Mrs. Babbitt, Mrs. Deedes and Messrs. Richard and Skinner, who have been here this week attending the provincial tennis tournament, returned to Fredericton last evening. Mrs. Babbitt had the honor of carrying back to Fredericton a silver cup, which she won in the tourney.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed conditional of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflammed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The Scribes went down to defeat in the second game of baseball with the Custom House Tigers, which was played on the Every Day Club grounds yesterday afternoon before a large crowd of spectators. The score was 11 to 10 in favor of the Tigers. At the opening all were in merry mood, but the closing was a pathetic scene—for the Scribes.

An extraordinary sale of Ladies' Neckwear and Belts will take place at F. A. Dykeman & Co.'s store on Monday. These are a manufacturer's set of samples and consist of an immense variety of both lines and no pieces alike. These goods will be sold at just half their regular price. The chief feature in this sale is the very attractive assortment of Dutch Collars and Jabots.

The members of the Natural History Society have been looking forward with great pleasure of the field meeting which is to be held this afternoon at "Enlorac," the summer cottage of Senator Ellis, at Lancaster. As this place is immediately opposite the falls it has been chosen by the committee as a point to afford the geologists of the society, opportunity to discuss the remarkable conditions which there exist. The situation was selected by the committee as the most suitable all-round place for the meeting. Members and their lady friends will assemble at the society's rooms at two o'clock this afternoon. Should the weather be unfavorable the outing will be postponed as a matter of course.

SUNDAY SERVCES.

PRESBYTERIAN CHURCH.

St. John Presbyterian church, King St. East, Rev. J. H. A. Anderson, B.D., minister—Sabbath services 11 a. m. and 7 p. m. m.; Sabbath school and adult Bible class at 2.30; Y. P. S. C. E. meets on Monday evening at 8 o'clock. Mid-week prayer meeting on Wednesday evening at 8 o'clock. A cordial welcome to all.

SAYS UNCLE EBEN.

"When you comes to figure in de loss of time, temper an' mebbe friendship," said Uncle Eben, "it's mighty hard foh anybody to say foh certain dat he has had de best of an argument."

A PASTOR'S SALARY

Fourteen Dollars Only in Twelve Weeks—Bread and Water the Only Food in the Parsonage.

CINCINNATI, Aug. 6.—Rev. J. Spenser Smith, pastor of the Methodist Episcopal church of Winchester, Ohio, in a sermon denouncing the "pillars of his church" last night, told from the pulpit a story of privation and want that amazed his hearers.

"Because of the way you have treateda me, for days at a time I have had to live on butterless bread and water. I was forced to go eight weeks without receiving a penny from you. For three days, when my wife lay in bed with her newly-born babe, I went without a bite so that she might get nourishment to keep her child alive with the bread and tea, all we had left.

"Because of your treatment my wife's mind temporarily gave way, and she would now be an inmate of an asylum had I not made a study of medicine.

"In twelve weeks I received but $14 from you on my salary, long overdue. You neglected me. You were all aware of my condition. You seemed to think that because I am a preacher I could live on wind.

These are some of the charges hurled in the village church by Smith at his congregation. A profound sensation exists, and the outcome is expected to be a church trial to lay the blame on those responsible.

SLAUGHTER HOUSE

The regular monthly meeting of the Slaughter House Commissioners was held yesterday afternoon. In addition to the regular routine business, Dr. W. E. Simon, the inspector, submitted the following report for the past month's killing:

	Cattle.	Sheep.	Calves.
John E. McDonald....	263	718	29
Jas. McGrath	201	429	71
M. J. Collins	12	7	4

For sale and recommended in St. John, by A. Chipman Smith, G. A. Moore, Royal Pharmacy, and G. A. Riecker.

SMOKING FEWER CIGARETTES NOW

OTTAWA, Aug. 6.—There were thirty million less cigarettes smoked in Canada last year than the year before. The decline is held to be entirely among boys of sixteen years and under and to be entirely due to the restrictive legislation put through parliament by the government during the session of 1908. It is believed that the law actually prevented the smoking of from forty to fifty million cigarettes by the boys of the country, as the consumption was increasing, and if it had not been for the law there would have been an increase of from ten to twenty millions instead of a decline of thirty millions. This is a fair assumption, as the consumption was increasing more and more each year, and during the six years prior to 1908 the increase amounted to over seventy-five millions.

The total consumption of cigarettes last year was about three hundred and seventy millions. There were three hundred and fifty-six and three-quarters millions of domestic cigarettes consumed, or a decrease of twenty-eight millions, and there were twelve and three-quarters millions of imported cigarettes smoked, a decrease of about two millions.

ST. CHARLES EVAPORATED CREAM

For many things in cookery, St. Charles Cream is an essential. It is as good as the best milk or cream for any purpose. For many purposes it is much better. It gives to coffee, for instance, a flavor which even the best of ordinary cream cannot approach, and it aids in bringing out the delicate aroma of chocolate and cocoa. For confection and ice cream it is unexcelled. For invalids and infants it is indispensable. **It never curdles.** It strengthens the strong. If only pure water is added it will agree with the most delicate stomach.

Sold by best grocers everywhere. 7

SPORT

BOSTON NATIONALS AGAIN DEFEATED

Chicago Pounded Ferguson in the Eighth Inning

CHICAGO, Aug. 6.—(National.)—The locals won today's game in the eighth inning by pounding Ferguson for two singles and two doubles. Evers led off in the first with a triple and scored on a long fly. Boston tied the score in the fourth on a single, a double and an infield out, but Kroh pitched the remaining innings so that only one other Bostonian reached third. Score:

	R.	H.	E.

PLAYERS DON'T WASTE THEIR COIN NOWADAYS.

They were talking about the money spenders of the old days and the money savers of today in baseball, when Hughey Jennings said: "I've no doubt $25 was spent foolishly by the ployers in the old days where $1 is wasted now.

On one short trip with the old Louisville club I loaned $275 to my teammates, and there's no doubt the $275 was not spent for any wise purpose. There are teams made up of 18 or 20 men in the major leagues now that don't waste that much money in a season; nor half that sum.

"Why, I know a ball player in this league who started on a four-week trip with exactly $1.75 in his pocket and he came home with $8.75 of it unspent."

"Written any songs lately?" George Moriarity, the Tigers' third sacker, was asked.

"Not lately," he replied. "I'm too busy trying to help the boys win a third pennant. When a fellow gives all the necessary time to baseball he hasn't time for poetry."

Just the same, several of Moriarty's songs will be sung on the vaudeville stage next season. Later on he may have a hand in musical comedy. Several vaudeville stars have asked Moriarty for contributions, and as soon as the baseball season is over he will begin writing words for music.

It's a whole lot harder than people imagine," said George. "It may sound easy enough when you hear the song, and it may be easy to make a poem, but it's twice as hard when you try to fit words to music."

There is not a popular song of the last five years that Moriarty's memory does not shelter. He can whistle any tune after hearing it a first time, and he can play the keys as well as he plays third bag.

MANUEVERS.

C. O—Fix bayonets!

Sergeant Major — Beg pardon, sir. P'radin' without bayonets. Orders from headquarters return all bayonets to store last week.

C. O—Oh, yes, yes! My mistake. Unfix bayonets!

Edyth — Jack says I was made to kiss.

Mayme—A diplomatic way of referring to your turned up nose, wasn't it?

UMPIRE CALLED TIME TO TAKE A CHEW

Umpire 'Mickie' Cleary, of McPherson, Kan., set a world's record for himself when he called time in the 18th inning of a 21 inning game between McPherson and Lyons of the Kansas State league and appealed to a friend in the grandstand for a chew of tobacco. Mickie got a handful of "hay" as he called it, shoved it into one side of his mouth and then shouted, "Batter up." The crowd howled with delight at the sight.

Lyons won by the score of 2 to 1. McPherson scored in the fourth inning by an error. Laganaur pitched the first 17 inning without hitting or walking a man. He thenl asked to be relieved. Brannon, on third, made sensational stops twice, and Perrine a feature by making a doublep lay on third base unassisted. The game was fast and played in 2.50.

BIGGEST CANOE MEET EVER HELD TAKES PLACE IN TORONTO BAY TODAY

TORONTO, Aug. 6.—The first meet of the Canadian Canoe Association to be held in Western Ontario will take place in front of the Toronto Canoe Club and under their auspices this afternoon at 2 o'clock. Accommodation for about 6,000 has been arranged by putting up grand stands specially for the occasion. The seating has been in charge of an able committee, under Mr. A. M. Graham, and arrangements are all completed, though, judging from the fast selling of tickets, it will be hard to get a seat. All who intend going and have not yet secured seats should see Mr. Thomas, 81 Yonge street, at once.

SUSSEX TO HOLD LABOR DAY RACES

SUSSEX, N. B., Aug. 6.—The Sussex trotting park is out with an offer of a $400 purse for four races on Labor Day, Sept. 6th, and Tuesday, Sept. 7th. The purses are larger than any offered heretofore by the track. A large entry list is promised.

A RECORD GAME OF BALL.

A rather unique and somewhat one-sided game of ball was played at Sunny Brae Wednesday evening, when the Windsor Hotel team was defeated by the Sunny Brae nine. Only one inning was played and in their half the suburb boys scored twelve runs, while the city aggregation only managed to tally one. It required about an hour and a half to play the one inning, which alone is quite a record.—Moncton Times.

"A PORT OF BOTTLES."

It is a common thing for officers or sailors on sea-going vessels, and especially for passengers, whose time often hangs heavily on their hands, to write some message in a paper, and enclose it in a bottle, cork it tight, and throw it overboard. Usually the paper contains a mere memorandum of the name of the ship, its latitude and longitude at the time, the date, the name of the captain and the writer, with perhaps a humorous message to the finder—the whim of an idle hour. But possibly the writing may convey a more serious message, stating that the ship has sprung a leak and is about to founder, compelling its passengers and crew to take to the small boats. Seldom has such a bottle been taken out of the water by a passing vessel in time to rescue the survivors.

If the bottle has been securely corked, it may float a long time on quiet seas, and may be carried many hundreds of miles on an ocean current. Such a waif, dropped into the Gulf Stream off the American coast, has been picked up many months afterwards on the shore of Ireland, Scotland or Norway. When ocean storms come, the angry waves dash the frail bottles on floating spars or projecting rocks, and the greater number are doubtless broken in this way. There are a few "dead spots" in the ocean, however, to which these tiny glass vessels may be carried, and where they may float in security for an indefinite period.

An officer on a Brizilian ship describes such a spot in the Caribbean Sea, which, he says, ought to be called the "Port of Bottles." It lies nearly midway between the cities of Cataqena, Colombia and Kingston (Jamaica), and about due east of Cape Gracias a Dois. "It is out of the regular ocean highway," he says, "and the action of the great currents going one way and another has left a space of stagnant water without any real movement at all. Anything that gets into the dead spots is apt to stay here, unless driven out by some big storm and will simply drift round and round, gathering sea-grass and barnacles." He picked up there three bottles floating together amid the drift, one empty, the others with papers inside. One of these had been cast into the sea three years before from a yacht in the Grand Cayman. There are a few other similar dead spots in the ocean, and it is possible that bottles might be picked up in them which had been floating for many long years.

DOCTORS HOBBLE HANS WAGNER

Must Not Extend Himself for Few Weeks—100 Fans Suggest Remedy.

PITTSBURG, Aug. 6—Baseball Pittsburg was delighted with the information that physicians will permit Hans Wagner to return to the game in time this week and remain there "so long that he takes no chances, but is very careful." While this probably means that the injured champion will not be able to let himself out or play his real game, the fans believe that even his presence in the line-up will help the home team make a showing they would not do otherwise.

So exercised have been physicians, over the big fellow's condition that they would not permit him to take a train for Louisville to assist at the burial of his old-time friend, Barry C. Pulliam. The champion batsman of the world wept at this, but did as instructed by his physicians, and today he submitted to an examination at the office of the club physicians. It was decided that Wagner may try to play providing he moves slowly to first, and under no conditions must he attempt any of the plays which have made him famous—at least not for weeks to come.

It was not until after the big fellow had pleaded that it was decided that he might try it some time during the present week. Wagner asserted that he would get into the game here, but the doctors say nay. Wagner says that though he is yet in great pain he thinks he can get into the game and "work out the soreness." He will demand another examination of his heart and stomach muscles before time for the game.

In this morning's mail Wagner received about 100 letters from fans and others, each suggesting some remedy for his strained muscles.

PLAY FINALS IN TENNIS TOURNEY

T. McAvity Wins Gentlemen's Singles and Mrs. Babbett Ladies'

The tennis tournament was very successfully brought to a close yesterday. In the morning the final sets were played and in the afternoon came the championship games, which proved to be extremely interesting.

The following is the result of the championship series:

In the gentlemen's singles T. M. McAvity defeated W. Wood, 6—4, 6—1, 6—3.

In the mixed doubles Rupert Turnbull and Miss M. Thomson defeated T. M. McAvity and Mrs. J. R. Thomson.

In the ladies' singles Mrs. H. Babbit defeated Miss M. Robertson, 6—1, 6—1.

In the ladies' doubles, Mrs. and Miss Babbit defeated the Misses Hazen, 6—0, 6—0.

After the matches the winners in the championship games were presented with cups by Mrs. Stewart Skinner and the winners in the tournament were presented with prizes by Mrs. P. W. Thomson.

At 4.30 o'clock tea was served by Miss McKenzie, Miss Phyllis Straton and Miss Lizzie Miller.

NEW POST NOW FOR KITCHENER

Appointed Inspector-General of Mediterranean Forces.

LONDON, Aug. 6.—Lord Kitchener, commander of the British forces in India, has been appointed to succeed the Duke of Connaught as inspector-general of the Mediatrranean forces, which post the duke recently resigned on the ground of "the ineffective nature of the work and the useless expense to the nation involved therein."

Lord Kitchener will take the rank of field marshal and also become a member of the committee of imperial defense. The inspector-general has command of the garrisons at Malta and Gibraltar and all the British troops in Egypt, the Soudan and Cyprus.

The appointment of Lord Kitchener is coincident with added importance being attached to the post. The Duke of Connaught in an official announcement says:

"In view of new developments in the organization, the Mediterranean command assumes increased importance and will be taken up by Lord Kitchener with the object of giving it its proper place in the scheme of imperial defense."

To Co-ordinate Forces

It is understood that as a result of the imperial defence conference which is now sitting, it is intended to co-ordinate all the military forces of the empire and place Lord Kitchener at the head of an organization having the imperial army for its special care. As a preparation for this work, for which he had gained valuable experience in India, on vacating Indian command in September, Lord Kitchener will go to Japan to represent Great Britain at the Japanese grand manoeuvres in November and afterwards make a tour of Canada, Australia and New Zealand to sturdy the military organiations and consult with the colonial governments concerning them.

Lord Kitchener is the youngest field marshal in the history of Great Britain. Lord Roberts was sixty years old old when he was raised to the rank, and Lord Wolseley was sixty-two. Lord Kitchener was fifty-nine years old in June.

REVENUE SHOWS A BIG INCREASE FOR 4 MONTHS

OTTAWA, Aug. 6.—The revenue of the Dominion for the first four months of the fiscal year exceeds the revenue of the same period in 1908 by about four and a half millions. Up to July 31st the revenue was $30,030,-11, while last year it was $25,502,299. For the month of July, the revenue receipts were $8,437,438, as against $6,663,460 in May, 1908, an increase of $1,774,078.

The expenditure on consolidated account for four months has been $20,-785,426, while expenditure on capital account to July 31st was $6,429,221. If revenue continues to increase at present rate there should be at the end of the fiscal year a betterment of from thirteen to fifteen millions over 1908.

THE FIRST ALMANACS.

They Attempted to Foretell Men's Destiny From the Stars.

The almanac, properly so called in its origin, is not merely a device for keeping people in mind of the progress of the year. It is an attempt to show what destiny has in store for us as indicated by the position of the stars in any particular year, and as, according to astrological lore, the destinies of men are ruled by the different aspects of the planets, so also the human body is subject to the influence of the constellations through which the sun appears to pass in his yearly course. A French almanac of 1610 gives a diagram of the human body surrounded by all the signs of the zodiac and indicates the various organs and members over which these signs have power, and this for a guide pour les saignees, or to show at what period blood may be let with safety. But the same almanac also gives directions sensible enough for the avoidance of the plague which would not be found fault with by a modern fashionable physician:

Who would keep his body in health
And resist the infection of the plague,
Let him seek joy and sadness fly,
Avoid places where infections abound
And cherish joyous company.

A few examples exist of almanacs of this character before the invention of printing, although none, it is believed, earlier than the twelfth century. But some of the earliest specimens of printing are black printed German sheet almanacs, which are chiefly concerned about blood letting.—Westminster Gazette.

NOT CONFIDING.
