## Carpentier Is Not Worried Over Weight

**Finds No Trouble in Bringing Heavy Men to the Floor With Punches.**

Manhasset, N. Y., June 8.—George Carpentier is well aware of the fact that he will enter the ring on July 2 several pounds lighter than Dempsey, the champion, but he does not worry about it.

He has demonstrated to his own satisfaction, in sparring with Joe Jeanette and Paul Johnson, that he can drop a heavy man with ease.

Joe Jeanette, who tips the scales at 240 pounds, went down Monday afternoon under the challenger's overhanded right, and Journe, at two hundred pounds, toppled easily when Georges' right connected.

It is believed by his trainers that Carpentier has developed his knock-out punch to a point of perfection. And now, when the barn doors are locked, Georges is perfecting his defence.

Georges is in the air when delivering the short right, overhand blow and he is working for a speedy recovery, knowing it to be dangerous business to be caught off balance.

## Babe Ruth Goes To Jail For Day

**Also Fined \$100 for Speeding His Big Automobile in New York City.**

New York, June 8.—Babe Ruth, the home-run king of the New York Americans, today was sentenced to one day in the city prison and fined \$100 in the magistrate's court for automobile speeding.

It was Ruth's second appearance in court here within the last few weeks on charges of speeding.

At his first trial, when he escaped with a nominal fine, he promised to be good and observe the law.

Ready To Pay Fine.

Six days ago, he was caught speeding on Riverside Drive, and arrested. Today he came to court prepared to pay a heavy fine. Officially his time in jail ended at 4 o'clock this afternoon. He will be allowed to play in the first half of the game between the Yankees and Cleveland here today.

In sentencing Ruth, the magistrate said: "Just because you are prominent is no excuse for speeding. To let you off would be a bad example for chauffeurs. I do not wish to force you to take a suggestion—you can accept it or do as you wish—but when driving on the streets of this city, Mr. Ruth, remember the law."

If the British golfers sweep everything before them it must be remembered that on this side of the water we've only played the game for about fifty years.

Even a General Assembly doesn't believe in too literal a translation of the passage from the Bible which "not, neither do they spin." An increase of a few hundred a year will prove a practical help in time of trouble.

So far there has been no suggestion to organize a committee of one hundred to investigate conditions in Oklahoma. Our hyphenates know their place.

A fashion note announces that the waist line is to be marked. This doubtless will be a great convenience for the young man who still pursues the practice so popular when some of us were younger, of calling upon the young lady quite regularly and with every possible requisite of decorum. The cost of living continues to rise in Spain. Quotations of the prices of leasins are not available, however.

## Intense Feeling Over Track Meet

**Rothschilds and St. John High Bar All Other Schools from Competing Next Saturday.**

The New Brunswick Inter-Scholastic Track Meet will not be held this year. A number of schools in the province who were planning on competing with St. John High School and Rothschilds Collegiate in the meet to be held on the Rothschilds Collegiate School's track at Rothschilds next Saturday, have been eliminated by a committee composed of two members from the Rothschilds Collegiate School and two from St. John High. These two schools have decided to hold a little meet all their own and all other teams have been declared ineligible.

The reason advanced by the committee to those schools who had already entered members was that they did not consider such teams would have a chance of winning the cup.

A peculiar feature of the committee's sudden decision is that it was taken after invitations had been extended to several schools to enter teams and that the change came only after Rothschilds Collegiate School, one of the schools invited to enter, and which had complied with all the regulations, brought to light a very promising track team, one of whom at least would have stood a good chance of lowering the records in several events.

This school has five men whose performances would warrant the assumption that they would have all won a place in the finals for the different events in which they entered.

Monteith, is of course, the star of the team, but in addition there is McMacin, Flewelling and two others. The Consolidated boys can put in three men who can do the hundred in 11 seconds flat, which equals the fastest time made in this event last year.

In the 220 they have two entrants who would go over the course in 36 flat. The best time last year was 35-4-5. In the jumps Monteith would give the boys of either school a hard run for honors.

In view of this fact, it would seem that both Rothschilds Collegiate and St. John High School might have arranged to allow other schools of the province who are willing to enter teams to become competitors.

There is no remedy for it, however, the old inter-scholastic cup put up for competition between all the schools in the province has already been won and the present cup is one put up by Rothschilds Collegiate School itself.

The rules and regulations governing this cup were last year placed in the hands of a committee composed of members of the Rothschilds Collegiate School and St. John High School and the St. John High School of Moncton. This latter school was not considered by the rest of the committee this year but was also barred from entering the meet.

The cup therefore will henceforth cease to be anything but an inter-school trophy between the two schools.

## What Gallivan Says About The Fighters

**Terms Dempsey "Big Bum Who Dodged the Draft"—Opposed to Bout.**

Washington, June 8.—A resolution designed to prohibit the Dempsey-Carpentier fight at Jersey City, July 2, unless Congress meanwhile shall have "fairly treated" United States soldiers who served in the great war, was introduced in the house today by Representative Gallivan, democrat, Mass.

In a statement, Representative Gallivan characterized Dempsey as a "big bum who dodged the draft" and declared that France had been at war for months before Carpentier joined the colors.

"The men who will pay \$50 for a ringside seat to watch these 'fighters' overwhelmed members of the last congress with their letters of protest against paying a mere pittance of a soldier bonus to real champions," Mr. Gallivan said. "It would not have cost these men individually \$50 to have helped meet the cost of a soldier bonus bill."

"I am opposed to this international bout on United States soil where millions of United States money is to be wasted until the service men and women have been fairly treated by the United States government."
