bibles and meetings for prayer. If, without hypocrisy, we had long ago taken a similar course it might have fared better with us than it has done."

CHARGED WITH SMUGGLING.

Valuable Furs Alleged to be Taken
Into the United States.

MONTREAL, Que., Oct. 5.—The United States authorities are said to have unearthed a big smuggling scheme, which had its headquarters in this city, and which had for its object the free delivery of valuable furs to customers in the United States. Converse J. Smith, special agent of the United States treasury department and an assistant, have been in Montreal for some time working on the case and the result has been the arrest of two Central Vermont baggage men at White River Junction, Vt. These men are alleged to have been acting for a Canadian house, which is said to be under suspicion of being at the head of the smuggling scheme. It is stated that already twenty thousand dollars worth of smuggled furs have been traced to different points in the States, some as far south as St. Louis. Some of the smuggled furs are said to have been taken from the Pribyloff Islands, the taking of which is prohibited by a special enactment of congress.

STEAMER SINKS.

The Captain, His Son and Two Men
Missing—No Trace of Boat
or Crew.

DETROIT, Mich., Oct. 5.—A special to the Tribune from Alden, Mich., says that the steamer Hattie K., plying between Elk Rapids and Eastport, sank yesterday in Torch lake. The crew, consisting of two men and Captain Fred Smith and his sixteen year old son are missing. Two tons of flour were washed ashore on the beach near Alden. No trace of boat or crew can be found. Torch lake is an inland lake 16 miles long and is being patrolled on both sides for wreckage.

ENGLISH YACHTSMAN'S OPINION.

NEW YORK, Oct. 5.—The London correspondent of the Tribune quotes a prominent English yachtsman as saying that a renewed attempt to capture the American cup has been made improbable for a long time to come, owing to the general disappointment in Great Britain over the result of the latest international yacht races.

QUIRINAL IN DANGER.

LONDON, Oct. 5.—A special dispatch from Rome says that the construction of a new tunnel beneath the Quirinal has so seriously weakened the foundation that the palace is endangered. The walls of the building have sunk and have become cracked and what is known as the Emperor's chamber has been greatly damaged, wide splits having appeared in the walls.

GOLD MEDAL FOR ACADIA.

Maurice Lowe, son of Mr. Lowe of the firm of Hobbins & Lowe, London, Eng., has offered to Acadia University, on behalf of the firm which he represents, an annual gold medal, for a term of five years, to be bestowed in such manner as the faculty may determine.

THE CORONATION.

Costumes and Formalities That
Eclipse Major Maude's Ideals.

LONDON, Oct. 5.—There is a flutter in high society today owing to the fact that the earl marshal has issued the rules and regulations governing what is to be worn at the coronation of King Edward next year. The whole document breathes of the middle ages, when distinction in dress was considered so essential, and the quaintness of the phraseology in which the attendance of the nobility of the United Kingdom is required at the solemnity of the royal coronation of their most sacred majesties, and describing the regulations in regard to dresses and head dresses, is distinctly medieval. There is a curious gradation in the dress of the nobility of the United Kingdom, the four distinctions existing in the ranks of the aristocracy.

All the peers have been notified that their robes must be of the "coronation" velvet, turned up, the capes edged with miniver, the caps furled with miniver, pure and powdered with bars or rows of ermine, according to their degree.

Here followed the numerical gradations distinguishing between the ranks. Barons are allowed two rows of ermine, viscounts two and a half rows, earls three rows, marquises three and a half rows and dukes four rows. All the mantles and robes must be worn over full court dress, uniform or regimentals.

The earl-marshal's order banishes counterfeit pearls and all jewels from coronets which are to be silver gilt by the peerages. The coronets are to be of crimson velvet, turned up with ermine with gold tassels on top. No jewels or precious stones are to be set or used in coronets, nor counterfeits of pearls or silver balls.

The number of the latter permitted revives a nice sense of distinction. A baron's coronet bears six silver balls, a viscount's sixteen, an earl's eight with gold strawberry leaves between; a marquis, four balls and four leaves, alternately, and a duke's coronet has no balls and has eight gold strawberry leaves.

The earl-marshal next prescribes the robes, mantles and coronets to be worn by the peerages. These are of the same materials as the men's, with similar gradations in the number of bars of ermine and balls.

The length of the trains marks the difference in rank. A baroness is only allowed a train of three feet, a viscountess has one and a quarter yards, countesses have one and a half yards, a marchioness has one and three quarters yards and a duchess two yards.

Follows a curt notification as to who shall be excluded. Peersesses in their own right and widows of peers are allowed to come. But widows who have remarried beneath their rank in the peerage are "not entitled to a summons to attend the coronation."

SOUSA IN LONDON.

And a Caustic Criticism by the London Telegraph.

LONDON, Oct. 5.—The only novelty in the amusement world this week has been the appearance of Sousa's band in London. There is no doubt that he captured the enormous audience in Royal Albert hall yesterday evening, and that his novel methods created the greatest interest and approval. Increasing interest has been shown in today's concert; but while no tickets are on sale, there will be many unoccupied stalls and boxes, as was the case yesterday evening. It seems that a majority of the boxes and a large number of the stalls were sold out right when Albert hall was built, and as many of the owners are out of town these are not occupied. But most of the musical critics are loud in Sousa's praise, but others do not take kindly to this fresh American invasion. The Daily Telegraph says:

"Nothing they did persuaded us to regard Sousa and his band as a revelation. Their playing was brilliant, precise, and emphatic, and sometimes a little too emphatic. Certainly our military conductors have not cultivated that wealth of gesture with which the American visitor accompanies his own lively compositions, but nevertheless they have done well in a most way, and if they have missed some of the opportunities they have given us instead of purity of tone and beauty of expression."

REV. DR. CLARK'S MEETINGS.

Rev. Joseph Clark, D. D., international representative to the Provincial S. S. Convention, will speak tomorrow at 4 o'clock in Portland street Methodist church, to Sunday-school workers and senior scholars, and in the evening at 8.30 in St. David's Presbyterian church, to the general Christian public. All are cordially invited.

DEWEY WILL WED AGAIN.

NEW YORK, Oct. 5.—The Herald announces that Senator Chauncey M. Dewey is to marry Miss May Palmer in the near future and quotes the senator who is a guest of H. McK. Twombly at his home, Fortmain Park, near Morristown, N. J., as follows:

"It is true that I am to be married again. The lady who has honored me by agreeing to become my wife is Miss Palmer, whom I have known for years."

FATAL RAILWAY WRECK.

READING, Pa., Oct. 5.—Four persons were instantly killed in a freight wreck today on the Lebanon Valley division of the Reading railway, near Pottsville, Pa. The killed are: Thomas F. Dolan, engineer, Philadelphia; Wm. H. McCoskey, fireman, Philadelphia; Conductor Patrick Xone, Philadelphia; and brakeman Charles E. Kays, Philadelphia. A switch was open and the train went into an embankment, plowing the locomotive and the cars.

CENTRAL AMERICA.

SAN FRANCISCO, Cal., Oct. 5.—The United States Ranger returned from Panama, where he was sent by the government when the rebellion in Colombia reached an acute stage. There was no sign of any disturbance along the line of railroad between Panama and Colon.

SAVING A LIFE.

PORT ROWAN, Oct. 5.—Clarence Rockefeller and Arthur Bantam, aged sixteen and fourteen respectively, were drowned yesterday while out in a small boat shooting ducks. The boat capsized in a gale.

VICTORIA, B. C., Oct. 5.—I. C. Brown, the newly appointed minister, who was recently defeated in New Westminster, has placed his resignation in the hands of Premier Dunsmuir, who has not yet accepted it.

HAMILTON, Ont., Oct. 5.—The Morning Post, established here sixteen months ago by a number of local money men, has suspended publication, and an assignment will be made today. It is said some twelve thousand dollars was dropped in the venture.

OAKVILLE, Ont., Oct. 5.—Frank Fisher, the twelve year old son of Geo. Fisher, was accidentally shot and killed here by Gilbey Hardy, aged 25, son of George H. Hardy. The two were pursuing a cat and Hardy, who was armed with a revolver, appears in the semi-darkness which prevailed, to have mistaken Fisher for the cat. The bullet entered the boy's head.

WOODBRIDGE, Ont., Oct. 5.—Clarke Wallace is a little better this morning.

SOUTH AFRICA.

LONDON, Oct. 5.—The casualty list shows that the total British losses in the attack on Col. Kekewich's camp at Medungha were four officers killed and 23 wounded, and 51 men killed and 115 wounded, numbers much greater than those heretofore reported.

BRITISH FINANCES.

LONDON, Oct. 5.—Sir Michael Hicks-Beach, chancellor of the exchequer, declares that parliament will meet this autumn to provide for money for the prosecution of the war in South Africa. Nevertheless at the present rate of expenditure the deficit for the fiscal year will be £8,724,000, while the £60,000,000 of new consols, with which it was expected to meet the deficit, leaving a net deficit of £4,724,000, leaving a net deficit which must be provided for by fresh appropriations of £13,000,000. Sir Michael Hicks-Beach doubtless considers that prompt action by parliament in January will take care of the deficit.

AMERICAN CONTRIBUTIONS.

LONDON, Oct. 5.—The American contributions to the Queen Victoria memorial fund amount to £15,000, which, according to the king's consent to a request made by the American society in London, will be applied to a clearly designated portion of the memorial. This will be designed and executed by an American sculptor in harmony with the memorial's general design. It is expected that this sculptor will be selected after some form of preliminary competition in the United States.

THE AMERICAN SOCIETY IN LONDON.

The American society in London discussed at a meeting held this week the propriety of opening a subscription in London for an English memorial to President McKinley.
